Annual Work Plan (2017)

Country: Cambodia

UNDAF Outcome: I. Economic Growth and Sustainable Development; and V. Governance.

UNDAF Country Programme Outcome 1.2: National institutions, local authorities and private sector are better able to ensure the sustainable use of natural resources (protected areas, fisheries, forestry, mangrove, and land), cleaner technologies and responsiveness to climate change;

UNDAF Country Programme Outcome 4.3: Enhanced capacities for collection, access and utilization of disaggregated information (gender, age, target populations, region) at national and sub-national levels to develop and monitor policies and plans that are responsive to the needs of the people and incorporate priority population, poverty and development linkages.

UNDP Strategic Plan Outcome 1: Growth and development are inclusive and sustainable, incorporating productive capacities that create employment and livelihoods for the poor and excluded.

UNDP Strategic Plan Output 1.4: Scaled up action on climate change adaptation and mitigation across sectors which is funded and implemented

CPAP Cambodia Outcome 2: By 2015, National institutions, local authorities, communities and private sector are better able to sustainably manage ecosystems goods and services and respond to climate change.

Executing Entity/Implementing Partner: Ministry of Environment (MOE)

Implementing Entity/Responsible Partners: United Nations Development Programme (UNDP), Ministry of Environment (MOE)

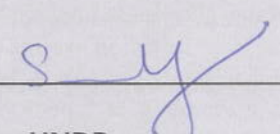

Narrative

This project is in line with the GEF-5 CCCD Programme Frameworks two (2) and four (4), which calls for countries (2) to generate, access and use information and knowledge and (4) to strengthen capacities to implement and manage global convention guidelines. It is also aligned with the first objective of GEF6 that is to integrate global environmental needs into management information systems (MIS). It is a direct response to national priorities identified through the NCSA conducted in 2005-2006 and it is also part of the institutional strengthening underway at MOE and MAFF. Through a learning-by-doing process, this project will harmonize existing environmental information systems, integrating internationally accepted measurement standards and methodologies, as well as develop a more consistent reporting on the global environment. Under the first outcome, the project will support the development of national capacities to effectively and efficiently standardize environmental related information that is generated on the implementation of the Rio Conventions in Cambodia, and give open-access to this information. In parallel to this, the project will support the strengthening of Cambodia's capacity to better engage stakeholders and better coordinate the implementation of the Rio Conventions in the country. Under the second outcome, project resources will be used to improve the use of environmental related information for the development of innovative tools supporting decision-making processes related to the implementation of the Rio Conventions. Project support will also include activities to develop the capacity in using this environmental related knowledge of national institutions involved in international negotiations at Conventions COPs, as well as using this knowledge to produce national reports meeting Conventions reporting obligations.

The saving amount of 7,000 dollars is expected to use for other contractual services.	
			71300	Local Consultant	121,000		10,800.00	7,300.00	10,900.00	29,000.00	(92,000)	The original budget for local consultant is included in the sub contract to each 3 Rio Convention Institution to implement their respective activities. However, the 2nd board meeting on September 5, 2016 decided to apply grant modality rather than sub contract to each Rio convention.	
			72600	Grants			-	70,500.00	21,000.00	91,500.00	91,500	This new budget line is created for grant modality and moved from Local consultant budgetline as mentioned above. Example for the 1st grants (The grants is responsible for (1) conducting an inventory of existing information/information management system, (2) assessing these information/systems to identify overlaps and gaps, (3) assessing the strengths and weaknesses of UN-CBD, UNCCD and UNFCCC CHMs, (4) identifying ways and means to expand its roles, (5) surveying organs/bodies/institutions that generate related data/information of relevance to Cambodia on biodiversity, climate change and land degradation and draft and (6) assisting CDA on reviewing ongoing work on selected tools for decision- and policy-making. The outputs of each convention will be combined with those of MEA or CDA, reviewed and commented in the consultation meeting and approved/cleared by the project director).
