Brief Description:

The Project for Strengthening Transparency and Code of Ethics for Enhanced Public Confidence in Court of Cassation (CoC) targets developing and implementing strategies in the CoC for "disseminating code of ethics," "strengthening transparency" and "increasing trust in the judiciary" in line with universal values, good practices and lessons learned in other countries. The Project implementation started on 1 March 2016, and the planned end date was defined as 31 December 2020. The implementation has been carried out very effectively, and almost all activities foreseen in Annual Workplans (AWPs) for 2016, 2017, 2018, 2019 and 2020 were finalized. Due to the Covid-19 conditions and change of duty in senior management of the CoC, some activities foreseen to be held in 2020 had to be postponed. In the light of the achievements and newly emerging activities, a further extension of the Project duration became necessary. It was also noted that a reasonable amount of budget has remained due to savings from implementation and currency fluctuations. Additional activities can be planned to extend the multiplier effects and disseminate the Project's outcomes widely in Turkey and abroad and among practitioners and justice actors. Potential additional activities can be listed as 1- Preparation of Resource Guide/Evaluation Framework for the Istanbul Declaration on Transparency in the Judicial Process and the Measures for the Effective Implementation of the Istanbul Declaration, 2- Printing and publishing of materials on ethics and transparency, 3- Providing online refresher trainings for 127 ethics facilitator law students, 4- Conducting information and knowledge sharing on judicial ethics with academicians who are specialized in ethics. In this scope, in line with the consultations held between project partners at the 9th Project Steering Committee Meeting held on 26 November 2020, the project implementation period was decided to be extended from 31 December 2020 to 31 December 2021 with no additional budget.
