QA Questionnaire:

Strategic Status: Complete Quality Rating: Exemplary

1. Does the project specify how it will contribute to higher level change through linkage to the programme's Theory of Change?

- (●) 3: The project is clearly linked to the programme's theory of change. It has an explicit change pathway that explains how the project will contribute to outcome level change and why the project's strategy will likely lead to this change. This analysis is backed by credible evidence of what works effectively in this context and includes assumptions and risks.
- ( ) 2: The project is clearly linked to the programme's theory of change. It has a change pathway that explains how the project will contribute to outcome-level change and why the project strategy will likely lead to this change.
- ( ) 1: The project document may describe in generic terms how the project will contribute to development results, without an explicit link to the programme's theory of change.

*Note: Projects not contributing to a programme must have a project-specific Theory of Change. See alternative question under the information icon for these cases.
*Note: Risk management must be done for criteria with score of 1.

Evidence (Enter a short explanation or upload a document that provides evidence for your response)

Yes. Please refer to the project document.

2. Is the project aligned with the UNDP Strategic Plan?

- (●) 3: The project responds to at least one of the development settings as specified in the Strategic Plan and adapts at least one Signature Solution. The project's RRF includes all the relevant SP output indicators. (all must be true)
- ( ) 2: The project responds to at least one of the development settings as specified in the Strategic Plan. The project's RRF includes at least one SP output indicator, if relevant. (both must be true)

1: The project responds to a partner's identified need, but this need falls outside of the UNDP Strategic Plan. Also select this option if none of the relevant SP indicators are included in the RRF.

*Note: Risk management must be done for criteria with score of 1.

Evidence (Enter a short explanation or upload a document that provides evidence for your response)

The project specifically links to UNDP Strategic Plan Outcome 1. Growth and development are inclusive and sustainable, incorporating productive capacities that create employment and livelihoods for the poor and excluded. Output 1.4: Scaled up action on climate change adaptation and mitigation across sectors which is funded and implemented CPD Output 4.1. Low emission climate resilient actions initiated.

3. Is the project linked to the programme outputs? (i.e., UNSDCF/CPD, RPD or Strategic Plan IRRF for strategic interventions not part of a programme)

- (●) YES
- ( ) NO

*Note: Project QA cannot be approved by Project QA Approver when the response is "No".

Evidence (Enter a short explanation or upload a document that provides evidence for your response)

Yes as follows:

4. Does the project identify target groups , and particularly those marginalized, vulnerable and left further behind (LNOB)

- (●) 3: The LNOB target groups are clearly specified, prioritising discriminated, and marginalized groups left furthest behind, identified through a rigorous process based on evidence.
- ( ) 2: The LNOB target groups are clearly specified, prioritizing groups left furthest behind.
- ( ) 1: The LNOB target groups are not clearly specified.

*Note: Risk management must be done for criteria with score of 1. Projects that build institutional capacity should still identify targeted groups to justify support.

Evidence (Enter a short explanation or upload a document that provides evidence for your response)

Yes. Please refer to the project document.

5. Have knowledge, good practices, and past lessons learned of UNDP and others informed the project design?

- (●) 3: Knowledge and lessons learned backed by credible evidence from sources such as evaluation, corporate policies/strategies, and/or monitoring have been explicitly used, with appropriate referencing, to justify the approach used by the project.
- ( ) 2: The project design mentions knowledge and lessons learned backed by evidence/sources but have not been used to justify the approach selected.
- ( ) 1: There is little, or no mention of knowledge and lessons learned informing the project design. Any references made are anecdotal and not backed by evidence.

*Note: Risk management must be done for criteria with score of 1.

6. Does UNDP have a clear advantage to engage in the role envisioned by the project vis-à-vis national / regional / global partners and other actors?

(•) 3: An analysis has been conducted on the role of other partners in the area where the project intends to work, and credible evidence supports the proposed engagement of UNDP and partners through the project, including identification of potential funding partners. It is clear how results achieved by partners will complement the project's intended results and a communication strategy is in place to communicate results and raise visibility vis-à-vis key partners. Options for south-south and triangular cooperation have been considered, as appropriate. (all must be true)

( ) 2: Some analysis has been conducted on the role of other partners in the area where the project intends to work, and relatively limited evidence supports the proposed engagement of and division of labour between UNDP and partners through the project, with unclear funding and communications strategies or plans.

( ) 1: No clear analysis has been conducted on the role of other partners in the area that the project intends to work. There is risk that the project overlaps and/or does not coordinate with partners' interventions in this area. Options for south-south and triangular cooperation have not been considered, despite its potential relevance.

Outputs and indicators of the results framework include explicit references to gender equality, and specific indicators measure and monitor results to ensure women are fully benefitting from the project. (all must be true)

( ) 2: A basic gender analysis has been carried out and results from this analysis are scattered (i.e., fragmented and not consistent) across the development challenge and strategy sections of the project document. The results framework may include some gender sensitive outputs and/or activities but gender inequalities are not consistently integrated across each output. (all must be true)
