With this approval, I am pleased to send for your signature this Delegation of Authority.

The BPPS Nature Hub Director shall ensure that the Global component of the project complies with the GEF-specific requirements outlined below and in the Project Document and shall provide oversight and quality assurance of tasks undertaken by the Implementing Partner and/or Responsible Parties. In addition, as with all UNDP projects, the Nature Hub Director assumes full accountability for ensuring that all requirements set out in UNDP's Programme and Operations Policies and Procedures (POPP), its Financial Regulations and Rules and Internal Control Framework are complied with.

By accepting this Delegation of Authority, the Resident Representative of each participating country assumes full responsibility and accountability of the respective country results and resources under the relevant component of this GEF-financed project and of its timely implementation. The Resident Representative shall ensure that the country component of the project complies with the GEF-specific requirements outlined below and in the Project Document and shall provide oversight and quality assurance of tasks undertaken by the Implementing Partner and/or Responsible Parties. In addition, as with all UNDP projects, the Resident Representative assumes full accountability for ensuring that all requirements set out in UNDP's Programme and Operations Policies and Procedures (POPP), its Financial Regulations and Rules and Internal Control Framework are complied with.

By accepting this Delegation of Authority, the Regional Bureau Director assumes full responsibility and accountability to provide oversight to the Resident Representative to ensure compliance with all UNDP regulations and rules. In addition, the Regional Bureau Director will ensure that the Deputy Regional Director provides additional support to the relevant BPPS/Thematic Hub (as outlined above) and the BPPS/Vertical Funds Programme Support, Oversight and Compliance Hub (VF Hub) when needed to ensure the GEF-specific requirements noted below and in the Project Document are met as required and as per the noted schedule.

The BPPS oversight tasks are outlined in the RACI and shall include:

(i) Technical oversight on the nature, climate, energy and chemicals and waste aspects of this project during the implementation phase. Technical oversight shall be provided by the Regional Technical Advisor (RTA) for the Project (as identified in PIMS+) in the BPPS Thematic Hub (as outlined above).

(ii) Oversight/quality assurance to ensure this project complies with GEF policies and procedures. This oversight will be provided by the BPPS/VF and Thematic Hubs, through the RTA (responsible), Principal Technical Advisor (PTA) for the project, as identified in PIMS+ (accountable), the Regional Team Leader (RTL) and other region-based staff, and other staff based in the BPPS/VF Hub.

Should this project be at-risk of non-compliance with any GEF requirement and deadlines, including the GEF Minimum Fiduciary Standards, the risk shall be escalated respectively by the BPPS Nature Hub to the BPPS Deputy Director and by the Resident Representative to the Deputy Regional Director for action. The BPPS/VF Hub should

This includes, *inter alia*, Country Office audits, HACT audits, as well as the OAI Audit in relation to UNDP's management of GEF supported projects. The Resident Representative shall ensure that all recommendations made by OAI and during the HACT audits are implemented within the timeframe committed. Failure to address OAI audit recommendations in a timely manner shall entitle the BPPS/VF Hub Executive Coordinator to suspend or revoke this Delegation of Authority and, if necessary, after consultation with the Regional Bureau Director, transfer the accountability and responsibility for implementation of this project to another unit (e.g. the Regional Bureau) or, with the agreement of the GEF, cancel the project.

The BPPS Nature Hub and each Resident Representative shall ensure that the project adheres to UNDP's Social and Environmental Standards (SES) for the overall project and specific individual country results and activities under the relevant component respectively throughout the duration of the project. Failure to comply with the SES may lead to project suspension or cancellation.
