United Nations Development Programme

United Nations Development Programme Country: Republic of Serbia 2020 Annual Work Plan

Project Title:	Advancing medium and long-term adaptation planning in the Republic of Serbia
UNDAF Outcome(s):	UNDAF/CPD (2016-2020) Outcome 8: By 2020, there are improved capacities to combat climate change and manage natural resources and communities are more resilient to the effects natural and man-made disasters.
UNDP Strategic I Output(s):	2.3.1 Data and risk-informed development policies, plans, systems and financing incorporate integrated solutions to reduce disaster risks, enable climate change adaptation and mitigation, and prevent crisis
Implementing Partner:	UNDP CO Serbia

 Atlas Project ID:
 00105424

 Atlas Output ID:
 00106706

 Start Date:
 26 October 2019

 End Date:
 25 October 2022

Management Arrangements: DIM

Total resources required: USD 505,582.00

Total allocated resources:

Regular/UNDP: Other (donors):

GCF Grant: USD 505,582.00

Brief Description

The project builds on Serbia's NDC commitments to advance medium and long-term adaptation planning in the Republic of Serbia with a National Adaptation Plan (NAP), providing support for iterative improvements to the NDCs under the enhanced transparency framework requirements, while enabling the Government of Serbia to build and strengthen capacities for mainstreaming climate change adaptation (CCA), produce actionable climate risk and vulnerability assessments, and implement effective methods, tools and information systems to better inform decision-making on climate risks. Project activities will address the main barriers to the integration of CCA into national, sectorial and local government planning and budgeting and support the formulation of financing strategies and mechanisms for the scaling up of medium- and long-term adaptation. The overall goal of the NAP will be to reduce climate change related risks throughout Serbia by strengthening institutional and technical capacities that support integrated CCA planning and programming.

In 2020, focus of the project will be on strengthening legal and institutional framework for Climate Change Adaptation (CCA), establishing climate and CCA knowledge-base and PAM inventory, as well as development and delivery of long-term CCA capacity building programmes to ensure sustainability of CCA competencies. Project will also provide assistance related to development and implementation of the communication and outreach strategy (COS) for the Climate Change Adaptation (CCA) activities in the Republic of Serbia, with the aim to further support CCA mainstreaming efforts, thus sensitizing policy makers and all relevant stakeholders on the importance of CCA.

Agreed by: Francine Pickup, Resident Representative, UNDP CO Serbia
