

ANNEX I: PROJECT QUALITY ASSURANCE REPORT

PROJECT QA ASSESSMENT: DESIGN					
OVERALL PROJECT	Exemplary (5) *****	Highly Satisfactory (4) ****j	Satisfactory (3) ***ij	Inadequate (1) *iiii	
	At least four criteria are rated Exemplary, and all criteria are rated High or Exemplary.	All criteria are rated Satisfactory or higher, and at least four criteria are rated High or Exemplary.	At least six criteria are rated Satisfactory or higher, and only one may be rated Needs Improvement. The Principled criterion must be rated Satisfactory or above.	At least three criteria are rated Satisfactory or higher, and only four criteria may be rated Needs Improvement.	One or more criteria are rated Inadequate, or five or more criteria are rated Needs Improvement.
DECISION					
APPROVE – the project is of sufficient quality to be approved in its current form. Any management actions must be addressed in a timely manner.					
APPROVE WITH QUALIFICATIONS – the project has issues that must be addressed before the project document can be approved. Any management actions must be addressed in a timely manner.					
DISAPPROVE – the project has significant issues that should prevent the project from being approved as drafted.					
RATING CRITERIA					
Select the option that best reflects the project					
STRATEGIC					
<p>1. Does the project specify how it will contribute to higher level change through linkage to the programme's Theory of Change?</p> <p>3: The project is clearly linked to the programme's theory of change. It has an explicit change pathway that explains how the project will contribute to outcome level change and why the project's strategy will likely lead to this change. This analysis is backed by credible evidence of what works effectively in this context and includes assumptions and risks.</p> <p>2: The project is clearly linked to the programme's theory of change. It has a change pathway that explains how the project will contribute to outcome-level change and why the project strategy will likely lead to this change.</p> <p>1: The project document may describe in generic terms how the project will contribute to development results, without an explicit link to the programme's theory of change.</p> <p>*Note: Projects not contributing to a programme must have a project-specific Theory of Change. See alternative question under the lightbulb for these cases.</p>					
Evidence:					
3	Yes the Prodoc clearly outlines the Theory of Change (Page 5).				
2	As well as: Development Setting - b) Accelerate structural transformations for sustainable development.				
1	Signature Solution - The project and responds to Signature Solution 2 to strengthen effective, inclusive and accountable governance; and Signature Solution 6 to strengthen gender equality and the empowerment of women and girls.				
<p>2. Is the project aligned with the UNDP Strategic Plan?</p> <p>3: The project responds to at least one of the development settings as specified in the Strategic Plan and adapts at least one Signature Solution . The project's RRF includes all the relevant SP output indicators. (all must be true)</p> <p>2: The project responds to at least one of the development settings as specified in the Strategic Plan4. The project's RRF includes at least one SP output indicator, if</p>					

relevant. (both must be true)	
1: The project responds to a partner's identified need, but this need falls outside of the UNDP Strategic Plan. Also select this option if none of the relevant SP indicators are included in the RRF.	
3	Evidence:
2	Evidence: Yes. Page 1 of the Prodoc is aligned to the SRPD (2018-2022) which is derived from UNDP Strategic Plan.
1	
3- Is the project linked to the programme outputs? (i.e., UNDAF Results Group Workplan/CPD, RPD or Strategic Plan IRRF for global projects/strategic interventions not part of a programme)	
Yes (3)	
No (1)	
RELEVANT	
4- Does the project target groups left furthest behind?	
3: The target groups are clearly specified, prioritising discriminated and marginalized groups left furthest behind, identified through a rigorous process based on evidence.	
2: The target groups are clearly specified, prioritizing groups left furthest behind.	
1: The target groups are not clearly specified.	
*Note: Management Action must be taken for a score of 1. Projects that build institutional capacity should still identify targeted groups to justify support	
3	Evidence:
2	Output 3 of the Prodoc is dedicated to ensure that Gender and Social Inclusion (refer to Results framework on Page 18). The project targets all persons seeking access to justice both from the accused and victim perspective. As such, consultations have been held with all justice stakeholders, as well as persons with disabilities and vulnerable victims in contact with the law to identify needs and ascertain how the project can support the identified needs.
1	
5- Have knowledge, good practices, and past lessons learned of UNDP and others informed the project design?	
3: Knowledge and lessons learned backed by credible evidence from sources such as evaluation, corporate policies/strategies, and/or monitoring have been explicitly used, with appropriate referencing, to justify the approach used by the project.	
2: The project design mentions knowledge and lessons learned backed by evidence/sources, but have not been used to justify the approach selected.	
1: There is little or no mention of knowledge and lessons learned informing the project design. Any references made are anecdotal and not backed by evidence.	
*Note: Management Action or strong management justification must be given for a score of 1	
3	Evidence:
2	The purpose of this project is to scale up the initiatives undertaken as pilots, and the project is sufficiently resourced to do so.
1	
PRINCIPLED	
6. Does UNDP have a clear advantage to engage in the role envisioned by the project vis-à-vis national/regional/global partners and other actors?	
3: An analysis has been conducted on the role of other partners in the area where the project intends to work, and credible evidence supports the proposed engagement of UNDP and partners through the project, including identification of potential funding partners. It is clear how results achieved by partners will complement the project's intended results and a communication strategy is in place to communicate results and raise visibility vis-à-vis key partners. Options for south-south and triangular cooperation have been considered, as appropriate. (all must be true)	
2: Some analysis has been conducted on the role of other partners in the area where the project intends to work, and relatively limited evidence supports the proposed engagement of and division of labour between UNDP and partners through the project, with unclear funding and communications strategies or plans.	
1: No clear analysis has been conducted on the role of other partners in the area that the project intends to work. There is risk that the project overlaps and/or does not	

coordinate with partners' interventions in this area. Options for south-south and triangular cooperation have not been considered, despite its potential relevance. *Note: Management Action or strong management justification must be given for a score of 1	
3	Evidence:
2	UNDP is the primary development partner working with Fiji Police Force, and will be part of a larger programme funded by MFAT, supporting the arepolice in different areas. This increases the opportunities for complementarity, and positions UNDP and the best positioned development partner to carry out this work. The Prodoc has been developed based on the pilot project, carried out over 4 years, and therefore ties in well with the institutional goals of the police. This further supports the likelihood that activities will be incorporated by the government, and the police will have full ownership over the implementation of the planned activities.
1	
7. Does the project apply a human rights-based approach?	
3: The project is guided by human rights and incorporates the principles of accountability, meaningful participation, and non-discrimination in the project's strategy. The project upholds the relevant international and national laws and standards. Any potential adverse impacts on enjoyment of human rights were rigorously identified and assessed as relevant, with appropriate mitigation and management measures incorporated into project design and budget. (all must be true)	
2: The project is guided by human rights by prioritizing accountability, meaningful participation and non-discrimination. Potential adverse impacts on enjoyment of human rights were identified and assessed as relevant, and appropriate mitigation and management measures incorporated into the project design and budget. (both must be true)	
1: No evidence that the project is guided by human rights. Limited or no evidence that potential adverse impacts on enjoyment of human rights were considered. *Note: Management action or strong management justification must be given for a score of 1	
3	Evidence:
2	This project has been developed specifically to assist the Government of Fiji in implementing the UNCAT through the expansion of the First-Hour Procedure and Video-Recorded Interviews. This ensures a heightened level of meaningful participation and non-discrimination for end beneficiaries.
1	
8. Does the project use gender analysis in the project design?	
3: A participatory gender analysis has been conducted and results from this gender analysis inform the development challenge, strategy and expected results sections of the project document. Outputs and indicators of the results framework include explicit references to gender equality, and specific indicators measure and monitor results to ensure women are fully benefitting from the project. (all must be true)	
2: A basic gender analysis has been carried out and results from this analysis are scattered (i.e., fragmented and not consistent) across the development challenge and strategy sections of the project document. The results framework may include some gender sensitive outputs and/or activities but gender inequalities are not consistently integrated across each output. (all must be true)	
1: The project design may or may not mention information and/or data on the differential impact of the project's development situation on gender relations, women and men, but the gender inequalities have not been clearly identified and reflected in the project document. *Note: Management Action or strong management justification must be given for a score of 1	
3	Evidence:
2	Yes. There is a dedicated output 3 to ensure that Gender and Social Inclusion (refer to Results framework on Page 18).
1	
9. Did the project support the resilience and sustainability of societies and/or ecosystems?	
3: Credible evidence that the project addresses sustainability and resilience dimensions of development challenges, which are integrated in the project strategy and design. The project reflects the interconnections between the social, economic and environmental dimensions of sustainable development. Relevant shocks, hazards and adverse social and environmental impacts have been identified and rigorously assessed with appropriate management and mitigation measures incorporated into project design and budget. (all must be true).	
2: The project design integrates sustainability and resilience dimensions of development challenges. Relevant shocks, hazards and adverse social and environmental	

impacts have been identified and assessed, and relevant management and mitigation measures incorporated into project design and budget. (both must be true)	
1: Sustainability and resilience dimensions and impacts were not adequately considered.	
*Note: Management action or strong management justification must be given for a score of 1	
3	Evidence:
2	The Fiji Police Force, in conjunction with the other key justice stakeholders, have led all initiatives throughout the duration of the pilot project and it is envisaged that this leadership will continue with this extension. The Fiji Police Force have taken ownership of the design and the activities to be carried out in order to fulfil the outcome of the project. This high level of ongoing national ownership will be ensured throughout the implementation of the project during the conduct of activities and coordination meetings. The project has a focus to strengthen the capacity of the FPF with a view to enhancing service delivery by the FPF. Throughout the extension and on completion of the project, as appropriate, UNDP will continue to resource mobilize and a plan will be developed with key stakeholders in order to sustain or scale up results.
1	
10. Has the Social and Environmental Screening Procedure (SESP) been conducted to identify potential social and environmental impacts and risks? The SESP is not required for projects in which UNDP is Administrative Agent only and/or projects comprised solely of reports, coordination of events, trainings, workshops, meetings, conferences and/or communication materials and information dissemination. [if yes, upload the completed checklist. If SESP is not required, provide the reason for the exemption in the evidence section.]	
Yes (3)	Evidence: SESP not required.
No (1)	
MANAGEMENT & MONITORING	
11. Does the project have a strong results framework?	
3: The project's selection of outputs and activities are at an appropriate level. Outputs are accompanied by SMART, results-oriented indicators that measure the key expected development changes, each with credible data sources and populated baselines and targets, including gender sensitive, target group focused, sex-disaggregated indicators where appropriate. (all must be true)	
2: The project's selection of outputs and activities are at an appropriate level. Outputs are accompanied by SMART, results-oriented indicators, but baselines, targets and data sources may not yet be fully specified. Some use of target group focused, sex-disaggregated indicators, as appropriate. (all must be true)	
1: The project's selection of outputs and activities are not at an appropriate level; outputs are not accompanied by SMART, results-oriented indicators that measure the expected change and have not been populated with baselines and targets; data sources are not specified, and/or no gender sensitive, sex-disaggregation of indicators. (if any is true)	
*Note: Management Action or strong management justification must be given for a score of 1	
3	Evidence:
2	Yes. Refer to the Results Framework on page 18 of the Prodoc.
1	The indicators include the number of people trained in basic police services, first hour protocol, human rights and SGBV; the percentage of females trained; and the number of inputs accepted in the training curriculum.
12. Is the project's governance mechanism clearly defined in the project document, including composition of the project board?	
3: The project's governance mechanism is fully defined. Individuals have been specified for each position in the governance mechanism (especially all members of the project board.) Project Board members have agreed on their roles and responsibilities as specified in the terms of reference. The ToR of the project board has been attached to the project document. (all must be true).	
2: The project's governance mechanism is defined; specific institutions are noted as holding key governance roles, but individuals may not have been specified yet. The project document lists the most important responsibilities of the project board, project director/manager and quality assurance roles. (all must be true)	
1: The project's governance mechanism is loosely defined in the project document, only mentioning key roles that will need to be filled at a later date. No information on the responsibilities of key positions in the governance mechanism is provided.	

*Note: Management Action or strong management justification must be given for a score of 1	
Evidence:	
3	Yes. Refer to page 26 of the Prodoc.
2	
1	
13. Have the project risks been identified with clear plans stated to manage and mitigate each risk?	
3: Project risks related to the achievement of results are fully described in the project risk log, based on comprehensive analysis drawing on the programme's theory of change, Social and Environmental Standards and screening, situation analysis, capacity assessments and other analysis such as funding potential and reputational risk. Risks have been identified through a consultative process with key internal and external stakeholders, including consultation with the UNDP Security Office as required. Clear and complete plan in place to manage and mitigate each risk, including security risks, reflected in project budgeting and monitoring plans. (both must be true)	
2: Project risks related to the achievement of results are identified in the initial project risk log based on a minimum level of analysis and consultation, with mitigation measures identified for each risk.	
1: Some risks may be identified in the initial project risk log, but no evidence of consultation or analysis and no clear risk mitigation measures identified. This option is also selected if risks are not clearly identified, no initial risk log is included with the project document and/or no security risk management process has taken place for the project.	
*Note: Management Action must be taken for a score of 1	
Evidence:	
3	Please refer to Risk Log in Annex III
2	
1	
EFFICIENT	
14. Have specific measures for ensuring cost-efficient use of resources been explicitly mentioned as part of the project design? This can include, for example: i) using the theory of change analysis to explore different options of achieving the maximum results with the resources available; ii) using a portfolio management approach to improve cost effectiveness through synergies with other interventions; iii) through joint operations (e.g., monitoring or procurement) with other partners; iv) sharing resources or coordinating delivery with other projects, v) using innovative approaches and technologies to reduce the cost of service delivery or other types of interventions.	
Evidence:	
Yes (3)	Part IV Management Arrangements
No (1)	
15. Is the budget justified and supported with valid estimates?	
3: The project's budget is at the activity level with funding sources and is specified for the duration of the project period in a multi-year budget. Realistic resource mobilisation plans are in place to fill unfunded components. Costs are supported with valid estimates using benchmarks from similar projects or activities. Cost implications from inflation and foreign exchange exposure have been estimated and incorporated in the budget. Adequate costs for monitoring, evaluation, communications and security have been incorporated.	
2: The project's budget is at the activity level with funding sources, when possible, and is specified for the duration of the project in a multi-year budget, but no funding plan is in place. Costs are supported with valid estimates based on prevailing rates.	
1: The project's budget is not specified at the activity level, and/or may not be captured in a multi-year budget.	
Evidence:	
3	Refer to Workplan on page 21. The budgets have been estimated. Fluctuations in foreign exchange exposure have been incorporated into the budget estimates.
2	
1	
16. Is the Country Office/Regional Hub/Global Project fully recovering the costs involved with project implementation?	

3:	The budget fully covers all project costs that are attributable to the project, including programme management and development effectiveness services related to strategic country programme planning, quality assurance, pipeline development, policy advocacy services, finance, procurement, human resources, administration, issuance of contracts, security, travel, assets, general services, information and communications based on full costing in accordance with prevailing UNDP policies (i.e., UPL, LPL.)
2:	The budget covers significant project costs that are attributable to the project based on prevailing UNDP policies (i.e., UPL, LPL) as relevant.
1:	The budget does not adequately cover project costs that are attributable to the project, and UNDP is cross-subsidizing the project.
	*Note: Management Action must be given for a score of 1. The budget must be revised to fully reflect the costs of implementation before the project commences.
3	Evidence:
2	Refer to Workplan on page 21. The budget has been set up to account for the Direct Project Costing using UPL and LPL, mandatory corporate levies (GMS and Coordination Levy) have also been accounted for.
1	
EFFECTIVE	
17:	Have targeted groups been engaged in the design of the project?
3:	Credible evidence that all targeted groups, prioritising discriminated and marginalized populations that will be involved in or affected by the project, have been actively engaged in the design of the project. The project has an explicit strategy to identify, engage and ensure the meaningful participation of target groups as stakeholders throughout the project, including through monitoring and decision-making (e.g., representation on the project board, inclusion in samples for evaluations, etc.)
2:	Some evidence that key targeted groups have been consulted in the design of the project.
1:	No evidence of engagement with targeted groups during project design.
3	Evidence:
2	National stakeholders were consulted throughout the project design process, and their inputs and observations of the pilot phase have been incorporated into this project document.
1	
18:	Does the project plan for adaptation and course correction if regular monitoring activities, evaluation, and lesson learned demonstrate there are better approaches to achieve the intended results and/or circumstances change during implementation?
Yes (3)	Evidence:
No (1)	Yes. Refer to Section V Monitoring and evaluation (M&E).
19:	The gender marker for all project outputs are scored at GEN2 or GEN3, indicating that gender has been fully mainstreamed into all project outputs at a minimum.
Yes (3)	Evidence:
No (1)	Yes. Gen 2 for all Project Outputs.
SUSTAINABILITY & NATIONAL OWNERSHIP	
20:	Have national/regional/global partners led, or proactively engaged in, the design of the project?
3:	National partners (or regional/global partners for regional and global projects) have full ownership of the project and led the process of the development of the project jointly with UNDP.
2:	The project has been developed by UNDP in close consultation with national/regional/global partners.
1:	The project has been developed by UNDP with limited or no engagement with national partners.
3	Evidence:
2	National stakeholders were consulted throughout the project design process, and their inputs and observations of the pilot phase have been

1	incorporated into this project document.
21. Are key institutions and systems identified, and is there a strategy for strengthening specific/ comprehensive capacities based on capacity assessments conducted?	
3:	The project has a strategy for strengthening specific capacities of national institutions and/or actors based on a completed capacity assessment. This strategy includes an approach to regularly monitor national capacities using clear indicators and rigorous methods of data collection, and adjust the strategy to strengthen national capacities accordingly.
2:	A capacity assessment has been completed. There are plans to develop a strategy to strengthen specific capacities of national institutions and/or actors based on the results of the capacity assessment.
1:	Capacity assessments have not been carried out.
3	Evidence: Refer to Page 13 of the Prodoc.
2	
1	
22. Is there is a clear strategy embedded in the project specifying how the project will use national systems (i.e., procurement, monitoring, evaluations, etc.,) to the extent possible?	
Yes (3)	Evidence: Refer to section 2- engaging the national and subnational levels
No (1)	
23. Is there a clear transition arrangement/ phase-out plan developed with key stakeholders in order to sustain or scale up results (including resource mobilisation and communications strategy)?	
Yes (3)	Evidence: UNDP has been and will continue to resource mobilize for a larger project supporting the justice stakeholders. In this regard, a draft project document has been designed in consultation with justice stakeholders in Fiji.
No (1)
