UNITED NATIONS DEVELOPMENT PROGRAMME

Empowered lives. Resilient nations.

MULTI-YEAR WORK PLAN

This Engagement Facility project aims at pioneering and scaling new ideas and approaches within Green Agenda at the national level.

Preparing for an economic transformation in the post-crisis setup anticipates focusing on green and circular economy principles, climate resilient growth and sustainable business practices. This entails creating enabling environment to encourage a greater scale of investment into both protection of natural capital and a transition towards a 'greener' economy, and towards the country's carbon reduction ambitions under the Paris Agreement, Nationally Determined Contributions, the CEPA, the 2030 Agenda for Sustainable Development, etc. Integrating environmental and inclusive aspects into recovery and stimulus measures would allow the government to create opportunities for income, jobs and growth.

EXPECTED OUTPUTS	PLANNED ACTIVITIES	Planned Budget by Year	RESPONSIBLE PARTY	PLANNED BUDGET		
		2022		Funding Source	Budget Description	Amount
