**Project Brief Description**

Decentralization & Local Governance is a multi-year, multi-tier, multi sector and multi-stakeholder project launched by UNDP Pakistan to strengthen participatory federalism and decentralization against the backdrop of 18th Constitutional Amendment (2010). The Project views the 18th Amendment through a governance, development and public policy lens and identifies strategic areas of intervention to transition management of democratic devolution at federal, provincial and local levels. The core objective of the project is to assist institutional mechanisms to strengthen effective service delivery for peace and development and ultimately contribute to the Sustainable Development Goals.
