Project Title (activity 10): Energy and waste solutions - Stabilisation through Solid Waste Management Project in Lebanon - Activity 10

Project Number: 00077650 – **Output Number:** 00090039

Implementing Partner: UNDP (DIM)

Start Date: 01 April 2021 **End Date:** 31 December 2024

Brief Description

<p>This project will work on two main approaches to support the solid waste sector in Lebanon building on the priorities set by the government itself being the closure of uncontrolled dumpsites which are a source of public health risk to local communities and Syrian refugees that are often living in proximity of the dumpsites and that are environmental threats: they contaminate groundwater and the natural environment that then impacts everyone in the areas around these sites or downstream from them. The second approach is the construction of sanitary landfills.</p>
