

**United Nations Development Programme
Pakistan**

Project Title Reforms and Innovation in Government for High Performance

OP II Outcome(s): Inclusive economic growth through the development of sustainable livelihoods

Expected CP Output(s): Output 2.1.1: Planning and finance institutions and women's departments at federal and provincial levels are enabled to develop comprehensive development strategies, with a focus on MDGs acceleration, inclusive growth, gender equality and women's empowerment

Expected Output(s): **Output 1:** Results-based Management (RBM) compliant framework for Pakistan Vision 2025/ PSDP/ ADP put in place and operational; **Output 2:** Civil service and Public Administration reforms implemented with distinct accountability and transparency mechanisms established; **Output 3:** Poverty measurement along with effective implementation and monitoring of MDGs/ SDGs/ social development indicators; **Output 4:** Planning Ministry positioned and strengthened as public sector think tank and as interprovincial coordinator on development issues.

Executing Entity: Ministry of Planning Development and Reform, Provincial Planning and Development Departments, Ministry of Finance

Implementing Agencies: UNDP

Brief Description

This initiative provides support to the Ministry of Planning, Development and Reform for public sector reforms and innovation for improved performance and service delivery, citizen's satisfaction and reducing multi-dimensional poverty. The initiative intends to improve governance at different levels, track and monitor the implementation of Vision 2025 towards the targeted results and improve inter-provincial and inter-departmental coordination and enhance capacities for MDGs and reducing multi-dimensional poverty. The initiative endeavours to strengthen Planning Ministry as a public sector think-tank and technical advice providers to provinces and Administrative Regions in the post 18th Amendment scenario. The project intends to achieve its objective through four interconnected outputs : 1) Results-based Management system for Pakistan Vision 2025/ PSDP/ ADP put in place and operational; 2) Civil service and Public Administration reforms with distinct accountability and transparency mechanism promoted and piloted; 3) Improved poverty measurement and effective implementation and monitoring of MDGs/ post 2015 development agenda; 4) Planning Ministry positioned and strengthened as public sector think-tank and interprovincial coordinator on development issues. The initiative will be implemented through UNDP direct implementation modality (DIM). The project seeks to promote partnership with provinces and regions for implementation of most of the targeted interventions.

Start date:	01 March 2015
End Date	31 December 2018
Management Arrangements:	DIM
PAC Meeting date:	30 June 2014

Total resources required:	US\$11.66 Million
Resources required:	US\$11.66 Million
Total allocated resources:	
UNDP (Core+ third-party)	US\$7.00 Million
Govt. of Pakistan	US\$4.66 Million

Agreed by Ministry of Planning, Development and Reforms:

Agreed by UNDP:

I. SITUATION ANALYSIS

Pakistan is a middle income country and is 44th largest economy in the world in terms of its Gross Domestic Product (GDP). Some economists¹ have projected Pakistan to become the 18th largest economy by 2050. In terms of per capita income, Pakistan stands at 140th position² – well above Nepal and Bangladesh.

The social indicators, however, don't match well with economic performance. For example, since 1990, Pakistan has made a cumulative progress (average rate of change) on Millennium Development Goals (MDGs³) of a mere 1.16 points as compared to Nepal's 3.5, Bangladesh's 1.99 and India's 1.3. At this current rate of progress, Pakistan will miss most of its MDGs targets by the deadline of 2015.

While security and law and order situation have significantly contributed to the poor performance on MDGs, the failure of the public policy to prioritize the right initiatives at the right time and the ability of its governing institutions to deliver on time quality services, have had a major contribution to the low social development outcomes in the country. During the last five years, most of the governance indicators for Pakistan have deteriorated. For example, the "government effectiveness"⁴ rank has reduced from 39.32 percentile rank in 2007 to 23.44 in 2012 – with governance score going down from negative 0.46 in 2007 to negative 0.79.

Pakistan is presently facing sensitive and complex issues i.e. ineffective management of resources; disparities in the pace and level of development across the provinces /regions/ districts/areas; inefficient service delivery mechanisms; lack of transparency and accountability; law and order, tax-evasion, weak regulatory frameworks, failure in getting timely justice, lack of participation in decision-making and local governance, deterioration of physical environment in the urban and rural areas, shortage of energy etc.

It is generally acknowledged that government structures have become outdated, weak and even counterproductive in some cases. It is based on a system evolved by the British, largely to suit the needs of colonial rule and protecting the state from the people. There is strong realization in Pakistan that it stands at a turning point where, if it is able to reform its government structures, it can start its journey to become a modern state, otherwise it might have to face more difficulties in delivering services to its citizens. Reform is also warranted by the emerging trends in globalization, competitiveness, deregulation, decentralization, role of the state, participation of civil society and non-governmental organizations, spread of information technology and innovation. State machinery at federal and provincial levels, judiciary, political institutions, regulatory institutions, public sector enterprises (PSEs) and various organs of civil society require a thorough review to identifying weaknesses and introducing necessary reforms consistent with these emerging trends and international best practices.

Pakistan needs a paradigm shift in its government framework. There is a strong need to transform the Government through improving governance, strengthening institutions, fostering markets and initiating reforms in the areas of judicial & civil service systems, systems and procedures, tax administration, procurement, financial management, enforcing property rights, PSEs and promoting innovations.

¹ Terence James "Jim" O'Neill, retiring chairman of Goldman Sachs Asset Management, is a British economist best known for coining BRIC, the acronym that stands for Brazil, Russia, India, and China Jim O'Neill

⁴ World Bank, world governance indicator

Pakistan experience with respect to policy reform proposes a strong political commitment for implementation. While at times, there have been dearth of policy and reform options, implementation of these options have remained a major hurdle. There are two additional bottlenecks: the Knowledge Gap and Debate Gap. There is need to develop and strengthen various knowledge generating institutions which may then provide a constant stream of knowledge relevant to public service reforms. To overcome Debate bottlenecks, the media, meetings, seminars, symposia and other means of communication should be used to encourage an atmosphere of positive debate on public policy issues among all sections of the society.

Pakistan must develop a structure to set in motion certain processes from which sustainable and strategic governance reform can emerge. The process requires vision, commitment mobilization and action. The current government is committed to introduce structural reforms to enhance the performance and effectiveness of public sector institutions. The Pakistan Vision 2025 and the 11th Five Year Plan demonstrate the commitment of the government in this regard.

II. STRATEGY

The Pakistan Vision 2025 sets medium to long term national goals and serves as the overall reference document for this project. With focus innovations for improved governance and performance in public sector, this project would provide a platform for the implementation of some of the reforms related to public administration as envisioned in the Vision 2025. The project will also support innovative interventions to reduce multi dimensional poverty and accelerate progress towards MDGs at the sub-national level.

As part of its Country Programme (2013-17) and One United Nations Programme II, the project will contribute to the strategic priority area "Inclusive economic growth through the development of livelihoods .UNDP will continue providing technical support to in reporting progress on their national MDG targets, and developing the MDG National and sub-national reports to reflect emerging national development priorities and agendas.

The project will support the Ministry of Planning, Development and Reform to achieve the following key outputs under the project:

1. Results-based monitoring system for Pakistan Vision 2025/ PSDP/ ADP put in place and operational;
2. Civil service and Public Administration reforms with distinct accountability and transparency mechanism promoted and piloted;
3. Improved decision making through better Poverty measurement and effective implementation and monitoring of MDGs/ post 2015 development agenda;
4. Planning Ministry positioned and strengthened as public sector think tank and interprovincial coordinator on development issues

Output 1: Results-based Management system for Pakistan Vision 2025/ PSDP/ ADP put in place and operational.

As noted above, "implementation" of policies, interventions, reforms etc has remained one of the key constraints in Pakistan's struggle to put in place effective governance systems and capable institutions. Through this project, UNDP would provide technical assistance to the

Ministry of Planning, Development and Reform to establish a robust “delivery unit” to oversee the implementation of the government development strategies like Pakistan Vision 2025, Public Sector Development Plan (PSDP) and Annual Development Plan (ADP). Key targeted activities under this output are:

1.1. Key Performance Indicators (KPIs): As a first step of developing a robust Results Based Management (RBM) system, a set of key performance indicators will be prepared for the Vision 2025 and the 11th Five Year Plan. Based on the interest of the province, KPIs could also be developed for the provincial and any district development strategies. Key staff and policy makers will be trained on KPIs / dashboard and its use.

1.2. Coordination between national and provincial development strategies: In the post 18th Amendment, it is important to the provinces are geared towards province specific planning and implementation. The vision 2025 and the Five Year Plan set development objective for the entire country. It is important to ensure synergies and complementarities between Federal plans and those at the provincial level. In addition, it is important that federal and provincial plans and budgets are in line with the targets and objectives of federal and provincial plans. It is, therefore, important to develop tools and instruments which: 1) link the planning and budget processes; 2) synergize the planning processes and targets at federal and provincial levels.

1.3. On line Dashboard: This Results and Resources Framework for vision 2025 will be supported by an integrated on-line dashboard as a system of results oriented management and governance at federal and provincial levels. A number of countries have developed such systems of online results monitoring. Therefore, the national staff and policy makers will be encouraged and supported to learn from the international experiences through learning visits and other modes of exchange of ideas.

The concerned government officials will be trained in results-based project management. The senior government officials (Federal Secretaries) would also be provided training opportunities through renowned national/international experts, in results based management and key performance indicators to assess the effectiveness of both staff and development interventions.

Output 2: Civil service and Public Administration reforms with distinct accountability and transparency mechanism promoted and piloted.

Civil service and administrative reforms have remained a topic for heated discussions in Pakistan for quite some time now. There have been efforts in the past to introduce reforms in the civil service with the objective to improve performance and effectiveness of service delivery. Under this output, an account of what has been done for far and a brief diagnosis of what worked and what didn't would provide the starting point for different activities under this output. Other activities will include the following.

2.1. Institutional Reform Group (IRG): The Planning Ministry has constituted an Institutional Reform Group (IRG) comprising of eminent experts from public sector, academia, political parties etc to provide advice and recommendations for civil service and administrative reforms. The project will facilitate the work of this Group. An effort will be made to consolidate and analyse on-going and previous civil service and other governance reforms related initiatives. The IRG will also be facilitated to collaborate with other key stakeholders including civil society representatives, academia and civil administrators in order to build a consensus on the agenda of civil service reforms. Citizen engagement will be enhanced to improve service delivery and effectiveness through technology driven solution.

2.2. Social Innovation Fund for Public Sector: The project will promote social innovation for improved access to and delivery of services, outreach and quality in the public sector institutions. An innovation fund will be established to enable out of box, cost effective and inclusive interventions with the objective to improve public administration and accelerate progress towards the different goals of the Vision 2025. Proposals for innovative projects from across the country would be solicited and then promising and doable projects would be funded.

2.3. Performance incentive for Governance and Reform: To motivate and encourage high performance, a system of Annual Excellence Award in governance will be introduced. The awards will be given to government officials based on a transparent system for performance evaluation geared towards results. The Award will range between Rs. 0.5 million to Rs. 1.00 million for officers and Rs. 0.10 million to Rs. 0.50 million for other staff.

Output 3: Improved poverty measurement and effective implementation and monitoring of MDGs/ post 2015 development agenda

3.1: MDGs Monitoring, Reporting, Post 2015 Agenda: UNDP will continue providing support for MDG monitoring and the prioritization of Pakistan specific post 2015 development agenda. This may include the establishment of a national database on MDGs and the National / Sub National MDG Reports in partnership with the provinces. To discuss lessons learnt from the MDG framework, national dialogues and seminars will be organized. The final MDG Progress Report will be launched in 2015. Under this output, Research studies will be undertaken on lessons learnt from MDG Framework and experiences of other countries to inform interventions for MDGs / social development objectives and the post 2015 development agenda.

3.2: Poverty Measurement and Tracking: UNDP has also provided in the past support to the Planning Commission for poverty measurement. Such support will be continued under this project. UNDP and the Planning Ministry would jointly organize a series of experts' group workshop / seminars on different methodologies in use for poverty measurement in different countries. This support would also include capacity development of key officers of the Ministry of Planning, Development and Reforms, Provincial / Regional Planning and Development Departments and Statistics institutions on poverty measurement and allied skills including the Multidimensional Poverty Indices (MPI). The MPI, once prepared at the provincial and district levels, could be used for the distribution of resources in the National and Provincial Finance Commission Awards. MPI for national, Provincial and district level will be calculated and disseminated accordingly.

3.3: Social Sector Data: Data availability and reliability is one of the main issues to assess the level of progress on different development indicators especially at the district level. Therefore, assistance will also be provided to Pakistan Bureau of Statistics and the Provincial and Regional Statistic Departments to align its survey tools and procedures so that data on all key variables, including those used for consumption based poverty measurement and MPI, could be collected, analyzed and presented regularly.

3.4: MDG Acceleration Fund: To accelerate the progress against MDGs/ SDGs, MDG Acceleration Framework (MAF) Innovation Fund will be established for the implementation of MDGs innovative solutions at selected districts/ constituencies to expedite the progress against the target to be achieved by 2015 and beyond. The innovation fund will finance innovative proposals from the public, private institutions and civil society organizations. These may include developing area specific / district based social sector / MDGs dashboards, piloting accelerated solutions against selected / prioritized MDGs or social development objectives.

The innovation fund will support implementable proposals in different areas especially those identified through the MAF process. However, a few priority areas could include: addressing quality issues in education, enhancing mobility or accessibility of girls to primary schools particularly in rural areas, community mechanism to oversee the working of schools and teachers' attendance, creating community awareness, use of technology, enhancing monitoring and coordination systems etc.

Output 4: Ministry of Planning Development and Reforms positioned and strengthened as public sector think tank and interprovincial coordinator on development issues.

In the post 18th Amendment situation, the Planning Ministry has a lead role in providing technical advice to provinces and regions on development challenges. The Planning Ministry will need to reposition itself as a public sector think-tank and as a reference point for advice on international best practices on key development issues. Some of the key activities include:

4.1. South-South Learning: UNDP as knowledge broker will facilitate to make South-South and triangular cooperation in the area of results-based management for the implementation of development plans and frameworks, civil services reforms and progress on achieving MDGs and post 2015 development agenda. This aims at maximizing mutual benefits and lower economic and non-economic barriers to more transparent, efficient and effective exchange that engages both countries and non-state entities.

4.3. Triangular Partnerships: The project will help foster triangular cooperation between national and international think-tanks, academia UNDP and Planning Commission for learning/research and development. Such partnerships will help in sharing knowledge on policy and institutional issues, targeted thematic areas and will build skills of key staff.

III. RESULTS AND RESOURCES FRAMEWORK

Intended Outcome as stated in the Country Programme Results and Resource Framework:				
2.1. Creation of employment opportunities and decent work through industry, construction, services, vocational/skills training, agricultural and cultural development, as well as promoting youth employment and public-private partnerships				
Outcome indicators as stated in the Country Programme Results and Resources Framework, including baseline and targets: Indicator:				
Number of evidence-based policy reforms that promote inclusive growth; Baseline:				
Applicable Key Result Area (from Strategic Plan): Outcome 3: Countries have strengthened institutions to progressively deliver universal access to basic services				
Partnership Strategy:				
Project title and ID (ATLAS Award ID): Reforms and Innovation in Government for High Performance				
INTENDED OUTPUTS	OUTPUT TARGETS FOR (YEARS)	INDICATIVE ACTIVITIES	RESPONSIBLE PARTIES	INPUTS
Goal 1:				
Output 1: Results-based Management (RBM) compliant framework for Pakistan Vision 2025/ PSDP/ ADP put in place and operational. Indicators: 1. Extent to which robust Results and Resources framework with SMART KPIs developed for Vision 2025/ PSDP/ADP 2. Extent to which online dashboard for institutional performance and progress monitoring effectively developed and utilized	1.1. Key performance indicators (KPIs) developed for online dashboard to monitor and track progress towards national and sub-national development strategies.	1.1.1: Human resources and necessary infrastructure to establish the Delivery Unit	UNDP	<ul style="list-style-type: none"> • Project Personnel: <ul style="list-style-type: none"> - Senior Advisor- RBM - Data Analyst -MIS Specialist • MoUs/ LOAs with Planning commission and provinces • National and International Consultant • Learning visits • Workshops & visits to
		1.1.2: Baseline analysis and data collection (if not available) for developing KPIs and results framework including development of yearly targets 1.1.3: Review of different successful models of online dashboards, globally.		

<p>3. Extent to which synergy between Government departments at national and sub-national levels effectively enhanced</p> <p>4. Extent to which the capacity development initiatives has resulted in better planning and service delivery</p> <p>5. Percent increase in the level of satisfaction of end users in the quality and outreach of selected public sector services</p>		<p>1.2: RBM/ KPI training modules developed and requisite staff trained in using RBM</p>	<p>1.2.1. IV. INDICATIVE PROJECT BUDGET:

INTENDED OUTPUTS	OUTPUT TARGETS FOR (YEARS)	INDICATIVE ACTIVITIES	Inputs	Budget (USD)				
				2015	2016	2017	2018	Total
Output 1: Results-based Management system for Pakistan Vision 2025/ PSDP/ ADP put in place and operational.	1.1. Key performance indicators (KPIs) developed for online dashboard monitoring national and sub-national level development plans for an integrated RBM compliant Results and Resources Framework (RRF).	1.1.1: Human resources and necessary infrastructure to establish the Delivery Unit	International consultant	20,000	50,000	300,000		370,000
		1.1.2: Baseline analysis and data collection (if not available) for developing KPIs and results framework including development of yearly targets		20,000	50,000	50,000	50,000	170,000
		1.1.3: Review of online dashboards / Delivery Units in South Asia and outside		0	20,000	20,000	20,000	60,000
	1.2: RBM/ KPI training modules developed and requisite staff trained in using RBM	1.2.1. Training modules developed for civil servants for the selected training programme.	National Travel Experts	10,000	55,000	30,000	60,000	155,000
		1.2.2. national and international trainings on RBM/ KPIs		10,000	50,000	50,000	50,000	160,000
	1.3. National and provincial development strategies, plans and budget aligned	1.3.1. Prioritization of sectors and functions (Police, Judiciary, administration and other municipal functions)		20,000	50,000	50,000	50,000	170,000

	for integrated results.	1.3.2. Joint strategic planning framework developed with the provinces for implementation.	20,000	50,000	50,000	50,000	170,000
		1.3.3. Consultative stakeholder workshop held with provinces to gather inputs for developing mechanism and platform for interprovincial coordination	20,000	30,000	30,000	30,000	110,000
		1.3.4 Coordination and monitoring mechanism in place between federal and provincial for joint progress monitoring.	0	20,000	20,000	20,000	60,000
		1.3.5. Review of national/ international best practices to inform for interprovincial coordination mechanism	199,000	98,000	50,000	20,000	367,000
	1.4. Incentive-based grants mechanism for provinces introduced to enhance federal-Provincial collaboration on implementation	1.4.1. Innovation Fund for incentive-based grants for provinces and districts for introducing innovation in public sector service delivery at national and sub-national level.	150,000	350,000	20,000	228,000	748,000
		1.4.2. International knowledge sharing event on innovation for social development	0	30,000	400,000	30,000	460,000
		Sub-total-1	469,000	853,000	1,070,000	608,000	3,000,000

Output 2: Civil service and Public Administration reforms with distinct accountability and transparency mechanism promoted and piloted	2.1. Joint framework for key reform areas developed and agreed with the provinces	2.1.1: Consultative process involving key stakeholders including civil society representatives in order to build a consensus on the agenda of civil service reforms.	20,000	20,000	20,000	20,000	80,000
			10,000	10,000	10,000	0	30,000
			10,000	10,000	10,000	10,000	40,000
	2.2. Recommendations for reforms in key areas (Judiciary, police and administration & citizens friendly services) are adopted and implemented	2.1.3: Prioritization of sectors identified for implementation 2.2.1. Provide technical assistance to develop guidelines, rules and regulations for Public Safety service delivery at the National, Provincial, and District levels	0	100,000	125,000	200,000	425,000
			0	200,000	100,000	100,000	400,000
			0	200,000	100,000	100,000	400,000

	2.3. Innovation fund for citizen friendly services (civil defence, pedestrian protection, hawkers market, traffic furniture, cycle tracks, garbage disposal and others) to incentivize public convenience and public confidence building	2.3.1. Concept note prepared and approved and call for proposals launched for federal, provincial and districts government for implementation of public service delivery initiatives.		100,000	238,000	200,000	500,000	1,038,000

V. MANAGEMENT ARRANGEMENTS

The programme will be executed through Direct Implementation Modality (DIM) by UNDP CO in close coordination with Ministry of Planning Development and Reforms. The management arrangements of the programme are structured to enable autonomous implementation of programme outputs, with coordinated reporting. UNDP will be responsible for all project contracting, procurement and recruitment, to support Government in implementing this programme of work.

A Project Board (PB) will be set up to provide overall direction and strategic guidance to the programme. The PB will be responsible for making by consensus, management decisions for the programme and holding periodic reviews. The PB will be co-chaired by UNDP and Ministry of Planning Development and Reforms. The other members will include EAD, donors, Provincial Representatives, Pakistan Bureau of Statistics etc.

The Project Board (PB) meeting will be convened at least twice a year, at the beginning of each year to approve the annual work plan and review progress of the preceding year and a mid-year for current year progress review. Any additional meetings of the PB could be convened, if required.

Programme Management Unit: The PMU will have three core functions:

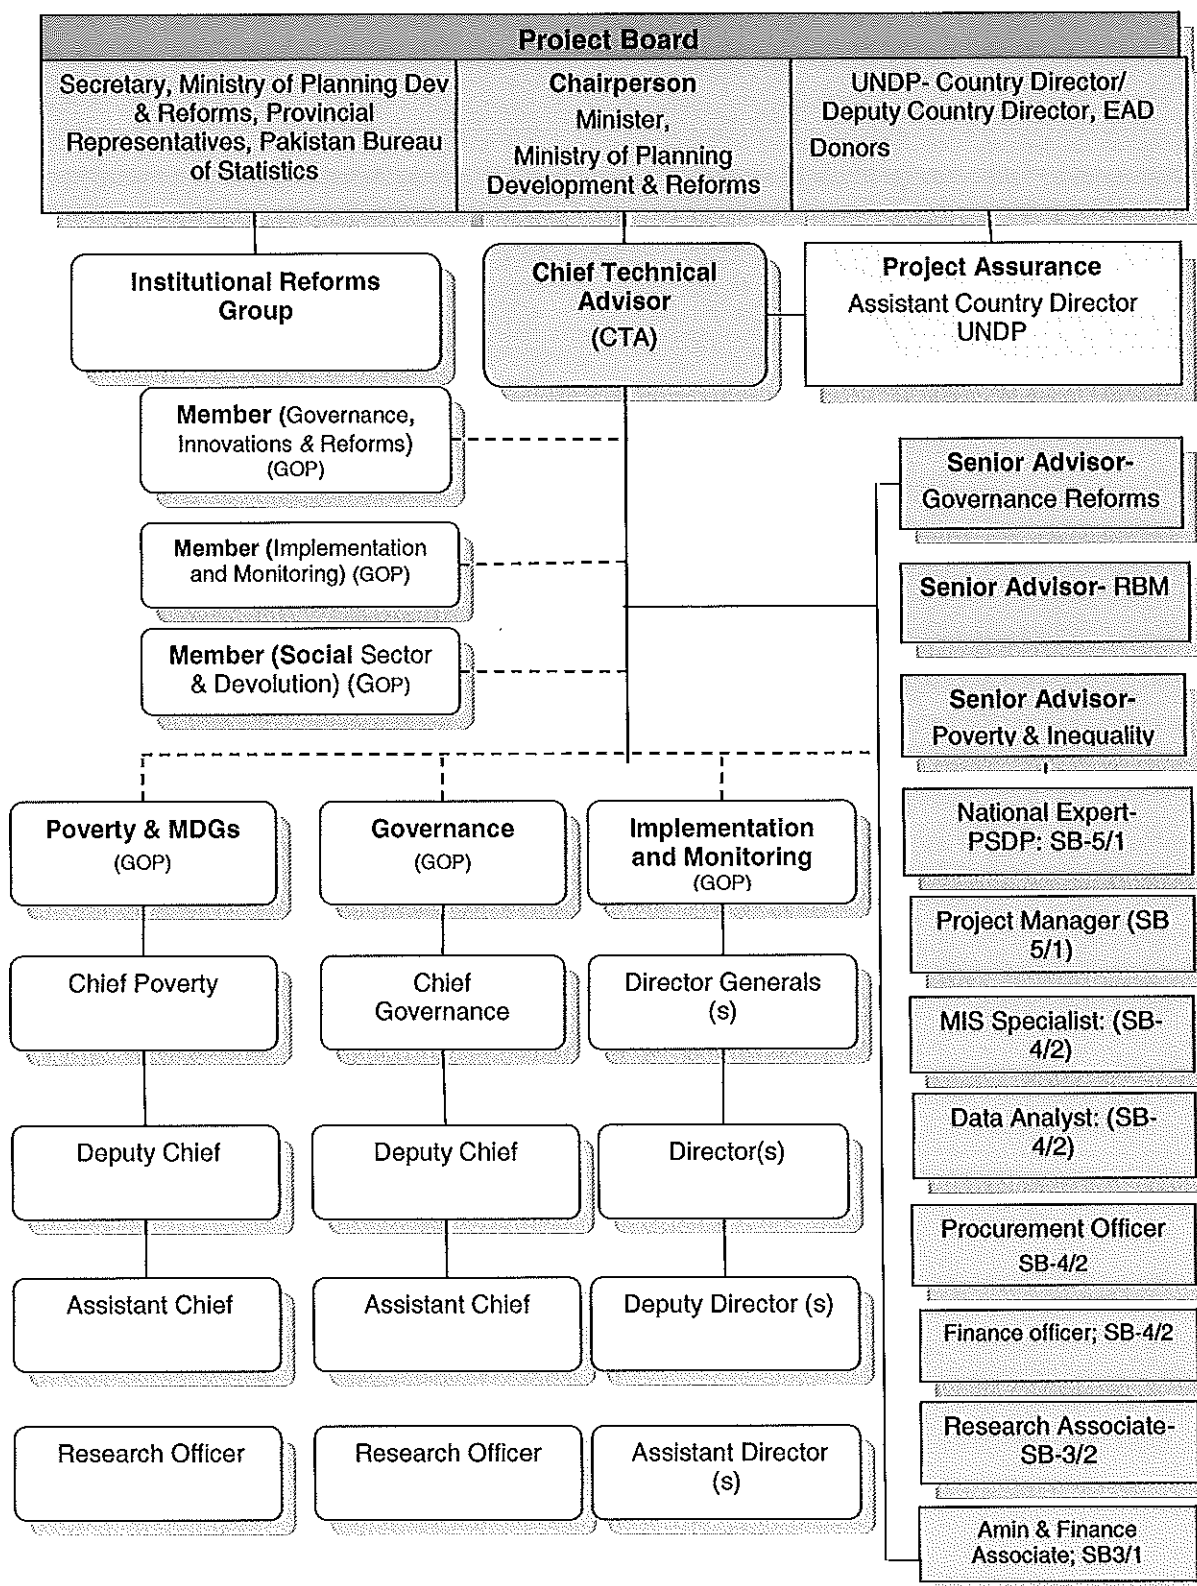

1. Implementation of outputs and approved in the project Annual Work plan (AWP)
2. Management and implementation of each of the project output. It will be responsible for results based management and reporting of the Programme. It will provide a clearing house mechanism for information, communication, monitoring and evaluation, and policy and action research. The PMU will coordinate with the implementing partners and consolidate the Annual Work Plan, budget and subsequent reporting and submit to the PRB for approval.
3. The PMU will serve as the secretariat to the PB and as such the convenor of the relevant stakeholders consultations.

The Programme Management Unit (PMU) will be headed by the Chief Technical advisor (CTA). The Chief Technical Advisor will be coordinating closely with the technical team will include senior advisors (Governance Reforms, RBM and Poverty and Inequality) and a Research Associate.

In addition, the Project Manager will be responsible for day-to-day management, monitoring and review of project activities; coordination with implementing partners and different stakeholders. The PM will be assisted by a Finance Officer, Procurement Officer, Admin and Finance Associate;

Project Assurance: Project Assurance will be the responsibility of UNDP Pakistan. The task of assurance, includes following up on management actions, keeping track of progress benchmarks, visiting project sites to contact beneficiaries, interpreting progress and technical reports, processing budget revisions, and making arrangements for evaluation and audit. Where applicable, UNDP Country Office will be responsible for managing and reporting on cost-sharing agreements.

Project Organogram:

Collaborative arrangements with related projects (if any)

Collaboration with similar on-going initiatives by other development partners can be explored to build complementarities. The major interventions among these are:

- DFID Sub-National Governance (SNG) programme WHICH aims to support the provincial and district Governments of Khyber Pakhtunkhwa and Punjab to improve public services that meet the needs of the citizens, especially the poor including women and girls.
- World Bank project on Punjab Cities Governance Improvement to support the province of Punjab's cities in strengthening systems for improved planning, resource management, and accountability, and to improve the province of Punjab's capacity to respond promptly and effectively to an eligible crisis or emergency. The themes for the project include: municipal finance, urban planning, e-governance, municipal governance and institution building.
- USAID Municipal Service Delivery Project in Sindh and KPK for the development of municipal infrastructure in various towns of the Province.
- World Bank Governance Support Project in Balochistan

Audit arrangements:

Audits will be conducted following UNDP Financial Regulations and Rules and related audit policies.

The audit of DIM projects is made through the UNDP's Office of Audit and Investigation - (OAI). It shall conduct independent, objective assurance and advisory activities in conformity with the International Standards for the Professional Practice of Internal Auditing. Resident Representatives may request OAI to undertake audits of DIM projects as an exception

VI. MONITORING FRAMEWORK AND EVALUATION

In accordance with the programming policies and procedures outlined in the UNDP POPP, the project will be monitored through the following:

Within the annual cycle

- On a quarterly basis, a quality assessment shall record progress towards the completion of key results, based on quality criteria and methods captured in the Quality Management table below.
- An Issue Log shall be activated in Atlas and updated by the Project Manager to facilitate tracking and resolution of potential problems or requests for change.
- Based on the initial risk analysis submitted (see annex 1), a risk log shall be activated in Atlas and regularly updated by reviewing the external environment that may affect the project implementation.
- Based on the above information recorded in Atlas, a Project Progress Reports (PPR) shall be submitted by the Project Manager to the Project Board through Project Assurance, using the standard report format available in the Executive Snapshot.
- a project Lesson-learned log shall be activated and regularly updated to ensure on-going learning and adaptation within the organization, and to facilitate the preparation of the Lessons-learned Report at the end of the project
- a Monitoring Schedule Plan shall be activated in Atlas and updated to track key management actions/events

Annually

- **Annual Review Report.** An Annual Review Report shall be prepared by the Project Manager and shared with the Project Board and the Outcome Board. As minimum requirement, the Annual Review Report shall consist of the Atlas standard format for the QPR covering the whole year with updated information for each above element of the QPR as well as a summary of results achieved against pre-defined annual targets at the output level.
- **Annual Project Review.** Based on the above report, an annual project review shall be conducted during the fourth quarter of the year or soon after, to assess the performance of the project and appraise the Annual Work Plan (AWP) for the following year. In the last year, this review will be a final assessment. This review is driven by the Project Board and may involve other stakeholders as required. It shall focus on the extent to which progress is being made towards outputs, and that these remain aligned to appropriate outcomes.

In case a project evaluation is required, please indicate the justification and proposed timing for the evaluation. A project evaluation is required only when mandated by partnership protocols such as GEF. However, a project evaluation may be required due to the complexity or innovative aspects of the project.

VII. LEGAL CONTEXT

If the country has signed the Standard Basic Assistance Agreement (SBAA), the following standard text must be quoted:

This project document shall be the instrument referred to as such in Article 1 of the SBAA between the Government of (country) and UNDP, signed on (date).

Consistent with the Article III of the Standard Basic Assistance Agreement, the responsibility for the safety and security of the executing agency and its personnel and property, and of UNDP's property in the executing agency's custody, rests with the executing agency.

The executing agency shall:

- a) put in place an appropriate security plan and maintain the security plan, taking into account the security situation in the country where the project is being carried;
- b) Assume all risks and liabilities related to the executing agency's security, and the full implementation of the security plan.

UNDP reserves the right to verify whether such a plan is in place, and to suggest modifications to the plan when necessary. Failure to maintain and implement an appropriate security plan as required hereunder shall be deemed a breach of this agreement.

The executing agency agrees to undertake all reasonable efforts to ensure that none of the UNDP funds received pursuant to the Project Document are used to provide support to individuals or entities associated with terrorism and that the recipients of any amounts provided by UNDP hereunder do not appear on the list maintained by the Security Council Committee established pursuant to resolution 1267 (1999). The list can be accessed via <http://www.un.org/Docs/sc/committees/1267/1267ListEng.htm>. This provision must be included in all sub-contracts or sub-agreements entered into under this Project Document.

Terms of Reference for Key Project Positions:**1. Post Title: Chief Technical Advisor****Duty Station:** Islamabad**Salary band:** SB-5/3**Duties and Responsibilities:**

Working under the overall guidance of the Project Board and direct supervision of the UNDP Assistant Country Director and day to day collaboration with the Ministry of Planning development and reforms, the CTA will undertake the following primary tasks:
