1. Does the project specify how it will contribute to higher level change through linkage to the programme's Theory of Change?

- 3: *The project is clearly linked to the programme's theory of change. It has an explicit change pathway that explains how the project will contribute to outcome level change and why the project's strategy will likely lead to this change. This analysis is backed by credible evidence of what works effectively in this context and includes assumptions and risks.*
- 2: The project is clearly linked to the programme's theory of change. It has a change pathway that explains how the project will contribute to outcome-level change and why the project strategy will likely lead to this change.
- 1: The project document may describe in generic terms how the project will contribute to development results, without an explicit link to the programme's theory of change.

Evidence:

En el PRODOC del proyecto contempla una teoría d el cambio la cual está apegada a los propósitos del programa y está sustentada a partir de un análisis sobre las necesidades de fortalecimiento de la CONA NP, las cuales se muestran de la página 2 a la 4 del citado documento, así como del análisis de la colaboración entre PNUD y la CONANP en el tema de fortalecimiento de su gestión y operación, la cual se encuentra en las páginas 16 a la 18

- 3: The project responds to at least one of the development settings as specified in the [Strategic Plan](#)¹ and adapts at least one [Signature Solution](#)². The project's RRF includes all the relevant SP output indicators. (all must be true)
- 2: *The project responds to at least one of the development settings as specified in the Strategic Plan⁴. The project's RRF includes at least one SP output indicator, if relevant. (both must be true)*
- 1: The project responds to a partner's identified need, but this need falls outside of the UNDP Strategic Plan. Also select this option if none of the relevant SP indicators are included in the RRF.

Evidence:

El proyecto responde a con al Plan Estratégico, en - Acelerar las transformaciones estructurales para el desarrollo sostenible y en la solución -Promover soluciones basadas en la naturaleza para un planeta sostenible. Lo anterior se infiere en virtud de que la ejecución del proyecto se centra en el fortalecimiento del manejo efectivo de las áreas naturales protegidas, competencia de la federación, cuyo fin principal conservar la biodiversidad representativa de los ecosistemas para asegurar el equilibrio y la continuidad de los procesos evolutivos y ecológicos y cuyas características no han sido esencialmente modificadas, promoviendo el desarrollo sostenible.

4. Do the project target groups leave furthest behind?

- 3: The target groups are clearly specified, prioritising discriminated, and marginalized groups left furthest behind, identified through a rigorous process based on evidence.
- 2: *The target groups are clearly specified, prioritizing groups left furthest behind.*
- 1: The target groups are not clearly specified.

Evidence:

De manera indirecta el proyecto contribuye a "no dejar a nadie atrás" ya que fortalecer el manejo efectivo de las ANP implica tomar en cuenta las demandas y características específicas de cada una de ellas, pues poseen una variedad de características biológicas y sociales, presiones y usos distintos. Por ello para alcanzar el manejo efectivo se requiere adoptar objetivos de manejo y sistemas de gobernabilidad adecuados, así como identificar los recursos pertinentes para la ejecución de estrategias de manejo en el momento preciso. Esto deriva en que los habitantes y usuarios de las ANP se involucren, no solo en la conservación de la biodiversidad sino en la búsqueda del desarrollo sustentable a partir del uso responsable de los recursos naturales.

La evidencia es el PRODOC del proyecto, el cual se encuentra ya registrado en el punto 1

5. Have knowledge, good practices, and past lessons learned of UNDP and others informed the project design?

- 3: *Knowledge and lessons learned backed by credible evidence from sources such as evaluation, corporate policies/strategies, and/or monitoring have been explicitly used, with appropriate referencing, to justify the approach used by the project.*
- 2: The project design mentions knowledge and lessons learned backed by evidence/sources but have not been used to justify the approach selected.
- 1: There is little, or no mention of knowledge and lessons learned informing the project design. Any references made are anecdotal and not backed by evidence.

Evidence:

La colaboración del PNUD y la CONANP data desde el año 2002 y el proyecto tomó en cuenta los resultados de los proyectos que desarrollaron en esos años, así como de la situación actual de la CONANP en términos presupuestales y la brecha financiera que existe en sus ANP, para diseñar sus resultados y metas.

6. Does UNDP have a clear advantage to engage in the role envisioned by the project vis-à-vis national / regional / global partners and other actors?

- 3: An analysis has been conducted on the role of other partners in the area where the project intends to work, and credible evidence supports the proposed engagement of UNDP and partners through the project, including identification of potential funding partners. It is clear how results achieved by partners will complement the project's intended results and a communication strategy is in place to communicate results and raise visibility vis-à-vis key partners. Options for south-south and triangular cooperation have been considered, as appropriate. (all must be true)
- 2: *Some analysis has been conducted on the role of other partners in the area where the project intends to work, and relatively limited evidence supports the proposed engagement of and division of labour between UNDP and partners through the project, with unclear funding and communications strategies or plans.*
- 1: No clear analysis has been conducted on the role of other partners in the area that the project intends to work. There is risk that the project overlaps and/or does not coordinate with partners' interventions in this area. Options for south-south and triangular cooperation have not been considered, despite its potential relevance.

Evidence:

El proyecto cuenta con una comunicación cercana con los proyectos: Resiliencia, Especies en Riesgo y Especies Prioritarias que la CONANP tiene con PNUD, con los cuales en el proyecto 0089948, que le antecede, realizó reuniones estratégicas para posicionarse como un frente común ante la CONANP, De lo anterior se derivó una infografía y un video en conjunto.

Si bien los grupos de discriminados y marginados no son el objetivo de atención del proyecto, las ANP dan servicios a estos grupos, de manera indirecta, tanto con los programas de subsidio que se aplican en zonas de alta marginación como a través de su manejo efectivo, el cual se fortalecerá a partir del proyecto y el cual requiere el adoptar objetivos de manejo y sistemas de gobernabilidad adecuados.

El proyecto en su diseño cuenta con una estructura de gobernanza a través de su Junta del Proyecto y una instancia denominada "Comité Técnico" el cual es un órgano interno de la CONANP, que se reunirá por lo menos cuatro veces al año para: Revisar y evaluar el avance en las actividades y cumplimiento de objetivos del Proyecto a partir de la información de las áreas y personal involucrado; Establecer, enfocar o rediseñar la estrategia del proyecto; Analizar o en su caso resolver asuntos relacionados con el avance de las actividades del proyecto, a fin de darle seguimiento al plan de trabajo y cumplir con los indicadores de desempeño; Monitorear la situación del presupuesto, así como la aportación oportuna de los recursos financieros, humanos y técnicos para el cumplimiento del plan de trabajo; Establecer su calendario de reuniones ordinarias y acordar las reuniones extraordinarias que se requieran para atender sus propias funciones.
