**Brief Description**

Overall objective of the project is to close, without further delay, a painful chapter in the history of the island and contribute to the process of rapprochement and reconciliation between the Greek Cypriot and Turkish Cypriot communities. This important objective will be further encouraged and promoted through the participation of bi-communal scientific teams in all stages of the process.

Expected results are (1) Build trust-bring the two communities to work together; (2) Reduce the number of missing persons by locating and returning missing persons to their families and (3) Increase awareness and build local capacities.

It is expected that the additional funding and phases of the project will be included in this umbrella project.
