

Social and Environmental Screening

Project Information

Project Information
1. Project Title
2. Project Number
3. Location (Global/Region/Country)

Part A. Integrating Overarching Principles to Strengthen Social and Environmental Sustainability

QUESTION 1: How Does the Project Integrate the Overarching Principles in order to Strengthen Social and Environmental Sustainability?

Briefly describe in the space below how the Project mainstreams the human-rights based approach

The project aims at increasing access to justice for all through the delivery of village mediation and paralegal services. In Malawi access to justice is limited to the urban rich due to infrastructural and economic problems. The project seeks to reach the poor who are left behind.

Briefly describe in the space below how the Project is likely to improve gender equality and women's empowerment

Most of the victims of crime such as gender based violence are women and children. The access to justice interventions are therefore targeting these vulnerable groups. Justice ensures that all individuals get equal opportunities to resources for development.

Briefly describe in the space below how the Project mainstreams environmental sustainability

Though the project does not exclusively mention environmental issues, the interventions to ensure justice amongst communities themselves are uniting in nature such that other interventions will find fertile ground for implementation. Sensitisation on rights issues also boost the potential of the communities to stand firm against exploitative behavior on issues like environment. It encourages responsibility.

Part B. Identifying and Managing Social and Environmental Risks

<p>QUESTION 2: What are the Potential Social and Environmental Risks?</p> <p>Note: Describe briefly potential social and environmental risks identified in Attachment 1 – Risk Screening Checklist (based on any “Yes” responses). If no risks have been identified in Attachment 1 then note “No Risks Identified” and skip to Question 4 and Select “Low Risk”. Questions 5 and 6 not required for Low Risk Projects.</p>											
<p>Risk Description</p> <p>Risk 1:No Risks Identified</p> <p>Risk 2</p> <p>Risk 3:</p> <p>Risk 4:</p> <p>[add additional rows as needed]</p>	<p>Impact and Probability (1-5)</p> <p>I = P =</p> <p>I = P =</p> <p>I = P =</p> <p>I = P =</p>	<p>Significance (Low, Moderate, High)</p>	<p>Comments</p>								
<p>QUESTION 3: What is the level of significance of the potential social and environmental risks?</p> <p>Note: Respond to Questions 4 and 5 below before proceeding to Question 6</p>											
<p>QUESTION 4: What is the overall Project risk categorization?</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 33%; text-align: center; padding: 5px;"> <p>Select one (see SESP for guidance)</p> </td> <td style="width: 33%; text-align: center; padding: 5px;"> <p>Comments</p> </td> </tr> <tr> <td style="text-align: center; padding: 5px;"> <p>Low Risk</p> </td> <td style="text-align: center; padding: 5px;"> <input checked="" type="checkbox"/> </td> </tr> <tr> <td style="text-align: center; padding: 5px;"> <p>Moderate Risk</p> </td> <td style="text-align: center; padding: 5px;"> <input type="checkbox"/> </td> </tr> <tr> <td style="text-align: center; padding: 5px;"> <p>High Risk</p> </td> <td style="text-align: center; padding: 5px;"> <input type="checkbox"/> </td> </tr> </table>				<p>Select one (see SESP for guidance)</p>	<p>Comments</p>	<p>Low Risk</p>	<input checked="" type="checkbox"/>	<p>Moderate Risk</p>	<input type="checkbox"/>	<p>High Risk</p>	<input type="checkbox"/>
<p>Select one (see SESP for guidance)</p>	<p>Comments</p>										
<p>Low Risk</p>	<input checked="" type="checkbox"/>										
<p>Moderate Risk</p>	<input type="checkbox"/>										
<p>High Risk</p>	<input type="checkbox"/>										
<p>QUESTION 5: Based on the identified risks and risk categorization, what requirements of the SES are relevant?</p>											
<p>Check all that apply</p>		<p>Comments</p>									
<p>Principle 1: Human Rights</p>	<p><input checked="" type="checkbox"/> Human Rights awareness is part of the interventions to fight existing vices</p>										

Principle 2: Gender Equality and Women's Empowerment	<input checked="" type="checkbox"/>	This is still required as the society needs more women empowerment programmes
1. Biodiversity Conservation and Natural Resource Management	<input type="checkbox"/>	
2. Climate Change Mitigation and Adaptation	<input type="checkbox"/>	
3. Community Health, Safety and Working Conditions	<input type="checkbox"/>	
4. Cultural Heritage	<input type="checkbox"/>	
5. Displacement and Resettlement	<input type="checkbox"/>	
6. Indigenous Peoples	<input type="checkbox"/>	
7. Pollution Prevention and Resource Efficiency	<input type="checkbox"/>

Checklist Potential Social and Environmental Risks	
Principles 1: Human Rights Answer (Yes/No)	1. Could the Project lead to adverse impacts on enjoyment of the human rights (civil, political, economic, social or cultural) of the affected population and particularly of marginalized groups? 2. Is there a likelihood that the Project would have iniquitable or discriminatory adverse impacts on affected populations, particularly people living in poverty or marginalized individuals or groups? 3. Could the Project potentially restrict availability, quality of and access to resources or basic services, in particular to marginalized individuals or groups? 4. Is there a risk that duty-bearers do not have the capacity to meet their obligations in the Project? 5. Is there a risk that rights-holders do not have the capacity to claim their rights? 6. Have local communities or individuals, given the opportunity, raised human rights concerns regarding the Project during the stakeholder engagement process? 7. Is there a risk that the Project would exacerbate conflicts among and/or the risk of violence to project-affected communities and individuals? 8. Would the Project potentially reproduce discriminations against women based on gender, especially regarding participation in design and implementation or access to opportunities and benefits? 1. Is there a likelihood that the proposed Project would have adverse impacts on gender equality and/or the situation of women and girls? 2. Would the Project potentially limit women's ability to use, develop and protect natural resources, taking into account different roles and positions of women and men in accessing environmental goods and services? 3. For example, activities that could lead to natural resources degradation or depletion in communities who depend on these resources for their livelihoods and well-being 6. Principle 3: Environmental Sustainability: Screening questions regarding environmental risks are encompassed by the specific Standard-related questions below
Standard 1: Biodiversity Conservation and Sustainable Natural Resource Management	
No	1.1 Would the Project potentially cause adverse impacts to habitats (e.g. modified, natural, and critical habitats) and/or ecosystems and ecosystem services?

2. Prohibited grounds of discrimination include race, ethnicity, gender, age, language, disability, sexual orientation, religion, political or other opinion, national or social or geographical origin, property, birth or other status including as transgender people and transsexuals.
 include women and men, boys and girls, and other groups discriminated against based on their gender identities, such an individual or a member of a minority. References to "women and men" or similar is understood to refer to religious person or as a member of a minority. Birth or other other status including

		For example, through habitat loss, conversion or degradation, fragmentation, hydrological changes
1.2	No	Are any Project activities proposed within or adjacent to critical habitats and/or environmentally sensitive areas, including legally protected areas (e.g. nature reserve, national park), areas proposed for protection, or recognized as such by authorities sources and/or indigenous peoples or local communities?
1.3	No	Does the Project involve changes to the use of lands and resources that may have adverse impacts on habitats, ecosystems, and/or livelihoods? (Note: if restrictions and/or limitations of access to lands would apply, refer to Standard 5)
1.4	No	Would Project activities pose a risk of introducing invasive alien species?
1.5	No	Does the Project involve harvesting of natural forests, plantation development, or reforestation?
1.6	No	Does the Project involve harvesting of alien species?
1.7	No	Does the Project involve the production and/or harvesting of fish populations or other aquatic species?
1.8	No	Does the Project involve significant extraction, diversion or contamination of surface or ground water?
1.9	No	Does the Project involve utilization of genetic resources? (e.g. collection and/or harvesting, commercial development)
1.10	No	Would the Project generate potential adverse transboundary or global environmental concerns?
1.11	No	Would the Project result in secondary or consequential development activities which could lead to adverse social and environmental effects, or would it generate cumulative impacts with other known existing or planned activities in the area?
2.1	No	Will the proposed Project result in significant greenhouse gas emissions or may exacerbate climate change?
2.2	No	Would the potential outcomes of the Project be sensitive or vulnerable to potential impacts of climate change?
2.3	No	Is the proposed Project likely to directly or indirectly increase social and environmental vulnerability to climate change now or in the future (also known as maladaptive vulnerability to climate change)?
3.1	No	Would elements of Project construction, operation, or decommissioning pose potential safety risks to local communities?
3.2	No	Would the Project pose potential risks to community health and safety due to the transport, storage, and use and/or disposal of hazardous materials (e.g. explosives, fuel and other chemicals during construction and operation)?
Standard 3: Community Health, Safety and Working Conditions		
3.1	No	Would elements of Project construction, operation, or decommissioning pose potential safety risks to local communities?
3.2	No	Would the Project pose potential risks to community health and safety due to the transport, storage, and use and/or disposal of hazardous materials (e.g. explosives, fuel and other chemicals during construction and operation)?
Information on GHG emissions		
2 In regards to CO ₂ , significant emissions, corresponds generally to more than 25,000 tons per year (from both direct and indirect sources). The Guidance Note on Climate Change Mitigation and Adaptation provides additional information on GHG emissions.]		

residence, or location without the provision of, and access to, appropriate forms of legal or other protections. groups, or communities from homes and/or lands and common property resources that were occupied or depended upon, thus eliminating the ability of an individual, group, or community to reside or work in a particular dwelling. 3. Forced evictions include acts and/or omissions involving the coerced or involuntary displacement of individuals.

		severe and/or critical and the Project would be categorized as either Moderate or High Risk.
		If the answer to the screening question 6.3 is "yes" the potential risk impacts are considered potentially severity in question?
6.3	No	Would the proposed Project potentially affect the human rights, lands, natural resources, territories, and traditional livelihoods of indigenous peoples (regardless of whether indigenous peoples possess the legal titles to such areas, whether the Project is located within or outside of the lands and territories inhabited by the affected peoples), or whether the indigenous peoples are recognized as indigenous peoples by the countries to which they belong?
6.2	No	Is it likely that the Project or portions of the Project will be located on lands and territories claimed by indigenous peoples?
6.1	No	Are indigenous peoples present in the Project area (including Project area of influence)?
Standard 6: Indigenous Peoples		
5.4	No	Would the proposed Project possibly affect land tenure arrangements and/or community based property rights/customary rights to land, territories and/or resources?
5.3	No	Is there a risk that the Project would lead to forced evictions?
5.2	No	Would the Project possibly result in economic displacement (e.g., loss of assets or access to resources due to land acquisition or restrictions – even in the absence of physical relocation)?
5.1	No	Would the Project potentially involve temporary or permanent and full or partial physical displacement?
Standard 5: Displacement and Resettlement		
4.2	No	Does the Project propose utilizing tangible and/or intangible forms of cultural heritage for commercial or other purposes?
4.1	No	Will the proposed Project result in interventions that would potentially adversely impact sites, structures, knowledge, innovations, practices)? (Note: Projects intended to protect and conserve Cultural Heritage or objects with historical, cultural, artistic, traditional or religious values or intangible forms of culture (e.g. may also have inadvertent adverse impacts)
Standard 4: Cultural Heritage		
3.9	No	Does the Project engage security personnel that may pose a potential risk to health and safety of communities and/or individuals (e.g. due to a lack of adequate training or accountability)?
3.8	No	Does the Project involve support for employment of livelihoods that may fail to comply with national and international labor standards (i.e. principles and standards of ILO fundamental conventions)?
3.7	No	Does the Project pose potential risks and vulnerabilities related to occupational health and safety due to physical, biological, chemical, and radiological hazards during Project construction, operation, or decommissioning?
3.6	No	Would the Project result in potential increased health risks (e.g. from water-borne or other vector-borne diseases or communicable infections such as HIV/AIDS)?
3.5	No	Would the proposed Project be susceptible to or lead to increased vulnerability to earthquakes, subsidence, landslides, erosion, flooding or extreme climatic conditions?
3.4	No	Would failure of structural elements of the Project pose risks to communities (e.g. collapse of buildings or infrastructure)?
3.3	No	Does the Project involve large-scale infrastructure development (e.g. dams, roads, buildings)?

6.4	Has there been an absence of culturally appropriate consultations carried out with the objective of achieving FPLIC on matters that may affect the rights and interests, lands, resources, territories and traditional livelihoods of the indigenous peoples concerned?	No
6.5	Does the proposed Project involve the utilization and/or commercial development of natural resources on lands and territories claimed by indigenous peoples?	No
6.6	Is there a potential for forced eviction or the whole or partial physical or economic displacement of indigenous peoples, including through access to lands, territories, and resources?	No
6.7	Would the Project adversely affect the development priorities of indigenous peoples as defined by them?	No
6.8	Would the Project potentially affect the physical and cultural survival of indigenous peoples?	No
6.9	Would the Project potentially affect the Cultural Heritage of indigenous peoples, including through the commercialization or use of their traditional knowledge and practices?	No
7.1	Would the Project potentially result in the release of pollutants to the environment due to routine or non-routine circumstances with the potential for adverse local, regional, and/or transboundary impacts?	No
7.2	Would the proposed Project potentially result in the generation of waste (both hazardous and non-hazardous)?	No
7.3	Will the proposed Project potentially involve the manufacture, trade, release, and/or use of hazardous chemicals and/or materials? Does the Project propose use of chemicals or materials subject to international bans or phase-outs?	No
7.4	Will the proposed Project involve the application of pesticides that may have a negative effect on the environment or human health?	No
7.5	Does the Project include activities that require significant consumption of raw materials, energy, and/or water?	No

Standard 7: Pollution Prevention and Resource Efficiency
