1. Project Implementation Status and Key Results

Implementation Status Summary at Outcome level

- Background and objective of the civil servants' Performance Appraisal system was considered at 2 technical meetings of the Task Force Committee on drafting Civil servant performance appraisal system linked to district targets. The first draft of decree on Civil servant performance appraisal system was completed and discussed with organization concerned and agreed on the structure and outline.
- Training on DDF-BBG guidelines was organized for district and provincial officials (DDSTs/DDSCs/PST) of 6 selected districts of 3 provinces i.e. Xiengkhouang, Houaphan and Oudomxai. This special cycle of DDF allocation FY2015-2016 will provide an opportunity to run DDF in 6 good-performance district authorities that are also implementing Sam Sang policy. Valuable lessons are expected to be gained that will help inform on the potential and challenges of joint implementation / co-funding. The findings will be used to guide new phase of support to DDF and NGPAR from 2016 to 2020.
- As part of the process to examine the feasibility of creating a new One Door Service Centre (ODSC) district staff responsible for ODSC in Huaphan province analysed and frankly discussed progress and difficulties of previous ODSC implementation in the province. Concepts and lessons on effective operating ODSC from neighboring countries were also shared. This will be further informed by the upcoming ODSC assessment and recommendations mission, led by an international consultant, currently being procured by UNDP on MoHA's behalf.
- GPAR CADEM Technical team conducted the monitoring mission for 9 projects, out of total 13 project granted year 2015. Those projects were able to conduct their activities and use the budget as planned in the project proposals (outreach the service to local level). The recommendations from the field monitoring were reflected in the CADEM Fund implementation guidelines for year 2016.
- The CADEM Fund implementation guidelines and the announcement for project proposal of GPAR CADEM Fund 2016 sent and the closing date is on 15 August 2015.
- Citizen engagement with district administration as providers of local services in a responsive and accountable way has been advanced following the first district citizens survey in 2 districts. The Service Users Feedback System (SUFS), which was designed with SCSD support, is intended to become an accepted mechanism and regular practice to gauge peoples' perception of local services. SUFS will be taken

up and further developed within the new support to NGPAR programme, which is currently being designed. In future the results of SUFS could be shared with the new Local Provincial Assembly in due course. The results of the SUFS Survey are now being collated and analysed with support of technical team and the outcome will be share with stakeholders.

Formal Collaboration with other projects

The Ministry of Natural Resources and Environment (MONRE), with the support of the GEF LDCF2 project, is collaborating with UNDP/UNCDF in a project entitled “Effective Governance for small-scale rural infrastructure and disaster preparedness in a changing climate”. The overall objective of the project is to improve local administrative systems affecting the provision and maintenance of small scale rural infrastructure, through participatory decision making that reflects the genuine needs of communities and natural systems vulnerable to climate risk. As part of its implementation arrangements, the project is using the existing District Development Fund (DDF) operating under SCSD project to deliver local climate change adaptation infrastructures in Saravane and Sekong provinces. The DDF system is delivering \$152,052 of CR grants for 4 district projects for FY 2014/15, which LDCF2 and MONRE have identified together with local District Development Support Teams.
