01000081 The support for democracy has remained strong and the trust of Nigerians in the democratic process is resilient since 1999. The 2023 elections represent another crucial step in the consolidation of Nigeria's democracy. The democratic process in Nigeria is challenging. On gender equality, largely some progress has been achieved through several initiatives and policy directions taken by the consecutive Nigerian governments. However, work still needs to be done to achieve gender equality. The country currently, ranks 181 of 193 countries on the Gender Equality Index for many reasons. Furthermore, Nigeria has the largest population of youth in the world, with a median age of 18.1 years. About 70% of the population is under 30, and 42% are under the age of 15. The Age Reduction Bill popularly known as 'Not Too Young To Run Bill' conceived by youth organizations, was signed into law in 2018. Yet, youth is scarcely represented in Nigerian politics, struggling to make their voice heard. Moreover, the country has experienced continuous increases in violent conflict across the nation in the past two decades. To tackle these challenges, this project seeks to contribute to more credible, transparent, inclusive and peaceful electoral processes through the 4 pillars below: Pillar 1: Capacity Pillar 2: Transparency Pillar 3: Inclusion Pillar 4: Peace	Capacity of national stakeholders to prevent and mitigate the threats to the integrity of information (misinformation, disinformation and hate speech) strengthened.	6/6/2023	12/31/2025		30000	GOVERNMENT OF SPAIN	71800 - Contractual Services-Imp Partn	130,568.00
					30000	AG. ESPANOLA DE COOPERACION INT.	72100 - Contractual Services-Companies	100,000.00
