Annex [#]. Social and Environmental Screening Template

The completed template, which constitutes the Social and Environmental Screening Report, must be included as an annex to the Project Document. Please refer to the <u>Social and Environmental Screening Procedure</u> and <u>Toolkit</u> for guidance on how to answer the 6 questions.

Project Information

Project Information	
1. Project Title	Effective Governance Through Socioeconomic Recovery Facility in Kyrgyzstan
2. Project Number	00124990
3. Location (Global/Region/Country)	Kyrgyzstan

Part A. Integrating Overarching Principles to Strengthen Social and Environmental Sustainability

QUESTION 1: How Does the Project Integrate the Overarching Principles in order to Strengthen Social and Environmental Sustainability?

Briefly describe in the space below how the Project mainstreams the human-rights based approach

This Project has been designed in order to respond to the priorities identified by the the UNDP-ADB Socioeconomic and Vulnerability Impact Assessment, as well as the joint UN Socio-Economic Response Framework, including through an integrated, human rights-centered and strategic support which builds the UNDP Offer 2.0. Against this background, the main goal of RRF Project in Kyrgyzstan is to strengthen the incoming Government's and Parliament's response to the COVID-19 triggered crisis by supporting their strategic priorities, while remaining flexible, agile and prioritizing the urgent needs of most vulnerable people. This includes to engender actions that will secure a more sustainable path towards reaching the SDGs in the last decade while tempering the short-term risks. Overall, the Facility will help meet the GEN2 marker objectives through mainstreaming women's empowerment. Emphasis will also be placed on fostering women's leadership opportunities and creating economic opportunities. In addition, the intervention is expected to strongly adopt a human rights-based approach during project's execution, including fostering dialogue and participatory mechanisms to build trust between state and public, embedding accountability and transparency mechanisms in all the project interventions, and addressing systemic and structural factors that cause vulnerabilities including through gender-sensitive interventions.

Briefly describe in the space below how the Project is likely to improve gender equality and women's empowerment

The main goal of RFF Project in Kyrgyzstan is to strengthen the incoming Government's and Parliament's response to the COVID-19 triggered crisis by supporting their strategic priorities, while remaining flexible, agile and prioritizing the urgent needs of most vulnerable people. To achieve this, UNDP will deploy a Socioeconomic Recovery Facility (SRF) with flexible response options, this Facility will help significantly to meet GEN2 marker objectives through mainstreaming

women's empowerment to promote gender equality. Project will also be placed on fostering women's leadership opportunities and creating economic opportunities. In addition, project component working with the parliamentary committees' will address and review the capacity of parliament to authorize and monitor COVID-19 public spending, including setting up effective and gender-responsive mechanisms for tracking, reporting and accounting for measures adopted during the pandemic; The project obtains GEN 2 marker and commits on performing less than 50% activities on gender mainstreaming and females' participation across its activities.

Briefly describe in the space below how the Project mainstreams environmental sustainability

The proposed project is in line with major international standards and domestic norms. Following Covid 19, the project aims to ensure rapid and sustained recovery triggered by Covid 19 in support of the strategic priorities outlined by the state and prioritizes the urgent needs of most vulnerable people without inflicting hazardous impact on the environment, and mainstreaming women's empowerment and gender based approaches. Economic opportunities will be established, in a manner that does not harm natural resource management or biodiversity conservation and ensures environmental sustainability and governmental ownership over the results.

Part B. Identifying and Managing Social and Environmental Risks

QUESTION 2: What are the Potential Social and Environmental Risks? Note: Describe briefly potential social and environmental risks identified in Attachment 1 – Risk Screening Checklist (based on any "Yes" responses). If no risks have been identified in Attachment 1 then note "No Risks Identified" and skip to Question 4 and Select "Low Risk". Questions 5 and 6 not required for Low Risk Projects.	potential so	cial and environd to Questions 4	level of significance of the onmental risks? I and 5 below before proceeding	QUESTION 6: What social and environmental assessment and management measures have been conducted and/or are required to address potential risks (for Risks with Moderate and High Significance)?
Risk Description	Impact and Probability (1-5)	Significance (Low, Moderate, High)	Comments	Description of assessment and management measures as reflected in the Project design. If ESIA or SESA is required note that the assessment should consider all potential impacts and risks.
Risk 1: Increased breakdown of trust between the Government, Parliament, loosing parties, and civil society as a result of the contested electoral process and/or poor outcomes under the national socio-	I = 4 P = 4	High		Maintain close engagement with stakeholders from the Government and Parliament. The proposed intervention is expected to build bridges and enable improved trust between public and national institutions by establishing regular spaces for civic engagement to drive the public demand for

economic response to COVID-19 and the compromise public interest/rule of law culture and re- building of fairer social contract).					change and fostering state and parliamentary accountability, inclusiveness and transparency in the national socio-economic response.
Risk 2 Operational: Not being able to deliver on project activities due to the statemate in the Government and Parliament and inability of partners to make decisions.	I = 4 P = 4	High			Keep constant monitoring of project portfolio and report on risk dynamics. This measure will help ensure timely re-allocation in case if some of the interventions run the risk of not being implemented within the project life-cycle.
Risk 3:	I = P =				
Risk 4:	I = P =

UNDP, DRR a.i. Kyrgyz Rep	03-Mar-2021	Resident Representative (DRR), or Resident Representative (RR). The QA Approver cannot also be the QA Assessor. Final signature confirms they have "cleared" the SESP prior to submittal to the PAC.
Annul e		
Mund		
PAC Chair		UNDP chair of the PAC. In some cases PAC Chair may also be the QA Approver. Final signature confirms that the SESP was considered as part of the project appraisal and considered in recommendations of the
		PAC.

SESP Attachment 1. Social and Environmental Risk Screening Checklist

Checklist Potential Social and Environmental Risks		
Princ	iples 1: Human Rights	Answer (Yes/No)
1.	Could the Project lead to adverse impacts on enjoyment of the human rights (civil, political, economic, social or cultural) of the affected population and particularly of marginalized groups?	No
2.	Is there a likelihood that the Project would have inequitable or discriminatory adverse impacts on affected populations, particularly people living in poverty or marginalized or excluded individuals or groups? ¹	No
3.	Could the Project potentially restrict availability, quality of and access to resources or basic services, in particular to marginalized individuals or groups?	No
4.	Is there a likelihood that the Project would exclude any potentially affected stakeholders, in particular marginalized groups, from fully participating in decisions that may affect them?	No
5.	Is there a risk that duty-bearers do not have the capacity to meet their obligations in the Project?	Yes
6.	Is there a risk that rights-holders do not have the capacity to claim their rights?	Yes
7.	Have local communities or individuals, given the opportunity, raised human rights concerns regarding the Project during the stakeholder engagement process?	Yes
8.	Is there a risk that the Project would exacerbate conflicts among and/or the risk of violence to project-affected communities and individuals?	No
Princ	iple 2: Gender Equality and Women's Empowerment	
1.	Is there a likelihood that the proposed Project would have adverse impacts on gender equality and/or the situation of women and girls?	No
2.	Would the Project potentially reproduce discriminations against women based on gender, especially regarding participation in design and implementation or access to opportunities and benefits?	No
3.	Have women's groups/leaders raised gender equality concerns regarding the Project during the stakeholder engagement process and has this been included in the overall Project proposal and in the risk assessment?	Yes
4.	Would the Project potentially limit women's ability to use, develop and protect natural resources, taking into account different roles and positions of women and men in accessing environmental goods and services?	No
	For example, activities that could lead to natural resources degradation or depletion in communities who depend on these resources for their livelihoods and well being	
	iple 3: Environmental Sustainability: Screening questions regarding environmental risks are encompassed by pecific Standard-related questions below	
Stan	dard 1: Biodiversity Conservation and Sustainable Natural Resource Management	
1.1	Would the Project potentially cause adverse impacts to habitats (e.g. modified, natural, and critical habitats) and/or ecosystems and ecosystem services?	No

¹ Prohibited grounds of discrimination include race, ethnicity, gender, age, language, disability, sexual orientation, religion, political or other opinion, national or social or geographical origin, property, birth or other status including as an indigenous person or as a member of a minority. References to "women and men" or similar is understood to include women and men, boys and girls, and other groups discriminated against based on their gender identities, such as transgender people and transsexuals.

		1
	For example, through habitat loss, conversion or degradation, fragmentation, hydrological changes	
1.2	Are any Project activities proposed within or adjacent to critical habitats and/or environmentally sensitive areas, including legally protected areas (e.g. nature reserve, national park), areas proposed for protection, or recognized as such by authoritative sources and/or indigenous peoples or local communities?	No
1.3	Does the Project involve changes to the use of lands and resources that may have adverse impacts on habitats, ecosystems, and/or livelihoods? (Note: if restrictions and/or limitations of access to lands would apply, refer to Standard 5)	No
1.4	Would Project activities pose risks to endangered species?	No
1.5	Would the Project pose a risk of introducing invasive alien species?	No
1.6	Does the Project involve harvesting of natural forests, plantation development, or reforestation?	No
1.7	Does the Project involve the production and/or harvesting of fish populations or other aquatic species?	No
1.8	Does the Project involve significant extraction, diversion or containment of surface or ground water? For example, construction of dams, reservoirs, river basin developments, groundwater extraction	No
1.9	Does the Project involve utilization of genetic resources? (e.g. collection and/or harvesting, commercial development)	No
1.10	Would the Project generate potential adverse transboundary or global environmental concerns?	No
1.11	Would the Project result in secondary or consequential development activities which could lead to adverse social and environmental effects, or would it generate cumulative impacts with other known existing or planned activities in the area?	No
	For example, a new road through forested lands will generate direct environmental and social impacts (e.g. felling of trees, earthworks, potential relocation of inhabitants). The new road may also facilitate encroachment on lands by illegal settlers or generate unplanned commercial development along the route, potentially in sensitive areas. These are indirect, secondary, or induced impacts that need to be considered. Also, if similar developments in the same forested area are planned, then cumulative impacts of multiple activities (even if not part of the same Project) need to be considered.	
Stand	ard 2: Climate Change Mitigation and Adaptation	
2.1	Will the proposed Project result in significant ² greenhouse gas emissions or may exacerbate climate change?	No
2.2	Would the potential outcomes of the Project be sensitive or vulnerable to potential impacts of climate change?	No
2.3	Is the proposed Project likely to directly or indirectly increase social and environmental vulnerability to climate change now or in the future (also known as maladaptive practices)?	No
	For example, changes to land use planning may encourage further development of floodplains, potentially increasing the population's vulnerability to climate change, specifically flooding	
Stand	ard 3: Community Health, Safety and Working Conditions	
3.1	Would elements of Project construction, operation, or decommissioning pose potential safety risks to local communities?	No
3.2	Would the Project pose potential risks to community health and safety due to the transport, storage, and use and/or disposal of hazardous or dangerous materials (e.g. explosives, fuel and other chemicals during construction and operation)?	No

_

² In regards to CO₂, 'significant emissions' corresponds generally to more than 25,000 tons per year (from both direct and indirect sources). [The Guidance Note on Climate Change Mitigation and Adaptation provides additional information on GHG emissions.]

3.3 Does the Project involve large-scale infrastructure development (e.g. dams, roads, buildings)? 3.4 Would failure of structural elements of the Project pose risks to communities? (e.g. collapse of buildings or infrastructure) 3.5 Would the proposed Project be susceptible to or lead to increased vulnerability to earthquakes, subsidence, landslides, erosion, flooding or extreme climatic conditions? 3.6 Would the Project result in potential increased health risks (e.g. from water-borne or other vector-borne diseases or communicable infections such as HIV/AIDS)? 3.7 Does the Project pose potential risks and vulnerabilities related to occupational health and safety due to physical, chemical, biological, and radiological hazards during Project construction, operation, or decommissioning? 3.8 Does the Project involve support for employment or livelihoods that may fail to comply with national and international labor standards (i.e. principles and standards of ILO fundamental conventions)? 3.9 Does the Project involve support for employment or livelihoods that may fail to comply with national and international labor standards (i.e. principles and standards of ILO fundamental conventions)? 3.9 Does the Project project result in interventions that would potentially adversely impact sites, structures, or objects with historical, cultural, artistic, traditional or religious values or intangible forms of culture (e.g. sknowledge, innovations, practices)? (Note: Projects intended to protect and conserve Cultural Heritage may also have inadvertent adverse impacts) 4.2 Does the Project propose utilizing tangible and/or intangible forms of cultural heritage for commercial or other purposes? Standard 5: Displacement and Resettlement 5.1 Would the Project possibly result in economic displacement (e.g. loss of assets or access to resources due to land acquisition or access restrictions – even in the absence of physical relocation)? No 5.2 Would the Project possibly result in economic displacement (e.g. loss of assets			
Mould the proposed Project be susceptible to or lead to increased vulnerability to earthquakes, subsidence, landslides, erosion, flooding or extreme climatic conditions?	3.3	Does the Project involve large-scale infrastructure development (e.g. dams, roads, buildings)?	No
subsidence, landslides, erosion, flooding or extreme climatic conditions? Would the Project result in potential increased health risks (e.g. from water-borne or other vector-borne diseases or communicable infections such as HIV/AIDS)? 3.7 Does the Project pose potential risks and vulnerabilities related to occupational health and safety due to physical, chemical, biological, and radiological hazards during Project construction, operation, or decommissioning? 3.8 Does the Project involve support for employment or livelihoods that may fail to comply with national and international labor standards (i.e. principles and standards of it.lO fundamental conventions)? 3.9 Does the Project engage security personnel that may pose a potential risk to health and safety of communities and/or individuals (e.g. due to a lack of adequate training or accountability)? Standard 4: Cultural Heritage 4.1 Will the proposed Project result in interventions that would potentially adversely impact sites, structures, or objects with historical, cultural, artistic, traditional or religious values or intangible forms of culture (e.g. knowledge, innovations, practices)? (Note: Projects intended to protect and conserve Cultural Heritage may also have inadvertent adverse impacts) 4.2 Does the Project propose utilizing tangible and/or intangible forms of cultural heritage for commercial or other purposes? Standard 5: Displacement and Resettlement 5.1 Would the Project portentially involve temporary or permanent and full or partial physical displacement? No land acquisition or access restrictions – even in the absence of physical relocation)? 5.2 Would the Project possibly result in economic displacement (e.g. loss of assets or access to resources due to land acquisition or access restrictions – even in the absence of physical relocation)? 5.4 Would the proposed Project possibly affect land tenure arrangements and/or community based property rights/customary rights to land, territories and/or resources? Standard 6: Indigenous peoples	3.4		No
diseases or communicable infections such as HIV/AIDS)? Does the Project pose potential risks and vulnerabilities related to occupational health and safety due to physical, chemical, biological, and radiological hazards during Project construction, operation, or decommissioning? 3.8 Does the Project involve support for employment or livelihoods that may fail to comply with national and international labor standards (i.e. principles and standards of ILO fundamental conventions)? 3.9 Does the Project engage security personnel that may pose a potential risk to health and safety of communities and/or individuals (e.g. due to a lack of adequate training or accountability)? Standard 4: Cultural Heritage 4.1 Will the proposed Project result in interventions that would potentially adversely impact sites, structures, or objects with historical, cultural, artistic, traditional or religious values or intangible forms of culture (e.g. knowledge, innovations, practices)? (Note: Projects intended to protect and conserve Cultural Heritage may also have inadvertent adverse impacts) 4.2 Does the Project propose utilizing tangible and/or intangible forms of cultural heritage for commercial or other purposes? Standard 5: Displacement and Resettlement 5.1 Would the Project potentially involve temporary or permanent and full or partial physical displacement? No to land acquisition or access restrictions – even in the absence of physical relocation)? 5.3 Is there a risk that the Project would lead to forced evictions? No 4.4 Would the proposed Project possibly affect land tenure arrangements and/or community based property rights/customary rights to land, territories and/or resources? Standard 6: Indigenous peoples present in the Project area (including Project area of influence)? No 1. Are indigenous peoples Project potentially affect the human rights, lands, natural resources, territories, and truditional livelihoods of indigenous peoples (regardless of whether indigenous peoples possess the legal titles to such areas	3.5		No
physical, chemical, biological, and radiological hazards during Project construction, operation, or decommissioning? 3.8 Does the Project involve support for employment or livelihoods that may fail to comply with national and international labor standards (i.e. principles and standards of It.O fundamental conventions)? 3.9 Does the Project engage security personnel that may pose a potential risk to health and safety of communities and/or individuals (e.g. due to a lack of adequate training or accountability)? Standard 4: Cultural Heritage 4.1 Will the proposed Project result in interventions that would potentially adversely impact sites, structures, or objects with historical, cultural, artistic, traditional or religious values or intangible forms of culture (e.g. knowledge, innovations, practices)? (Note: Projects intended to protect and conserve Cultural Heritage may also have inadvertent adverse impacts) 4.2 Does the Project propose utilizing tangible and/or intangible forms of cultural heritage for commercial or other purposes? Standard 5: Displacement and Resettlement 5.1 Would the Project potentially involve temporary or permanent and full or partial physical displacement? No to land acquisition or access restrictions – even in the absence of physical relocation)? 5.2 Would the Project possibly result in economic displacement (e.g. loss of assets or access to resources due to land acquisition or access restrictions – even in the absence of physical relocation)? 5.3 Is there a risk that the Project would lead to forced evictions? ³ No 5.4 Would the proposed Project possibly affect land tenure arrangements and/or community based property rights/customary rights to land, territories and/or resources? Standard 6: Indigenous peoples present in the Project area (including Project area of influence)? No 6.2 Is it likely that the Project or portions of the Project will be located on lands and territories claimed by indigenous peoples? 6.3 Would the proposed Project potentially affect the human rig	3.6		No
international labor standards (i.e. principles and standards of ILO fundamental conventions)? 3.9 Does the Project engage security personnel that may pose a potential risk to health and safety of communities and/or individuals (e.g. due to a lack of adequate training or accountability)? Standard 4: Cultural Heritage 4.1 Will the proposed Project result in interventions that would potentially adversely impact sites, structures, or objects with historical, cultural, artistic, traditional or religious values or intangible forms of culture (e.g. knowledge, innovations, practices)? (Note: Projects intended to protect and conserve Cultural Heritage may also have inadvertent adverse impacts) 4.2 Does the Project propose utilizing tangible and/or intangible forms of cultural heritage for commercial or other purposes? Standard 5: Displacement and Resettlement 5.1 Would the Project potentially involve temporary or permanent and full or partial physical displacement? No to land acquisition or access restrictions – even in the absence of physical relocation)? 5.3 Is there a risk that the Project would lead to forced evictions? ³ 5.4 Would the proposed Project possibly affect land tenure arrangements and/or community based property rights/customary rights to land, territories and/or resources? Standard 6: Indigenous Peoples 6.1 Are indigenous peoples present in the Project area (including Project area of influence)? 6.2 Is it likely that the Project or portions of the Project will be located on lands and territories claimed by indigenous peoples? 6.3 Would the proposed Project potentially affect the human rights, lands, natural resources, territories, and traditional livelihoods of indigenous peoples (regardless of whether indigenous peoples possess the legal titles to such areas, whether the Project is located within or outside of the lands and territories inhabited by the affected peoples, or whether the indigenous peoples are recognized as indigenous peoples by the country in question)? If the answer to the	3.7	physical, chemical, biological, and radiological hazards during Project construction, operation, or	No
Standard 4: Cultural Heritage 4.1 Will the proposed Project result in interventions that would potentially adversely impact sites, structures, or objects with historical, cultural, artistic, traditional or religious values or intangible forms of culture (e.g. knowledge, innovations, practices)? (Note: Projects intended to protect and conserve Cultural Heritage may also have inadvertent adverse impacts) 4.2 Does the Project propose utilizing tangible and/or intangible forms of cultural heritage for commercial or other purposes? traditional livelihoods of indigenous peoples (regardless of whether indigenous peoples possess the legal titles to such areas, whether the Project is located within or outside of the lands and territories inhabited by the affected peoples, or whether the indigenous peoples are recognized as indigenous peoples by the country in question)? If the answer to the screening question 6.3 is "yes" the potential risk impacts are considered potentially	6.2		No
	6.3	traditional livelihoods of indigenous peoples (regardless of whether indigenous peoples possess the legal titles to such areas, whether the Project is located within or outside of the lands and territories inhabited by the affected peoples, or whether the indigenous peoples are recognized as indigenous peoples by the country in question)?	No

³ Forced evictions include acts and/or omissions involving the coerced or involuntary displacement of individuals, groups, or communities from homes and/or lands and common property resources that were occupied or depended upon, thus eliminating the ability of an individual, group, or community to reside or work in a particular dwelling, residence, or location without the provision of, and access to, appropriate forms of legal or other protections.

6.4	Has there been an absence of culturally appropriate consultations carried out with the objective of achieving FPIC on matters that may affect the rights and interests, lands, resources, territories and traditional livelihoods of the indigenous peoples concerned?	No
6.5	Does the proposed Project involve the utilization and/or commercial development of natural resources on lands and territories claimed by indigenous peoples?	No
6.6	Is there a potential for forced eviction or the whole or partial physical or economic displacement of indigenous peoples, including through access restrictions to lands, territories, and resources?	No
6.7	Would the Project adversely affect the development priorities of indigenous peoples as defined by them?	No
6.8	Would the Project potentially affect the physical and cultural survival of indigenous peoples?	No
6.9	Would the Project potentially affect the Cultural Heritage of indigenous peoples, including through the commercialization or use of their traditional knowledge and practices?	No
Stand	lard 7: Pollution Prevention and Resource Efficiency	
7.1	Would the Project potentially result in the release of pollutants to the environment due to routine or non-routine circumstances with the potential for adverse local, regional, and/or transboundary impacts?	No
7.2	Would the proposed Project potentially result in the generation of waste (both hazardous and non-hazardous)?	No
7.3	Will the proposed Project potentially involve the manufacture, trade, release, and/or use of hazardous chemicals and/or materials? Does the Project propose use of chemicals or materials subject to international bans or phase-outs?	No
	For example, DDT, PCBs and other chemicals listed in international conventions such as the Stockholm Conventions on Persistent Organic Pollutants or the Montreal Protocol	
7.4	Will the proposed Project involve the application of pesticides that may have a negative effect on the environment or human health?	No
7.5	Does the Project include activities that require significant consumption of raw materials, energy, and/or water?	No
