Does the project specify how it will contribute to higher level change through linkage to the programme's Theory of Change?</b></p> <ul style="list-style-type: none"> <li>• 3: The project is clearly linked to the programme's theory of change. It has an explicit change pathway that explains how the project will contribute to outcome level change and why the project's strategy will likely lead to this change. This analysis is backed by credible evidence of what works effectively in this context and includes assumptions and risks.</li> </ul>
<input type="checkbox"/>	<ul style="list-style-type: none"> <li>• 2: The project is clearly linked to the programme's theory of change. <input type="checkbox"/>	<ul style="list-style-type: none"> <li>• 1: The project document may describe in generic terms how the project will contribute to development results, without an explicit link to the programme's theory of change.</li> </ul> <p>*Note: Projects not contributing to a programme must have a project-specific Theory of Change. See alternative question under the information icon for these cases.</p> <p>Evidence (Enter a short explanation and attached a document that provides evidence for your response): The project has a simplified version of the theory of change. It explains how technical assistance provided by the project will enable local authorities to implement energy efficiency rehabilitation in a due quality that will ultimately bring decent living conditions and quality social services to local communities and vulnerable groups. Given that the project's operational mechanism is to provide technical assistance, its intervention will have a horizontal impact on the targets and strategic perspectives of the energy efficiency programme. Assumptions and risks are well-defined with suggested mitigation measures.</p> <p>Attached: Project Document, Description of Action</p>
<b>2. Is the project aligned with the UNDP Strategic Plan?</b>

Specifically, the project will feed into the following output indicators from the UNDP Strategic Plan for 2022-2025:</p> <p><i>Signature Solution 2: Governance</i> 2.1 Open, agile, accountable and future-ready governance systems <u>in place</u> to co-create and deliver solutions to accelerate SDG achievement 2.1.2 Number of measures in place to prevent illicit financial flows and improve the effectiveness, transparency and accountability of development financing and domestic resource mobilization</p> <p><i>Signature Solution 3: Resilience</i> 3.3 Risk informed and gender-responsive recovery solutions, including stabilization efforts and mine action, implemented at regional, national and sub-national levels</p>

<sup>1</sup> The three development settings in UNDP's 2018-2021 Strategic Plan are: a) Eradicate poverty in all its forms and dimensions; b) Accelerate structural transformations for sustainable development; and c) Build resilience to shocks and crises

<sup>2</sup> The six Signature Solutions of UNDP's 2018-2021 Strategic Plan are: a) Keeping people out of poverty; b) Strengthen effective, inclusive and accountable governance; c) Enhance national prevention and recovery capacities for resilient societies; d) Promote nature based solutions for a sustainable planet; e) Close the energy gap; and f) Strengthen gender equality and the empowerment of women and girls.

	<p><b>4. Does the project identify target groups, and particularly those marginalized, vulnerable and left further behind (LNOB)? <sup>4</sup></b></p>
<input type="checkbox"/>	<ul style="list-style-type: none"> <li>• 3: The target groups are clearly specified, prioritising discriminated, and marginalized groups left furthest behind, identified through a rigorous process based on evidence.</li> </ul>
<input checked="" type="checkbox"/>	<ul style="list-style-type: none"> <li>• 2: The target groups are clearly specified, prioritizing groups left furthest behind.</li> </ul>
<input type="checkbox"/>	<ul style="list-style-type: none"> <li>• 1: The target groups are not clearly specified.</li> </ul>
	<p>Evidence (Enter a short explanation and attached a document that provides evidence for your response):</p> <p>The project relies on the standards and policies defined by the European Investment Bank (EIB), that will support investments in energy efficiency refurbishments in public buildings in frame of the UPBEE Programme. The geography of this financial support covers all regions of Ukraine, excluding the areas that are temporarily not controlled by the Government of Ukraine or located in a conflict zone, at a distance closer than 30 km from the military operations. The Programme encourages participation of small and medium-size municipalities and local government. By focusing on the kindergardens, schools and health buildings the project emphasizes the impact on vulnerable groups of the population (elderly persons, individuals with disabilities, children). In addition to energy efficiency renovations, the Programme allows the finance of repair (including related to war damages) and adaptations needed in public buildings to better suit the needs of Internally Displaced Persons (IDPs) and hosting communities.</p> <p>Attachment: Project Document, Description of Action</p>

<input type="checkbox"/>	<ul style="list-style-type: none"> <li>• 1: There is little, or no mention of knowledge and lessons learned informing the project design. Any references made are anecdotal and not backed by evidence.</li> </ul> <p>Evidence (Enter a short explanation and attached a document that provides evidence for your response): The project highlights to the successful partnership with the European Investment Bank within Ukraine Recovery Programme that resulted in scaling up experience and basically gave a start for applying the same operational modalities within Ukraine Public Buildings Energy Efficiency Programme. This project has applied the same configuration, which proved to be efficient based on the expert team composition, distributions of roles among partners, etc. The project also marks a multi-year UNPD's engagement in strengthening capacity for climate policy via its partnership with the Global Environment Facility, Green Climate Fund, and the Adaptation Fund. In a more general note, the project indicates an exceptional UNPD's experience in resource mobilization and inter-disciplinary collaborations, capability for addressing complex, large-scale, multi-faceted developmental issues.</p> <p>Attachment: Project Document, Description of Action</p>
<b>6. Does UNDP have a clear advantage to engage in the role envisioned by the project vis-à-vis national / regional / global partners and other actors?</b>	
<input checked="" type="checkbox"/>	<ul style="list-style-type: none"> <li>• 3: An analysis has been conducted on the role of other partners in the area where the project intends to work, and credible evidence supports the proposed engagement of UNDP and partners through the project, including identification of potential funding partners. It is clear how results achieved by partners will complement the project's intended results and a communication strategy is in place to communicate results and raise visibility vis-à-vis key partners. Options for south-south and triangular cooperation have been considered, as appropriate. (all must be true)</li> </ul>
<input type="checkbox"/>	<ul style="list-style-type: none"> <li>• 2: Some analysis has been conducted on the role of other partners in the area where the project intends to work, and relatively limited evidence supports the proposed engagement of and division of labour between UNDP and partners through the project, with unclear funding and communications strategies or plans.</li> </ul>
<input type="checkbox"/>	<ul style="list-style-type: none"> <li>• 1: No clear analysis has been conducted on the role of other partners in the area that the project intends to work. There is risk that the project overlaps and/or does not coordinate with partners' interventions in this area. Options for south-south and triangular cooperation have not been considered, despite its potential relevance.</li> </ul> <p>Evidence (Enter a short explanation and attached a document that provides evidence for your response): The role of project partners has been established in the Annex of the <i>EIB-UNDP Agreement in respect of advisory support to be provided to public authorities and publicly-owned communal enterprises in Ukraine in support of the implementation of certain energy efficiency investment sub-projects</i> (Berlin, October 2022) and reflected in the project document accordingly.</p> <p>Building on an advisory support on energy efficiency, provided by the UNDP to the Government and other public authorities of Ukraine with a view to contributing to the energy efficiency by reducing energy consumption and costs in the residential sector, Parties agreed to set up the project and enlist the UNDP support. This support envisages collaboration with Ministry of Communities and Territories Development with the Programme Management and Support Unit within the Ministry, Covenant of Mayors, beneficiaries represented by local state administration or body of local self-government, or any communal enterprise that receives support under financial mechanism by the European Investment bank (EIB).</p> <p>The project is funded under the Eastern Europe Energy Efficiency and Environment Partnership Fund (the E5P Fund), established by the European Bank of Reconstruction and Development (EBRD, which acts as Fund Manager and manages and administers the E5P Fund. Communication policy is clearly defined in Article 8 of the mentioned EIB-UNDP Agreement.</p> <p>Attachment: Project Document, Description of Action</p>
<b>3. PRINCIPLED</b>	
<b>7. Does the project apply a human rights-based approach?</b>	
<input type="checkbox"/>	<ul style="list-style-type: none"> <li>• 3: The project is guided by human rights and incorporates the principles of accountability, meaningful participation, and non-discrimination in the project's strategy. The project upholds the relevant international and national laws and standards. Any potential adverse impacts on enjoyment of human rights were rigorously identified and assessed as relevant, with appropriate mitigation and management measures incorporated into project design and budget. <input type="checkbox"/>	<ul style="list-style-type: none"> <li>• 1: No evidence that the project is guided by human rights. Limited or no evidence that potential adverse impacts on enjoyment of human rights were considered.</li> </ul>
	<p>Evidence (Enter a short explanation and attached a document that provides evidence for your response):</p> <p>The project is guided by human rights and incorporates the principles of accountability, meaningful participation, and non-discrimination in its strategy. The UNDP committed to promote the respect of human rights and respect applicable environmental and social international standards and agreements, as well as applicable internationally agreed core labour standards under the clause of the <i>EIB-UNDP Agreement</i>. It is indicated that the technical assistance team established by the project will keep a check on human rights and ensure public engagement during implementation of the selected sub-projects. The project refers to vulnerable groups that have been affected by war and will benefit from a comprehensive energy efficient rehabilitation of public buildings, including kindergartens, schools, and health buildings, etc.</p> <p>Attachment: Project Document, Description of Action</p>
	<b>8. Does the project use gender analysis in the project design?</b>
<input type="checkbox"/>	<ul style="list-style-type: none"> <li>• 3: A participatory gender analysis has been conducted and results from this gender analysis inform the development challenge, strategy and expected results sections of the project document. Outputs and indicators of the results framework include explicit references to gender equality, and specific indicators measure and monitor results to ensure women are fully benefitting from the project. <input type="checkbox"/>	<ul style="list-style-type: none"> <li>• 1: The project design may or may not mention information and/or data on the differential impact of the project's development situation on gender relations, women and men, but the gender inequalities have not been clearly identified and reflected in the project document.</li> </ul>
	<p>Evidence (Enter a short explanation and attached a document that provides evidence for your response):</p> <p>Participatory gender analysis has not been conducted in the project's design phase, but the effect of the project on gender equality has been mainstreamed throughout the strategy and Results Framework. Gender analysis has been conducted under another project in energy efficiency. The project's indirect outputs, specifically support to vulnerable groups affected by war, are clearly articulated in the project's strategy and result framework. The project's technical assistance team is expected to support local beneficiaries to incorporate basic gender standards in line with EIB operational framework.</p> <p>Attachment: Project Document, Description of Action, Social and Environmental Screening Template</p>

(if any is true)</li> </ul>
	<p>Evidence (Enter a short explanation and attached a document that provides evidence for your response): The project presents the outputs and activities at an appropriate level and in conformity with the UPBEE Programme plans and intentions. Considering that project outcomes are dependent on the regular input from other partners and determined by the selection process, the SMART indicators for the project will likely need to be adjusted with progress. It envisages that the technical assistance team in co-operation with the Programme Management and Support Unit (PMSU) will elaborate Monitoring and Evaluation for each sub-project selected for implementation.</p> <p>Attachment: Project Document, Description of Action</p>

	<p>Evidence (Enter a short explanation and attached a document that provides evidence for your response): The project risks related to the achievement of results are fully described in the project risk register and the SESP. The project outlines how the UNDP will work under the guidance of the UN Department for Safety and Security and the authority of the UN Designated Security Official to secure a safe environment for the implementation of the project's activities. The project plans to seek co-operation with national and local counterparts on addressing security, political and organizational risks. The risks and related mitigation measures derived from external and internal consultations combined with accumulated in UNDP's experience over the years, given the changing circumstances in the time of warfare.</p> <p>Attachment: Project Document, Description of Action</p>

<input type="checkbox"/>	<ul style="list-style-type: none"> <li>• No</li> </ul>
	<p>Evidence (Enter a short explanation and attached a document that provides evidence for your response):</p> <p>Considering the nature of support assigned to the UNDP, the project has limited space for maneuvering cost-efficient use of resources that will be allocated to management and operation only. At the same time, the project will maximize the use of innovative technologies, where possible. In addition, to the central hub in Kyiv (technical coordination unit), the project will place a technical assistance unit (TA unit) in the regional offices in Dnipro, Odesa and Mukachevo to cover the different geographical parts of the country. The regional presence of the TA unit might be useful for on-spot assistance by other projects. It also utilizes cost-sharing of local offices and shared equipment for costs related to security.</p> <p>Attachment: Project Document, Description of Action</p>

The criteria and conditions for determining eligibility of costs are set out in the <i>EIB-UNDP Agreement</i> (Articles 5.6 to 5.9). The cost of the contribution shall be the aggregate amount of the direct personnel costs and the amount of eligible indirect costs (amounting to 44% of aggregated direct costs). The budget covers management costs required for personnel, and operational resources (inc. office facilities, equipment, travel and vehicles).</p> <p>Attached: Project Document, Description of Action</p>

In the theory of change it states that local communities, IDPs and other vulnerable groups receive decent living conditions and quality social services. In addition to energy efficiency renovations, the UPBEE Programme allows the finance of repair of public buildings. The project highlights the impact on vulnerable groups (including people with disabilities) and people that were directly affected by the ongoing hostilities and infrastructure damage.</p> <p>Attached: Project Document, Description of Action</p>

	<p>Evidence (Enter a short explanation and attached a document that provides evidence for your response):</p> <p>Capacity building of sub-national institutions is key for a successful project implementation, increasing energy efficiency in public buildings. The project specifies the stages of sub-project cycle management where the project team will provide technical advisory support to beneficiaries. The baseline assessment and the strategy design for strengthening capacity has not been completed. Considering that technical assistance of the project will come into service after preparatory stage, the project will plan capacity building activities in an ad hoc basis in step with the UPBEE Programme roadmap and the agenda.
