**Attachments:** Final Draft\_PMR\_Donor Final Report May2022\_TD.docx

Hi Rara,

This is to confirm the financial report of the project so that UNDP may proceed with the next steps for returning the outstanding balance. On the final draft report, I have a couple of minor comments but otherwise it looks fine.

Thank you,

Timila

Dear Timila,

Hope this email finds you well.

We have just received final statement of Revenue and Expenditures for PMR Indonesia project, consolidated from for 11 November 2016 - 28 February 2021.

As you can see, there is a **remaining balance of USD 18,987.83**.

Kindly advise whether the remaining balance should be returned to the World Bank or can it be used by UNDP for supporting UNDP's ongoing carbon pricing related activities (reprogrammed by UNDP).

Also, for your feedback, attached is final draft of PMR project report. Appreciate if you could provide feedback before we finalize it along with final statement of Revenue and Expenditures under Financial Report.

Best regards,  
Rara

Dear Rara and Andi,

Many thanks. Noted, on the draft report. We will look forward to the final version.

Rara – I will come back to you on a couple of administrative details on closing on the program.

Thank you,

Timila

Dear Timila,

Indeed it has been a very good collaboration. Thank you for your endless supports 😊  
From UNDP side, we are preparing the Final Report to be submitted to the WB including the financial report.

Many thanks,  
Rara

**Subject:** RE: PMR Indonesia

Dear Timila,

Thank you very much for your kind support during our journey of market readiness, hopefully we can cooperate again during the implementation journey.

Herewith I attached the presentation and final draft of white paper.

For the financial part on the presentation, please note that it is based on financial report per December 2020 so there might be slight changes later on.

For the white paper on general framework of carbon pricing, this is the final draft with executive summary added to the draft I sent you in 22 Feb. Kindly note that even though the paper is used to support the presidential regulation development, the Ministry of Environment and Forestry decided not to publish this paper in this stage as they are planning to add more information, e.g. carbon market potential size, to the paper. So please treat it as confidential document for internal use and not for any kind of citation.

Best regards,  
Andi

Dear Rara, Andi and Unggung,

Thanks for this closing meeting and the excellent presentation. This was a great collaboration. May I ask if you can share with us the presentation and the final draft of the paper?

Best,

Timila
