Part A. Integrating Programming Principles to Strengthen Social and Environmental Sustainability

QUESTION 1: How Does the Project Integrate the Programming Principles in Order to Strengthen Social and Environmental Sustainability?

Briefly describe in the space below how the project mainstreams the human rights-based approach

Teniendo en cuenta la agenda de los Objetivos de Desarrollo Sostenible, el proyecto se alinea con el objetivo número 16. Paz, justicia e instituciones sólidas. Uno de los mayores retos en un escenario de estabilización es fortalecer las capacidades requeridas para cumplir con la Agenda 2030. Este proyecto se basa y complementa el trabajo existente del PNUD en el apoyo operativo a los diálogos de paz con grupos armados, en línea con el principio orientador del peacekeeping del Sistema de las Naciones Unidas, al tiempo que y proporciona un apoyo estratégico del ODS 16 y en la articulación para la materialización de la paz. Se espera fortalecer la capacidad del gobierno para llevar a cabo los diálogos de paz. Desde el proyecto reconoce y respeta la diversidad étnica, la identidad cultural. En los casos en que corresponda, se definirán mecanismos de diálogo con las autoridades étnico-territoriales en cada una de las etapas del proyecto, garantizando su participación en los espacios de gobernanza local para el proyecto.

Briefly describe in the space below how the project is likely to improve gender equality and women's empowerment

En general se garantizará igualdad de oportunidades y derechos para las mujeres en el marco de este proyecto promoviendo el ejercicio pleno de su ciudadanía y diversificando las oportunidades para su participación cualificada dentro de los diálogos. Para ello, se incluyen acciones de género y cuidado que buscan facilitar los procesos de empoderamiento de la mujer en el marco de la política de Paz Total, permitiendo erradicar brechas de desigualdad de género en los ámbitos sociales, económicos y culturales. El diseño e implementación de la intervención reconoce los factores conectores y divisores que pueden afectar la participación efectiva de las mujeres en estos procesos. A través del reconocimiento de diferenciales de hombres y mujeres en el tránsito a la vida civil y la promoción de acciones afirmativas que reviertan las desventajas históricas que han tenido las mujeres en todos los ámbitos, se busca generar condiciones que propendan por la igualdad de género.

Briefly describe in the space below how the project mainstreams sustainability and resilience

El proyecto adelantará las medidas pertinentes de participación, diálogo, concertación y seguimiento de las intervenciones como una forma preventiva con las comunidades, institucionalidad local, el equipo de trabajo con el fin de generar la articulación, prevención, concientización y adaptación a las realidades territoriales, evitando impactos ambientales negativos, generando la apropiación, confianza, sostenibilidad y transformaciones sociales en el territorio.

Briefly describe in the space below how the project strengthens accountability to stakeholders

De la mano del Fondo de Programas Especiales para la Paz, se generan espacios para que las partes interesadas conozcan el avance en la implementación de las acciones. De la misma manera, se generar canales para que las personas puedan presentar comentarios, quejas o sugerencias.
