Revision Justification
<p>The extension of Project (Atlas Award BIH10/00146598 0, Atlas Output ID: 00133571) until 31 March 2024 is required to enable effective implementation of all envisaged activities, in particular those related to the development of capacities of selected enterprises on gender equality assessment and Gender Seal implementation. The extension would facilitate further synergy with the Gender Seal in Public Sector project as the requested extension would align the end dates for both projects. Additionally, given the fact that both projects share the same National Expert for Gender Equality, the extension would significantly streamline the overall implementation, planning and staffing processes.</p>
