1. Project Background

An Administrative Arrangement (AA) between the Asian Development Bank (ADB) and United Nations Development Programme (UNDP) was signed on 23 October 2018 for implementing a TA project titled: “Sustainable management of community development for Chittagong Hill Tracts”. The total value of this TA was USD 471,000. The original completion date of this TA was 30 June 2019. Later following a UNDP request dated 25 June 2019, ADB agreed to the Amendment of this Administrative Arrangement on 25 August 2019. Finally, its completion date was extended up to 30 June 2020. However, due to the worldwide nCOVID19 pandemic situation since 26 March 2020, field activities could not be implemented because of the lockdown situation, declaration of movement restrictions, restrictions in mass gatherings. In order to accomplish the remaining activities, UNDP requested ADB for another extension up to 31 December 2020. Accordingly, the Administrative Arrangement was further extended with a no-cost extension. The purpose of this TA was to support several development activities under the following 2 Outputs:

- **Output 1:** Capacity of Para Development Committees (PDCs) on Operation and Maintenance (O&M) of Subprojects Strengthened;
- **Output 2:** Capacity and awareness of Para Development Committees (PDCs) on planning of local development and service delivery strengthened.

The key interventions of this project have covered a total of 300 PDCs under the CHTRDP I & II to manage the community assets and maintain linkages with local government, including developing Asset user funds for them. Moreover, 125 unemployed youths were targeted to a Skilled-Resource pool to support community people in managing their community assets/infrastructures sustainably. Furthermore, the capacity and awareness of these community people on the planning of local development and service delivery were also targeted under this AA. This completion report covers the full implementation of this project and its results.

2. Progress of Activities

Some project activities were hampered due to the COVID-19 pandemic from March 2020 to mid-July 2020. However, the project was able to continue some of the activities following the GoB administrative directives, such as wearing mask, using hand sanitizer, gathering in smaller groups, maintaining social distance etc. Accordingly, the project was able to attain several planned achievements. The progress and achievements of targeted activities under each output are given in below table:

3. Output 1: Capacity of Para Development Committees (PDCs) on Operation and Maintenance (O&M) of Subprojects Strengthened:

Partner NGO Hiring and getting the required field staff:

3 partner NGOs were hired following the organizational competitive bidding process for implementing the major activities in 3 hill districts. The selected NGOs were (i) Assistance for the Livelihood of the Origins (ALO) for Khagrachari, their contract was signed on 26 June 2019, (ii) Ashika Manobik Unnayan Kendra (ASHIKA) for Rangamati, their contract was signed on 25 June 2019, and (iii) GRAUS Shadharon Tahobil (GRAUS) for Bandarban, their contract was signed on 23 June 2019. After signing these contracts, an introductory meeting was conducted on 23 September 2019 to review the work plans to finalize the implementation strategy for each output. The meeting also covered some administrative and finance-related issues in terms of the implementation of the project.

The 3 NGOs recruited a total of 38 staff (female: 13; male: 25) who were supporting the implementation of project activities as per the work plan. Each NGO's personnel is attached separately with a list of name, designation, and dates of joining as **Annex I**.

Amendment of the Administrative Arrangement:

ADB signed an Amendment of the Administrative Arrangement on 25 August 2019, and its details are mentioned in the background section of the report.

Coordination Meetings Organized:

Two regional level coordination meetings were organized on 2 July 2019 and 23 September 2019 with 26 participants in Rangamati. The meeting notes are attached in **Annex II**. Apart from these regional meetings, 24 district level coordination meetings were organized with all NGO staff, CHTRDP II district representative, SID-CHT, and UNDP to review project progress, challenges, and corrective measures accordingly. Details of the district level coordination meeting are attached in **Annex III**.

Photo: Regional level coordination meeting with 3 NGOs in Rangamati district

At the end of the project, a total of 3 regional level coordination meetings, including the active participation and valuable suggestion from the ADB consultants, were organized using zoom platform where 3 partner NGOs staff, SID-CHT, UNDP district team joined. Progress on the project activities was updated while challenges were discussed with possible solution to achieve all targets by December 2020. Accordingly, project activities were planned and achieved.

Hiring National Consultant (Civil Engineer):

A national consultant (Civil Engineer) was hired on 22 December 2019 following the organizational procedure to review and finalize the training modules. The consultant reviewed 4 clusters of modules covering – (a) repairing and maintenance of agricultural machinery and equipment; (b) repairing and maintenance of rural HBB road, RCC stairs works; (c) repairing and maintenance of water technologies; and (d) basic repairing and maintenance of home solar or electric power system.

ADB consultant was physically visiting community assets (water projects) supported by CHTRDP

Thus, a total of 14 R&M manuals (3 types of tube wells, ring well, GFS, infiltration gallery, power tiller, diesel-fueled power pump, electric submersible pump, rural herringbone brick road and RCC stair, lined irrigation canal system, home-based solar, home-based electric basic repairing and maintenance), of which the project developed 12 manuals with the help of 3 partner NGOs. The 4th manual on basic home-based solar and electric repairing and maintenance was redeveloped following ADB's request. The consultant also provided necessary supports to Partner NGOs to organize the skill development training for the selected youth as per project requirements and plans. Ensuring the backstopping and technical support to the field was also a part of his assignment. The training manuals required further editing to incorporate valuable feedback received from the participants during the training. After the incorporation of this feedback, the modules were finalized to train youths.

Activity 1 (i): Review O&M status of subprojects

A total of 200 subprojects (PDCs) under CHTRDP I and 100 PDCs from CHTRDP II were planned and selected. However, several community subprojects were reassessed jointly by the team with PMO of CHTRDP II, NGOs and SID-CHT, and UNDP considering the practical scenario and challenges experienced in the field having a series of discussions with ADB. As a result of this joint project review, a few subprojects were non-functional or needed higher repairing costs. The consultant engaged by ADB, conducted three consultation meetings in 3 hill districts separately on 15 September 2019 in Rangamati, on 16 September 2019 in Khagrachari, and on 17 September 2019 in Bandarban. He also visited a few subprojects under the CHTRDP I & II projects to take pragmatic and realistic decisions. The participant lists of those consultation meetings are attached in **Annex IV**.

Activity 1 (i) (a): Selection of 200 PDCs under CHTRDP I

At the end of the project, a total of 150 subprojects, out of the targeted 200 subprojects (PDCs) under CHTRDP I, were finally selected.

Activity 1 (i) (b): Selection of 100 PDCs under CHTRDP II

Finally, a total of 150 subprojects, out of the targeted 100 subprojects (PDCs) under CHTRDP II, were selected.

Thus, 300 PDCs/communities have been finally selected and helped to form the 126 clusters. The status of district wise PDCs and clusters is mentioned in Table 1, and the list of PDCs is also attached as **Annex V**.

Activity 1 (ii) Formation and reformation of O&M groups:

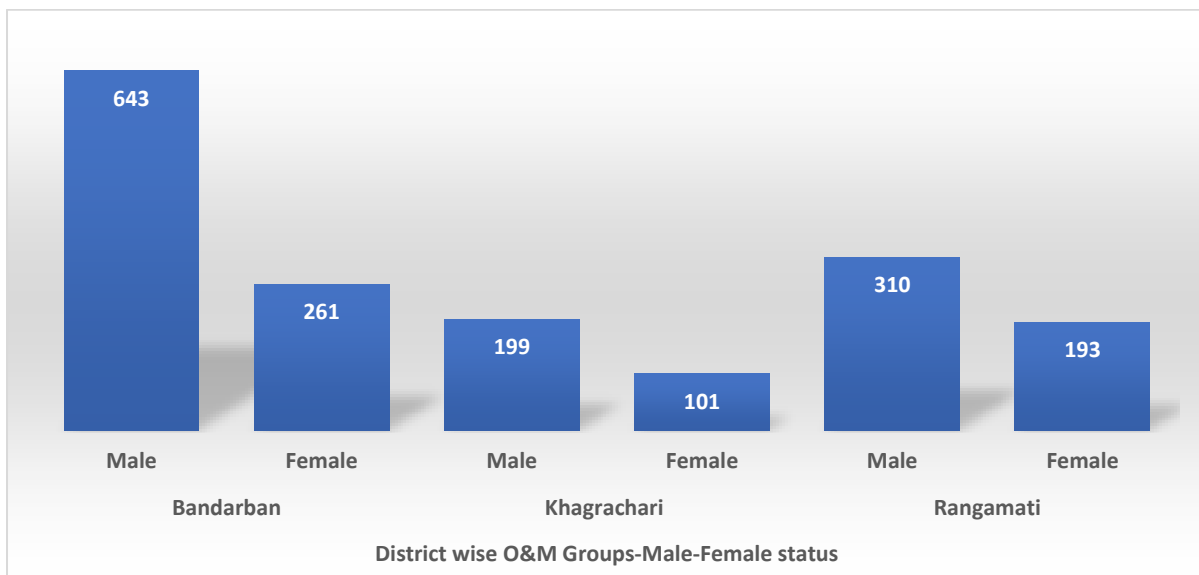

Activity 1 (ii)(a): Formation/reformation of 300 O&M groups with 50% female participation

As per project target, till October 2020, a total of 300 Operation and Maintenance (O&M) groups, 100 in each district, have been formed by PDCs where total members are 1707. In Bandarban, a total 904 members, of which 261 are female (29%), in Khagrachari, a total of 300 members, of which 101 are female (34%), and in Rangamati, a total of 503 members, of which 193 are female (38%). The average female members being 34% against the target 50%. These O&M group members will maintain community assets. The list of 300 O&M groups is attached in **Annex VI**.

Activity 1 (ii) (b): Development of at least 12 nos. R&M manuals by the capacity development NGO

At the end of the project, out of targeted 12 numbers of Repairing and Maintenance (R&M) manuals, 14 R&M manuals were developed with the active involvement of 3 Partner NGOs and a national consultant. The 03 (three) NGOs used these R&M manuals in the skill development training. **Activity 1 (iv) (b)** explains the skill development training for selected youths using these manuals.

Activity 1 (iii): Training for 900 PDC leaders on Leadership, organization and Financial Management:

Activity 1 (iii) (a): Training on leadership, organizational and financial management of 900 leaders (at least 30% women) from 300 PDCs

The training module on leadership, organization development, and financial management have been developed. Following this module, a total of 895 PDC leaders (male: 621, female: 274) from 300 selected PDCs of 3 hill districts, Bandarban, Khagrachari, and Rangamati, were trained on leadership, organizational and financial management, and the list of the PDC leaders is attached as **Annex VII**. This has been achieved earlier and reported accordingly in the previous progress report.

Activity 1 (iii)(b): Training on participatory planning, and monitoring towards strengthening governance and rural development of 500 members

A total of 601 PDC Leaders (male: 416; female:185) have been trained on participatory planning and monitoring towards strengthening governance and rural development during September and October 2020 while the target was 500. A training module on participatory planning and monitoring towards strengthening governance and rural development has been prepared by SID-CHT, UNDP. The 3 partner NGOs organized the training in three hill districts.

The chart below shows district wise male-female participants at the training:

Activity 1 (iv) (a): Selection of 125 unemployed youths of the locality for training on R&M of community assets

A total of 126 (against the target of 125) potential youths have been primarily selected from the cluster PDC's trained on different life skill training. Following a set of criteria, local communities/PDCs with the active involvement of O&M groups (where groups are formed/reformed) were selected these youths from the cluster communities. The list of 126 youths is attached in **Annex VIII**. The criteria used to select youth were as below:

- S/he must be a permanent resident in one of the clusters PDCs/Communities;
- S/he is currently self-employed or unemployed;
- S/he must be interested in receiving skills training and serving the communities as a technical person;
- Minimum capacity to read and write;
- Persons having previous minimum experiences on repairing of Agricultural equipment's and water access machinery, will be given priority;

- Age between 20-40 years and physically fit to move and provide services on repairing and maintenance of community assets after the training;
- Women candidates will get priority.

However, the project will engage only those who will complete the planned skill development training in the field to provide supports.

Activity 1 (iv) (b): Training on R&M of community assets of the selected unemployed youths of the locality:

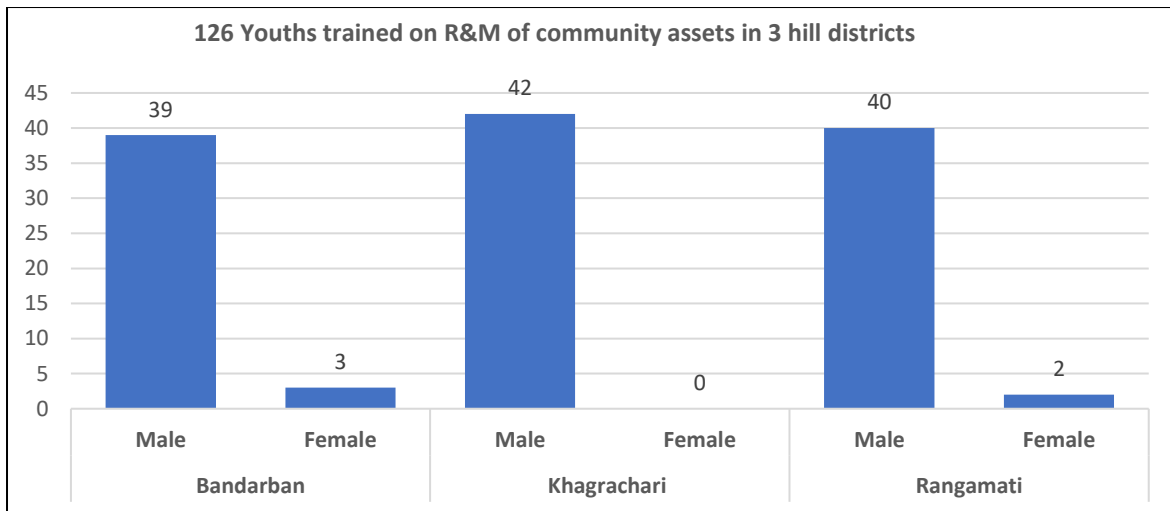

Finally, the project developed the skill of 126 youths (male: 121, female: 5) on (a) repairing and maintenance of agricultural machinery, and equipment; (b) repairing and maintenance of rural HBB road, RCC stairs works; (c) repairing and maintenance of water technologies and (d) basic repairing and maintenance of home solar or electric power system. The 3 NGOs have primarily developed the 3 (three) training modules on subjects mentioned above, which have been further reviewed and finalized by the National Consultant (Civil Engineer). The consultant also developed the 4th

training modules on basic repairing and home solar or electric power system maintenance. These training modules have been followed for eight days skill development training for the selected youths. The training was designed as 30-40 percent theory and 60-70 percent practical in the field and mostly involved by the participants to do the hands-on practice. During the training, they repaired tube wells, ring wells, HBB Road, power tiller, and pump machine, etc. Apart from the key facilitators, the selected experienced mechanics or mesons were also involved in showing the demonstration. Thus, the project created a perfect learning environment for the participants, following which they have learned a lot. At the end of the training, a post-training evaluation has also been conducted where 80% of participants have been found confident to utilize their knowledge and skills in their Community Assets repairing and maintenance.

Below Chart provides a district wise status of 126 trained youth:

Practical session on solar system during refresher training in Bandarban

Practical session during refresher training in Rangamati

The above 126 youths (male:121; female; 5) were trained further for 3 days through 6 batches of refresher training. These refresher training's objective was to develop knowledge and skills on weak areas on which youths were not confident during their R&M support to community people.

Activity 1 (iv)(c): 4% of TA fund for procuring the toolboxes to the unemployed youth of the locality

Three partner NGOs; ALO in Khagrachari, GRAUS in Bandarban and ASHIKA in

Group work during refresher training in Khagrachari

Rangamati procured necessary tools as per their organizational policy. At the end of the training, 42 youths in each district (126 youths in three districts) received the required tools, which made them happier and enabled them functioning as mechanics and or mesons.

Supplying toolboxes to the trained youths were included in the NGO contracts as one of the deliverables. The NGOs were selected through an open competitive bidding process following UNDP's rigorous procurement procedures and guidelines. In the end, the total budget for all 126 toolboxes required USD 4,608, which is less than initially budgeted. It should be noted that UNDP trained 126 youths against the original target of 125 youths.

The district wise tools distributed by 3 NGOs are given in below tables:

Activity 1 (v): Creation of asset user fund in 300 targeted communities

Orientation on Community Asset User Fund Creation guideline was organized for the project staff on 8 September 2020 through Zoom platform. This orientation's objective was to orient staff on the guideline, different formats/tools to be used based on which community prepared their Community Asset R&M Plans and will be supported accordingly. The field staff, after the orientation, supported communities in their respective district to prepare Community Asset R&M plans and further actions such as; sending of required documents, bank account information, NID copies of bank signatories, photo etc. The required document of 300 O&M groups list is now with UNDP, and the fund transferring to the community bank account was completed. Below is the district wise distribution of O&M groups:

Name of district	Number of O&M Groups	Total leaders in the group	Male	Female
Bandarban	100	904	643	261
Khagrachari	100	300	199	101
Rangamati	100	503	310	193
Total	300	1707	1152	555

UNDP and its partner NGOs tried to bring more women into leadership positions with a target of a 50:50 ratio. However, since it was the people's decision, where males are dominant in society with stronger voice in decision-making, it was not possible to achieve the target of 50

percent women in the leadership position. However, it should be noted that in most cases, the communities entrusted women to manage cash and elected them as treasurer.

Activity 1 (v) (i): R&M need identification and at least 2 supports provided by trained youth to his/her assigned cluster

One hundred twenty-six youths, immediately after completing the training, went back to their communities with knowledge and skills they were obtained from the skill development training on Repairing and Maintenance (R&M) of Community Assets. Each youth has been assigned to support the repairing and maintenance of at least two assets in their community. The active engagement of 126 trained youths' repaired a total of 252 Community Assets during the project period. In this way, the youths could utilize their knowledge and show their capability to repair and maintain community assets and get some income from it.

Name of district	Number of youths provided support	Number of cases supported	Types of R&M cases	Immediate Results

4. Output 2: Capacity and awareness of Para Development Committees (PDCs) on planning of local development and service delivery strengthened.

Activity 2 (i): Training for 600 PDC leaders on negotiation skills to mobilize resources and services from local government (union and Upazila):

A training module on “Negotiation skills to mobilize resources and services from local government (Union and Upazila)” drafted by NGOs, was further reviewed and cleared by SID-CHT, UNDP. Following this training module, 3 NGOs- ALO, ASHIKA and GRAUS organized 22 batches of training in 3 hill districts of Khagrachari, Rangamati, and Bandarban with the participation of 601 (male: 403 ; female: 198) members participated in the training.

Activity 2 (ii): Develop and implementation of 300 joint-plans for operation and maintenance of public infrastructures:

This activity is linked to Activity 1 (v). Following the format introduced, the Partner NGOs facilitated communities to develop their Asset Repairing and Maintenance (R&M) plans, which will be the basis for Community asset User Fund creation and placed at UDCCs for endorsement (if possible). At the end of the project, this project supported 300 R&M plans.

Activity 2 (iii): Organize quarterly coordination meetings between PDCs and UDCCs:

This activity is divided into two activities (a). Organize quarterly coordination meetings between PDCs and UDCCs; (b). Linkage building workshop between Union Parishads, Service providers, and PDC leaders at Union level).

(a). Organize quarterly coordination meetings between PDCs and UDCCs;

A total of 6 (six) Union Development Coordination Committee (UDCC) meetings were organized in 3 hill districts of Khagrachari, Rangamati, and Bandarban with the participation of 226 members (male 175; female 51) to strengthen the coordination mechanism at the local level. In these meetings, issues such as; development planning, service requirement, potential resources identification, joint-planning, and progress monitoring were discussed.

(b). Linkage building workshop between Union Parishads, Service providers and PDC leaders at Union level).

Out of targeted 29 linkage building workshops, 29 linkage building workshops were organized in Khagrachari, Rangamati, and Bandarban at the end of the project. In Khagrachari, 9 linkage building workshops organized with the participation of 225 members (male 156; female 69) while in Rangamati, 10 linkage building workshops were organized with the participation of 382 members (male 271; female 111). In Bandarban, the project organized 10 linkage building

workshops with the participation of 200 members (male 151; female 49).

5. Project Monitoring and Reporting Mechanism:

SID-CHT, UNDP was primarily responsible for ADB funded project monitoring and reporting. The hired NGOs had dedicated Monitoring and Reporting officers responsible for playing a vital role in monitoring and reporting. The SID-CHT M&E focal person was in the lead of overall Monitoring and reporting mechanism of this project. SID-CHT, UNDP has a systematic monitoring and evaluation mechanism in place for other components – Agriculture and Food Security Project (AFSP III), CHT Climate Resilience Project (CCRP), CHT Watershed co-management activities in every layer of the community, Upazila, district, and regional levels which will also be operationalized for this ADB TA project. The ADB funded project monitoring and reporting mechanism was linked with the SID-CHT existing monitoring and reporting mechanism with partner NGOs and other stakeholders. PNGO field teams under the guidance of M&E focal persons of SID-CHT were regularly conducted process and progress monitoring and reporting, routine data flow diagram, data collection tools, techniques, data validation, and database management for this project. Different report formats and training trackers were introduced and used to prepare the reports and provide updates.

Moreoevr, UNDP district team, particularly the District Managers, District Livelihoods and Community Mobilisers, worked together on the process and progress monitoring tools and relevant database. As part of this process, community people – particularly Para Development Committee (PDCs), field team Partner NGOs, union and Upazila parishad representatives were engaged with monitoring, feedback, and follow-up mechanism processes. The field team of Partner NGOs and SID-CHT, UNDP participated in staff planning and coordination meetings with the stakeholders to identify the key successes and areas for further improvement and to keep the right tracks' activities.

6. Visibility and communications:

At the end of the project, visibility, promotional, and communication materials were produced, following the ADB and UNDP

visibility guidelines. ADB, GoB and UNDP logos were used along with project key messages in different banners produced to organize meetings and

workshops. At the end, the project

designed/developed 2 (two) types of festoons, t-shirt, and caps with logos and messages.

However, these materials were printed and delivered. These materials were developed in Bangla later mainly used by PDCs, trained youths, and project staff, increasing donor visibility and enhancing awareness of Community Asset Repairing and Maintenance Issues.

7. Results or stakeholders' voice:

A number of voices from the key stakeholders were collected to understand the impact trend of the project.

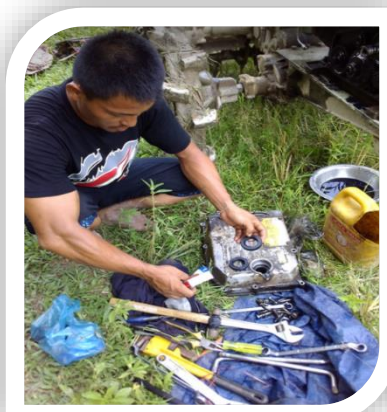

Youth brings changes in his village Community Asset Repairing after skill development training

Jogot Mohon Karbari Para of Chengi union, in Panchari Upazila of Khagrachari Hill District is a village that takes half an hour (walking) from Chengi union parishad. Mr. Supaion Chakma lives in this village with his family consisting 5 members with his wife, two children and his mother in a tin-shed and fenced house. He used to cultivate a small amount of land and somehow managed to make a living. Due to his farming, Supaion has connections with a number of agricultural machinery. He tried to repair some machines if they were damaged but sometimes failed to repair correctly.

It was a great opportunity for him when he was selected as a potential youth out of 42 youths to be trained under ADB funded Sustainable Management of Community Development for CHT (SMCD) project implemented under SID-CHT, UNDP through local partner NGO ALO in Khagrachari. He participated in the 8 days plus 3 days refreshers training and obtained -on skills and knowledge on repairing and maintaining community assets. After completing the training successfully, he gained the confidence to repair his own PDC machines as well as offering repairing services to different areas on Power Tiller, Pump Machine, Tube-well, Ring well, Solar Panel etc.

He went back to his community and supported to repair power tiller and tube-well. By doing so, he had been able to contribute to the development of his area and could upgrade the economic condition of the family by earning.

This has created additional income opportunities and improved the economic situation of the family. In response to a question, Mr. Supaion said, “I provide repair services in my area out of

my sense of responsibility; hence the service receivers got happy and gave me honor. By doing this, my financial stagnation and my family are being supported”.

Mr Sonkor Chakma, president of the PDC, said, *“In the past, to repair any equipment, a mechanic had to be brought in from outside. It cost a lot of money for any work. But at present, there is no need to bring mechanics from outside to fix the equipment since we have an expert trained mechanic in our area who got trained under the SID- CHT- UNDP project. It has reduced our cost and sufferings. As a result, we have been benefiting greatly, and Mr. Supaion has personally found a way to deal with his family’s financial crisis.”*

Voice from the Participants during Linkage building workshops:

Mr. Dilip Pangkho, Secretary, Pangkhoha Para PDC, Bilaichari, Rangamati said that, “Today I feel myself very privileged to get the opportunity to attend this workshop. I came to know many things from here, which I never knew before. I express my gratitude to the organizers, UNDP and ADB for such arrangement and facilities. We, the PDC leaders have come to know our duties and responsibilities from this workshop. Such initiative enhances our knowledge and awareness, and I would like to request concerned organizations specially UNDP and ADB to organize similar programs regularly.”

Ms. Namita Tanchangya, President, Downpara PDC, Bilaichari, Rangamati commented in her speech that, “I had many questions and many things to be clear about. I have got all my answers and clarifications from this workshop. In addition, I came to know the prevailing services in Union Parishad and Govt. line departments. It will help us to a great extent to run our PDC’s smoothly and efficiently. Finally, I would like to thank ASHIKA, UNDP and ADB for extending their gracious cooperation for community and for sustainable development as well.”

A regional level experience sharing workshop on Community Asset Management by Communities was organized with the participation of 51 participants (male:42; female 9) from a different category of stakeholders on 22 December 2020 at the Conference room of Hill District Council, Rangamati. During the workshop, participants received a t-shirt, cap containing donor logos and messages, and masks. The objective of the workshop was to learn from the trained youths, PDC leaders, and key stakeholders on their experiences on managing community assets by the communities. In the end, the workshop obtained following two outputs:

- PDCs, youth, Union and Upazila Parishad representatives shared their experiences on managing community assets by the communities;
- Necessary recommendations on future intervention about managing community assets by the communities.

The youths expressed that after receiving skill development training on Community Asset repairing and management, they were able to support PDCs in repairing community assets such

as; tube-well, ring well, pump machine, power tiller, solar/electric, HBBR, RCC stairs, line irrigation canal etc. more confidently. Mr. Mehedi Hasan, one of the trained youth from Langadu expressed his sincere thanks to ADB and UNDP for giving him the opportunity to receive the training. He added that it brings more responsibility for him to perform in the community. One of the PDC leaders requested youths and others not to seek more support for training or fund, instead 126 trained youths can develop skills of more youths by engaging them during their work.

Mr. Bidhan Chakma, Upazila Chairman, Barkal, Rangamati stated that PDCs and youth should own the intervention and continue even after the completion of the project. These PDCs, including youth, should have regular communications with Union and Upazila Parishads for services.

In his speech, Mr. Shishir K. Shil, ADB consultant, expressed that the fund was small but the spectrum of the results was huge as he could feel from the workshop discussions. He also added that the PDCs and youth should have a communication mechanism and share knowledge to continue Community Asset R&M activities.

8. Challenges and Lessons Learned:

At the end of the project, the project faced the following challenges and learned few lessons:

- From 26 March to August 2020, project activities could not implement due to COVID-19 pandemic, mobility restrictions, restrictions in mass gathering, etc. However, the project was able to resume its activities following the new normal conditions such as organizing the trainings complying with GoB administrative guidance for instances, use of mask, hand sanitizer, hand washing, keeping social distances, etc. Accordingly, the project was able to make significant achievements at the end of the project.
- As a result of several field visits, it was noticed that in some communities, the community assets are non-functional and needed higher costs for repairing. However, this challenge was addressed by mobilizing and engaging community resources in consultation with ADB.

- Obtaining information from PDCs found to be difficult since a few activities such as; completion of CHTRDP I 5-8 years ago. However, it was overcome by making better coordination between ADB, CHTRDP II and UNDP team. The CHTRDP I subprojects list has been received to select 300 communities covering 50% from CHTRDP I and 50% from CHTRDP II.
- Several social and political unforeseen developments in the Chittagong Hill Tracts have caused the delay in project implementation.
- Obtaining national consultants has been a challenge. Only 1 (national consultant-civil engineer) out of 3 desired consultants (mechanical engineer and water facility expert) has been possible to get on board, with all effort. This has hampered to finalize the technical training modules for youth skill development.
- The project learned that better coordination among all the parties is beneficial to get the job done smoothly.
- Immediately after the training, it is learned that the trained youths have been able to play a vital role in their communities to repair and maintain Community Assets with a readily available mechanism in place.
- It was not easy to bring women into leadership positions in a male-dominant society where the men play a vital role in decision-making and control over the resources.

Introduction:

Oishwarja Chakma, District Manager, SID-CHT Project, UNDP welcome the participants and briefed on the objectives and purpose of the meeting. The main purpose of the meeting is to select 100 PDC (50 PDC from CHTRDP-I & 50 PDC from CHTRDP-II) and organize these PDCs under 42 clusters to be covered under the 'Sustainable Management of Community Development in Chittagong Hill Tracts (Rangamati District) project funded by ADB. The local NGO ASHIKA was selected through a competitive bidding process to support implement this project in Rangamati District.

After a brief round of self-introduction, Bihita Bidhan Khisa facilitated PDC selection process by introducing the list of PDCs shared by CHTRDP-II teams under implementation phases - I & II. While selecting the PDCs, the participants considered the following criteria: (i) service deprivations /lack of access to services from GO/NGO service providers, (ii) inclusion in terms of ethnicity and

geographical remoteness; (iii) spatial proximity of PDCs to form a cluster. After through deliberations and analysis, the followings decisions have been made:

SN	Agenda / Topic	Discussion	Decision
01	Selection of 50 PDC from CHTRDP-I and organizing them into 21 clusters	Bihita Bidhan Khisa, DLCM, SID-CHT Project, shared a list of 1061 PDCs initially organized into 172 clusters. This list of PDCs was prepared based on the project completion report shared by CHTRDP-I team with UNDP. In this meeting, the entire list of phase-I PDCs and 172 clusters were thoroughly reviewed. After critical review and analysis a list of 50 PDCs have been prioritized and organized into 21 clusters have been finalized.	A list of 50 PDCs from phase-I organized into 21 clusters for project intervention (list attached)
02	Selection of 50 PDC from CHTRDP-II and organizing them into 21 clusters	In January this year, a list of 96 PDCs organized into 30 clusters have been prioritized with CHTRDP-II representatives (Mr. Abirata Chakma, DPD; Eng Purnodhan Chakma & Mr. Deepak Chakma, PNGO) through a meeting dated 06/01/2019. This phase-II list was further reviewed to finalize selection of 50 PDCs and 21 clusters from phase-II.	A list of 50 PDCs from phase-II selected and organized into 21 clusters for project intervention (list attached)

The meeting ended with vote of thanks to the chair.
