Annex 2. Social and Environmental Screening

Project Information

4	Project Information	
H	1. Project Title	Response Toward Resilience (RESTORE)
2.	2. Project Number (i.e. Atlas project ID, PIMS+)	00126825
ωį	. Location (Global/Region/Country)	Indonesia
4.	4. Project stage (Design or Implementation)	Design
ιų	5. Date	28 February 2021

Part A. Integrating Programming Principles to Strengthen Social and Environmental Sustainability

QUESTION 1: How Does the Project Integrate the Programming Principles in Order to Strengthen Social and Environmental Sustainability?

Briefly describe in the space below how the project mainstreams the human rights-based approach

be on assisting people affected by COVID-19 ensuring that no one is left behind. Particular attention is given to the most vulnerable such as, GBV Our approach is to strengthen human security that is both prevention oriented and people centred, focusing on the most vulnerable. Our focus will victims and People with Disability will benefit from the project, while at the same time preventing the ongoing spread of COVID-19.

Briefly describe in the space below how the project is likely to improve gender equality and women's empowerment

The project will increase women's equal access through green recovery by providing policy recommendation to the Government of Indonesia to establish an inclusive green recovery stimulus package. Moreover, the project also focuses on women owned MSMEs and provide support to women employed by the MSMEs.

Briefly describe in the space below how the project mainstreams sustainability and resilience

The Project will integrate the Government's green economy with a focus on the circular economy into developing the capacity of MSMEs to be more resilient during and post COVID-19.

Briefly describe in the space below how the project strengthens accountability to stakeholders

The project will engage the participation of relevant stakeholders during its implementation.

Part B. Identifying and Managing Social and Environmental Risks

QUESTION 2: What are the Potential Social and Environmental Risks?	QUESTION 3: What		is the level of significance of the potential	assessmen
Note: Complete SESP Attachment 1	Note: Recond	to Onestions A and	Note: Respond to Ouestions A and Shelow hotors proceeding	Moderate, Substantial or High
before responding to Question 2.	to Question 5	to guestions 4 and	u suelow belore proceeding	
Risk Description	Impact and	Significance	Comments (optional)	Description of assessment and management
(broken down by event, cause, impact)	Likelihood (1-5)	(Low, Moderate Substantial, High)		measures for risks rated as Moderate, Substantial or High

			waste generation.	
	QUESTION 4: What		is the overall project risk categorization?	
			Low Risk	
			Moderate Risk	Medical and industrial waste
			Substantial Risk	
			High Risk	

Rev.: July 2019

Final Sign Off

Final Screening at the design-stage is not complete until the following signatures are included

Signature	Date	Description
Andrys Erawan		UNDP Programme Officer
Sophie Kemkhadze		UNDP Deputy Resident Representative
Sophie Kemkhadze		UNDP chair of the PAC.

SESP Attachment 1. Social and Environmental Risk Screening Checklist

Over	arching Principle: Leave No One Behind	Answer (Yes/No)
	an Rights	
P.1	Have local communities or individuals raised human rights concerns regarding the project (e.g. during the stakeholder engagement process, grievance processes, public statements)?	No
P.2	Is there a risk that duty-bearers (e.g. government agencies) do not have the capacity to meet their obligations in the project?	No
P.3	Is there a risk that rights-holders (e.g. project-affected persons) do not have the capacity to claim their rights?	No
Wou	d the project potentially involve or lead to:	
P.4	adverse impacts on enjoyment of the human rights (civil, political, economic, social or cultural) of the affected population and particularly of marginalized groups?	No
P.5	inequitable or discriminatory impacts on affected populations, particularly people living in poverty or marginalized or excluded individuals or groups, including persons with disabilities?	No
P.6	restrictions in availability, quality of and/or access to resources or basic services, in particular to marginalized individuals or groups, including persons with disabilities?	No
P.7	exacerbation of conflicts among and/or the risk of violence to project-affected communities and individuals?	No
Gend	er Equality and Women's Empowerment	
P.8	Have women's groups/leaders raised gender equality concerns regarding the project, (e.g. during the stakeholder engagement process, grievance processes, public statements)?	No
Woul	d the project potentially involve or lead to:	
P.9	adverse impacts on gender equality and/or the situation of women and girls?	No
P.10	reproducing discriminations against women based on gender, especially regarding participation in design and implementation or access to opportunities and benefits?	No
P.11	limitations on women's ability to use, develop and protect natural resources, taking into account different roles and positions of women and men in accessing environmental goods and services?	No
	For example, activities that could lead to natural resources degradation or depletion in communities who depend on these resources for their livelihoods and well being	
P.12	exacerbation of risks of gender-based violence?	No

⁹ Prohibited grounds of discrimination include race, ethnicity, sex, age, language, disability, sexual orientation, gender identity, religion, political or other opinion, national or social or geographical origin, property, birth or other status including as an indigenous person or as a member of a minority. References to "women and men" or similar is understood to include women and men, boys and girls, and other groups discriminated against based on their gender identities, such as transgender and transsexual people.

		1
	For example, through the influx of workers to a community, changes in community and household power dynamics, increased exposure to unsafe public places and/or transport, etc.	
	ainability and Resilience: Screening questions regarding risks associated with sustainability resilience are encompassed by the Standard-specific questions below	
Acco	untability	:
Wou	ld the project potentially involve or lead to:	
P.13	exclusion of any potentially affected stakeholders, in particular marginalized groups and excluded individuals (including persons with disabilities), from fully participating in decisions that may affect them?	No
P.14	grievances or objections from potentially affected stakeholders?	No
P.15	risks of retaliation or reprisals against stakeholders who express concerns or grievances, or who seek to participate in or to obtain information on the project?	No
Proje	ect-Level Standards	
Stan	dard 1: Biodiversity Conservation and Sustainable Natural Resource Management	
Wou	d the project potentially involve or lead to:	
1.1	adverse impacts to habitats (e.g. modified, natural, and critical habitats) and/or ecosystems and ecosystem services? For example, through habitat loss, conversion or degradation, fragmentation, hydrological changes	No
1.2	activities within or adjacent to critical habitats and/or environmentally sensitive areas, including (but not limited to) legally protected areas (e.g. nature reserve, national park), areas proposed for protection, or recognized as such by authoritative sources and/or indigenous peoples or local communities?	No
1.3	changes to the use of lands and resources that may have adverse impacts on habitats, ecosystems, and/or livelihoods? (Note: if restrictions and/or limitations of access to lands would apply, refer to Standard 5)	No
1.4	risks to endangered species (e.g. reduction, encroachment on habitat)?	No
1.5	exacerbation of illegal wildlife trade?	No
1.6	introduction of invasive alien species?	No
1.7	adverse impacts on soils?	No
1.8	harvesting of natural forests, plantation development, or reforestation?	No
1.9	significant agricultural production?	No
1.10	animal husbandry or harvesting of fish populations or other aquatic species?	No
1.11	significant extraction, diversion or containment of surface or ground water? For example, construction of dams, reservoirs, river basin developments, groundwater extraction	No

	I
ilization of genetically modified organisms/living modified organisms?10	No
genetic resources? (e.g. collection and/or harvesting, commercial	No
ooundary or global environmental concerns?	No
Change and Disaster Risks	٠
otentially involve or lead to:	
to hazards such as earthquakes, floods, landslides, severe winds, storm ni or volcanic eruptions?	No
utcomes sensitive or vulnerable to potential impacts of climate change or	No
through increased precipitation, drought, temperature, salinity, extreme uakes	
Inerability to climate change impacts or disaster risks now or in the future maladaptive or negative coping practices)?	No
changes to land use planning may encourage further development of octentially increasing the population's vulnerability to climate change, oding	
eenhouse gas emissions, black carbon emissions or other drivers of climate	No
nity Health, Safety and Security	
tentially involve or lead to:	
nd/or infrastructure development (e.g. roads, buildings, dams)? (Note: the finance projects that would involve the construction or rehabilitation of ex dams)	No
noise, vibration, traffic, injuries, physical hazards, poor surface water runoff, erosion, sanitation?	Yes
s due to failure of structural elements of the project (e.g. collapse of frastructure)?	No
borne or other vector-borne diseases (e.g. temporary breeding habitats), and noncommunicable diseases, nutritional disorders, mental health?	No
rage, and use and/or disposal of hazardous or dangerous materials (e.g. l and other chemicals during construction and operation)?	No
ts on ecosystems and ecosystem services relevant to communities' health ace water purification, natural buffers from flooding)?	No
t workers to project areas?	No
f security personnel to protect facilities and property or to support project	No
	genetic resources? (e.g. collection and/or harvesting, commercial production of global environmental concerns? Change and Disaster Risks Intentially involve or lead to: It to hazards such as earthquakes, floods, landslides, severe winds, storm in or volcanic eruptions? Intrough increased precipitation, drought, temperature, salinity, extreme unders in the future is maladaptive or negative coping practices)? Intentially increasing the population's vulnerability to climate change impacts or disaster risks now or in the future is maladaptive or negative coping practices)? Indicate the properties of the properties of climate change, indicate the properties of the properties of the properties of climate change, indicate the properties of the properties of the properties of climate in the properties of the prop

¹⁰ See the <u>Convention on Biological Diversity</u> and its <u>Cartagena Protocol on Biosafety</u>.

¹¹ See the <u>Convention on Biological Diversity</u> and its <u>Nagoya Protocol</u> on access and benefit sharing from use of genetic resources.

Stan	dard 4: Cultural Heritage	
Wou	ld the project potentially involve or lead to:	,
4.1	activities adjacent to or within a Cultural Heritage site?	No
4.2	significant excavations, demolitions, movement of earth, flooding or other environmental changes?	No
4.3	adverse impacts to sites, structures, or objects with historical, cultural, artistic, traditional or religious values or intangible forms of culture (e.g. knowledge, innovations, practices)? (Note: projects intended to protect and conserve Cultural Heritage may also have inadvertent adverse impacts)	No
4.4	alterations to landscapes and natural features with cultural significance?	No
4.5	utilization of tangible and/or intangible forms (e.g. practices, traditional knowledge) of Cultural Heritage for commercial or other purposes?	No
Stan	dard 5: Displacement and Resettlement	
Wou	ld the project potentially involve or lead to:	
5.1	temporary or permanent and full or partial physical displacement (including people without legally recognizable claims to land)?	No
5.2	economic displacement (e.g. loss of assets or access to resources due to land acquisition or access restrictions – even in the absence of physical relocation)?	No
5.3	risk of forced evictions? ¹²	No
5.4	impacts on or changes to land tenure arrangements and/or community based property rights/customary rights to land, territories and/or resources?	No
Stan	dard 6: Indigenous Peoples	
Wou	ld the project potentially involve or lead to:	
6.1	areas where indigenous peoples are present (including project area of influence)?	No
6.2	activities located on lands and territories claimed by indigenous peoples?	No
6.3	impacts (positive or negative) to the human rights, lands, natural resources, territories, and traditional livelihoods of indigenous peoples (regardless of whether indigenous peoples possess the legal titles to such areas, whether the project is located within or outside of the lands and territories inhabited by the affected peoples, or whether the indigenous peoples are recognized as indigenous peoples by the country in question)? If the answer to screening question 6.3 is "yes", then the potential risk impacts are considered significant and the project would be categorized as either Substantial Risk or High Risk	No
6.4	the absence of culturally appropriate consultations carried out with the objective of achieving FPIC on matters that may affect the rights and interests, lands, resources, territories and traditional livelihoods of the indigenous peoples concerned?	No

¹² Forced eviction is defined here as the permanent or temporary removal against their will of individuals, families or communities from the homes and/or land which they occupy, without the provision of, and access to, appropriate forms of legal or other protection. Forced evictions constitute gross violations of a range of internationally recognized human rights.

6.5	the utilization and/or commercial development of natural resources on lands and territories claimed by indigenous peoples?	No
6.6	forced eviction or the whole or partial physical or economic displacement of indigenous peoples, including through access restrictions to lands, territories, and resources? Consider, and where appropriate ensure, consistency with the answers under Standard 5 above	No
6.7	adverse impacts on the development priorities of indigenous peoples as defined by them?	No
6.8	risks to the physical and cultural survival of indigenous peoples?	No
6.9	impacts on the Cultural Heritage of indigenous peoples, including through the commercialization or use of their traditional knowledge and practices? Consider, and where appropriate ensure, consistency with the answers under Standard 4 above.	No
Stan	dard 7: Labour and Working Conditions	
Wou	ld the project potentially involve or lead to: (note: applies to project and contractor workers)	
7.1	working conditions that do not meet national labour laws and international commitments?	No
7.2	working conditions that may deny freedom of association and collective bargaining?	No
7.3	use of child labour?	No
7.4	use of forced labour?	No
7.5	discriminatory working conditions and/or lack of equal opportunity?	No
7.6	occupational health and safety risks due to physical, chemical, biological and psychosocial hazards (including violence and harassment) throughout the project lifecycle?	No
Stan	dard 8: Pollution Prevention and Resource Efficiency	
Wou	ld the project potentially involve or lead to:	
8.1	the release of pollutants to the environment due to routine or non-routine circumstances with the potential for adverse local, regional, and/or transboundary impacts?	No
8.2	the generation of waste (both hazardous and non-hazardous)?	Yes
8.3	the manufacture, trade, release, and/or use of hazardous materials and/or chemicals?	No
8.4	the use of chemicals or materials subject to international bans or phase-outs?	No
·	For example, DDT, PCBs and other chemicals listed in international conventions such as the <u>Montreal Protocol</u> , <u>Minamata Convention</u> , <u>Basel Convention</u> , <u>Rotterdam Convention</u> , <u>Stockholm Convention</u>	
8.5	the application of pesticides that may have a negative effect on the environment or human health?	No
	significant consumption of raw materials, energy, and/or water?	No
