01006028 The CBY FinTech Sandbox Project is a UNDP-supported initiative aimed at strengthening fintech innovation and financial inclusion in Yemen. The project will establish a safe and controlled Sandbox environment within the Central Bank of Yemen (CBY) to test digital financial solutions, including Unified QR standards, SoftPOS technologies, and locally developed fintech innovations. Through technical infrastructure, regulatory support, and a fintech hackathon, the project will enhance CBY's capacity to supervise emerging financial technologies and support Yemen's transition toward a more inclusive and digital financial system.	Enhancing Sandbox Operating Environment	3/1/2026	12/31/2026		04000	UNITED NATIONS DEVELOPMENT PROGRAMME	72300 - Materials & Goods	50,000.00
