Project Title: The unemployment rate of the young population between the ages of 18-29 is

15.0% and the rate of young people who are neither in education nor in employ

01004298 The unemployment rate of the young population between the ages of 18-29 is 15.9% and the rate of young people who are neither in education nor in employment (NEET) is 30.3%, making Türkiye one of the countries with highest NEET figures among OECD members. 43.4% of young women in Türkiye are NEET. The number of women between the ages of 18-29 who have graduated from vocational high school at least two years ago and who are not looking for a job, exceeds one million. It is estimated that young women are more likely to be NEET than men with a gap of 25.7 percentage points in the case of Türkiye . Family responsibilities in Türkiye, the burden of care (children, elderly, etc.), social roles, social structure and inequalities, marriage at an early age, women's education being less than men are the major factors leading to women's unemployment. The project aims to create good practice examples and establish mechanisms to increase the employability among NEET (Not in Education, Employment, or Training) women. By implementing the project, it will establish and strengthen networks and cooperation among relevant stakeholders at international, national and local levels. To increase the impact of this synergy among stakeholders, institutions' capacities will be invigorated to develop holistic services for empowerment of NEET women by addressing their challenges and needs and promoting institutions to bring this issue to their agenda. The project will also enhance skill development and employability opportunities through various models and capacity building activities for NEET women in collaboration with key stakeholders. The project will achieve this by promoting and disseminating a comprehensive approach on	Design and Implementation of the Trainings	4/1/2025	4/1/2027		30000	SABANCI FOUNDATION	72100 - Contractual Services-Companies	1,200.00
