Social and Environmental Screening Template

Project Information

| Pro | oject Information | |
|-----|----------------------------------|---|
| 1. | Project Title | LEAP Phase II – Lebanese Elections Assistance Project |
| 2. | Project Number | 00119194 |
| 3. | Location (Global/Region/Country) | Lebanon |

Part A. Integrating Overarching Principles to Strengthen Social and Environmental Sustainability

QUESTION 1: How Does the Project Integrate the Overarching Principles in order to Strengthen Social and Environmental Sustainability?

Briefly describe in the space below how the Project mainstreams the human-rights based approach

The project seeks to mainstream the human rights-based approach by a comprehensive and far-reaching component that aims at engaging different categories of the population, in an inclusive approach, through initiatives and activities based on engagement and participation in the political life. As it is designed, this component will utilize all the available resources and will leverage on the existing programs and projects working at central and regional level. The overall objective is to mobilize relevant categories of voters and citizens and engage in positive and constructive dialogues and debates on issues that concern the Lebanese society. Focus will be put on gender equality and women empowerment, youth engagement and awareness raising, protection and advocacy for affirmative actions towards vulnerable groups and persons with disabilities.

Briefly describe in the space below how the Project is likely to improve gender equality and women's empowerment

The project will improve gender equality and women's empowerment through increasing women's participation and representation in political life. In this context, the project will organize in partnership or through responsible party agreements, a series of workshops, info-sessions and round-tables on legal reform, gender equality and civil rights. In addition, cultural events will be supported leveraging cooperation and resources of partners in the civil society. Emphasis will be put on promoting and advocating for women empowerment and gender equality in the political participation and representation, and in elections. These activities intend to engage both women and men in training programs and activities at regional level, gender focused surveys and meetings with women council members, identification and formation of a caucus of women in politics with a special targeting of women at the municipal level, training programs at regional and local levels through town hall meetings, and testimonials from current women elected in the municipal councils and training high school students on gender roles.

Briefly describe in the space below how the Project mainstreams environmental sustainability

The project will mainstream environmental sustainability by assessing and studying possibilities to optimize the use of environmentally friendly materials in the procurement of project activities and electoral processes. Together with the electoral management bodies, the project will be reusing some of the materials that were procured for previous elections in order to maximize efficiency and reduce costs.

Part B. Identifying and Managing Social and Environmental $\underline{\text{Risks}}$

| QUESTION 2: What are the Potential Social and Environmental Risks? Note: Describe briefly potential social and environmental risks identified in Attachment 1 – Risk Screening Checklist (based on any "Yes" responses). If no risks have been identified in Attachment 1 then note "No Risks Identified" and skip to Question 4 and Select "Low Risk". Questions 5 and 6 not required for Low Risk Projects. | potential so | ocial and envir ad to Questions 4 | level of significance of the onmental risks? 4 and 5 below before proceed | | QUESTION 6: What social and environmental assessment and management measures have been conducted and/or are required to address potential risks (for Risks with Moderate and High Significance)? |
|---|------------------------------------|---|---|----------|--|
| Risk Description | Impact and Probability (1-5) | Significance (Low, Moderate, High) | Comments | | Description of assessment and management measures as reflected in the Project design. If ESIA or SESA is required note that the assessment should consider all potential impacts and risks. |
| Risk 1: Degradation of the security situation in Lebanon | I = 4 P = 2 | Low | The risk is categorized as political but would eventua impact the social setting of country | • | Political and security incidents can hinder the timely delivery of activities and actual electoral calendar |
| | QUESTION 4 | 4: What is the | overall Project risk catego | orizatio | on? |
| | | Select one (se | e <u>SESP</u> for guidance) | | Comments |
| | | | Low Risk | | |
| | | | Moderate Risk | | |
| | | | High Risk | | |
| | QUESTION ! | 5: Based on th | e identified risks and risk | | |
| | categorizati relevant? | ion, what requ | irements of the SES are | | |
| | | Check | all that apply | | Comments |
| | Principle 1: H | luman Rights | | | Project monitoring and feeding into principles of free, fair, representative/inclusive, and transparent elections |
| | Principle 2: G Empower | Gender Equality Trment | and Women's | | Project would be working with UN Women, CSOs, and national machinery to ensure proper representation and participation in electoral processes |

| Biodiversity Conservation and Natural Resource Management | |

| 6. Indigenous Peoples | |
| 7. Pollution Prevention and Resource Efficiency | |

Final Sign Off

| Signature | Date | Description |
|--------------------------------|----------------------|---|
| QA Assessor | December | UNDP staff member responsible for the Project, typically a UNDP Programme Officer. Final signature |
| | 30, 2019 | confirms they have "checked" to ensure that the SESP is adequately conducted. |
| Jhay land | | |
| Jihan Seoud | | |
| Programme Manager | | |
| QA Approver | December 30, 2019 | UNDP senior manager, typically the UNDP Deputy Country Director (DCD), Country Director (CD), Deputy Resident Representative (DRR), or Resident Representative (RR). The QA Approver cannot also be the QA Assessor. Final signature confirms they have "cleared" the SESP prior to submittal to the PAC. |
| Mohammed Salih | | |
| Deputy Resident Representative | | |
| PAC Chair | December 30, 2019 | UNDP chair of the PAC. In some cases PAC Chair may also be the QA Approver. Final signature confirms that the SESP was considered as part of the project appraisal and considered in recommendations of the PAC. |
| Mohammed Salih | | |
| Deputy Resident Representative | | |

SESP Attachment 1. Social and Environmental Risk Screening Checklist

| Chec | klist Potential Social and Environmental <u>Risks</u> | |
|----------------------------|--|--------------------|
| Principles 1: Human Rights | | Answer (Yes/No) |
| 1. | Could the Project lead to adverse impacts on enjoyment of the human rights (civil, political, economic, social or cultural) of the affected population and particularly of marginalized groups? | No |
| 2. | Is there a likelihood that the Project would have inequitable or discriminatory adverse impacts on affected populations, particularly people living in poverty or marginalized or excluded individuals or groups? 1 | No |
| 3. | Could the Project potentially restrict availability, quality of and access to resources or basic services, in particular to marginalized individuals or groups? | No |
| 4. | Is there a likelihood that the Project would exclude any potentially affected stakeholders, in particular marginalized groups, from fully participating in decisions that may affect them? | No |
| 5. | Are there measures or mechanisms in place to respond to local community grievances? | No |
| 6. | Is there a risk that duty-bearers do not have the capacity to meet their obligations in the Project? | No |
| 7. | Is there a risk that rights-holders do not have the capacity to claim their rights? | No |
| 8. | Have local communities or individuals, given the opportunity, raised human rights concerns regarding the Project during the stakeholder engagement process? | No |
| 9. | Is there a risk that the Project would exacerbate conflicts among and/or the risk of violence to project-affected communities and individuals? | No |
| Princ | iple 2: Gender Equality and Women's Empowerment | |
| 1. | Is there a likelihood that the proposed Project would have adverse impacts on gender equality and/or the situation of women and girls? | No |
| 2. | Would the Project potentially reproduce discriminations against women based on gender, especially regarding participation in design and implementation or access to opportunities and benefits? | No |
| 3. | Have women's groups/leaders raised gender equality concerns regarding the Project during the stakeholder engagement process and has this been included in the overall Project proposal and in the risk assessment? | No |
| 3. | Would the Project potentially limit women's ability to use, develop and protect natural resources, taking into account different roles and positions of women and men in accessing environmental goods and services? | No |
| | For example, activities that could lead to natural resources degradation or depletion in communities who depend on these resources for their livelihoods and well being | |
| | iple 3: Environmental Sustainability: Screening questions regarding environmental risks are encompassed by pecific Standard-related questions below | |
| tile 3 | Securic Standard-related questions below | |
| Stand | lard 1: Biodiversity Conservation and Sustainable Natural Resource Management | |

¹ Prohibited grounds of discrimination include race, ethnicity, gender, age, language, disability, sexual orientation, religion, political or other opinion, national or social or geographical origin, property, birth or other status including as an indigenous person or as a member of a minority. References to "women and men" or similar is understood to include women and men, boys and girls, and other groups discriminated against based on their gender identities, such as transgender people and transsexuals.

| 1.1 | Would the Project potentially cause adverse impacts to habitats (e.g. modified, natural, and critical habitats) and/or ecosystems and ecosystem services? For example, through habitat loss, conversion or degradation, fragmentation, hydrological changes | No |
|-------|---|----|
| 1.2 | Are any Project activities proposed within or adjacent to critical habitats and/or environmentally sensitive areas, including legally protected areas (e.g. nature reserve, national park), areas proposed for protection, or recognized as such by authoritative sources and/or indigenous peoples or local communities? | No |
| 1.3 | Does the Project involve changes to the use of lands and resources that may have adverse impacts on habitats, ecosystems, and/or livelihoods? (Note: if restrictions and/or limitations of access to lands would apply, refer to Standard 5) | No |
| 1.4 | Would Project activities pose risks to endangered species? | No |
| 1.5 | Would the Project pose a risk of introducing invasive alien species? | No |
| 1.6 | Does the Project involve harvesting of natural forests, plantation development, or reforestation? | No |
| 1.7 | Does the Project involve the production and/or harvesting of fish populations or other aquatic species? | No |
| 1.8 | Does the Project involve significant extraction, diversion or containment of surface or ground water? For example, construction of dams, reservoirs, river basin developments, groundwater extraction | No |
| 1.9 | Does the Project involve utilization of genetic resources? (e.g. collection and/or harvesting, commercial development) | No |
| 1.10 | Would the Project generate potential adverse transboundary or global environmental concerns? | No |
| 1.11 | Would the Project result in secondary or consequential development activities which could lead to adverse social and environmental effects, or would it generate cumulative impacts with other known existing or planned activities in the area? | |
| | For example, a new road through forested lands will generate direct environmental and social impacts (e.g. felling of trees, earthworks, potential relocation of inhabitants). The new road may also facilitate encroachment on lands by illegal settlers or generate unplanned commercial development along the route, potentially in sensitive areas. These are indirect, secondary, or induced impacts that need to be considered. Also, if similar developments in the same forested area are planned, then cumulative impacts of multiple activities (even if not part of the same Project) need to be considered. | No |
| Stand | ard 2: Climate Change Mitigation and Adaptation | |
| 2.1 | Will the proposed Project result in significant ² greenhouse gas emissions or may exacerbate climate change? | No |
| 2.2 | Would the potential outcomes of the Project be sensitive or vulnerable to potential impacts of climate change? | No |
| 2.3 | Is the proposed Project likely to directly or indirectly increase social and environmental vulnerability to climate change now or in the future (also known as maladaptive practices)? | No |
| | For example, changes to land use planning may encourage further development of floodplains, potentially increasing the population's vulnerability to climate change, specifically flooding | |
| Stand | ard 3: Community Health, Safety and Working Conditions | |
| 3.1 | Would elements of Project construction, operation, or decommissioning pose potential safety risks to local communities? | No |

² In regards to CO₂, 'significant emissions' corresponds generally to more than 25,000 tons per year (from both direct and indirect sources). [The Guidance Note on Climate Change Mitigation and Adaptation provides additional information on GHG emissions.]

| Would the Project pose potential risks to community health and safety due to the transport, storage, and use and/or disposal of hazardous or dangerous materials (e.g. explosives, fuel and other chemicals during construction and operation)? No | | | |
|---|-------|---|----|
| 3.4 Would failure of structural elements of the Project pose risks to communities? (e.g. collapse of buildings or infrastructure) 3.5 Would the proposed Project be susceptible to or lead to increased vulnerability to earthquakes, subsidence, landslides, erosion, flooding or extreme climatic conditions? 3.6 Would the Project result in potential increased health risks (e.g. from water-borne or other vector-borne diseases or communicable infections such as HIV/AIDS)? 3.7 Does the Project pose potential risks and vulnerabilities related to occupational health and safety due to physical, chemical, biological, and radiological hazards during Project construction, operation, or decommissioning? 3.8 Does the Project involve support for employment or livelihoods that may fail to comply with national and international labor standards (i.e. principles and standards of ILO fundamental conventions)? 3.9 Does the Project engage security personnel that may pose a potential risk to health and safety of communities and/or individuals (e.g. due to a lack of adequate training or accountability)? 3.9 Standard 4: Cultural Heritage 4.1 Will the proposed Project result in interventions that would potentially adversely impact sites, structures, or objects with historical, cultural, artistic, traditional or religious values or intangible forms of culture (e.g. knowledge, innovations, practices)? (Note: Projects intended to protect and conserve Cultural Heritage may also have inadvertent adverse impacts) 4.2 Does the Project propose utilizing tangible and/or intangible forms of cultural heritage for commercial or other purposes? 3.1 Would the Project possibly result in economic displacement (e.g. loss of assets or access to resources due to land acquisition or access restrictions – even in the absence of physical relocation)? 3.2 Would the Project possibly result in economic displacement (e.g. loss of assets or access to resources due to land acquisition or access restrictions – even in the absence of physical relocation)? 3. | 3.2 | use and/or disposal of hazardous or dangerous materials (e.g. explosives, fuel and other chemicals during | No |
| infrastructure) Would the proposed Project be susceptible to or lead to increased vulnerability to earthquakes, subsidence, landslides, erosion, flooding or extreme climatic conditions? 3.6 Would the Project result in potential increased health risks (e.g. from water-borne or other vector-borne diseases or communicable infections such as HIV/AIDS)? 3.7 Does the Project pose potential risks and vulnerabilities related to occupational health and safety due to physical, chemical, biological, and radiological hazards during Project construction, operation, or decommissioning? 3.8 Does the Project involve support for employment or livelihoods that may fail to comply with national and international labor standards (i.e. principles and standards of ILO fundamental conventions)? 3.9 Does the Project engage security personnel that may pose a potential risk to health and safety of communities and/or individuals (e.g. due to a lack of adequate training or accountability)? Standard 4: Cultural Heritage 4.1 Will the proposed Project result in interventions that would potentially adversely impact sites, structures, or objects with historical, cultural, artistic, traditional or religious values or intangible forms of culture (e.g. knowledge, innovations, practices)? (Note: Projects intended to protect and conserve Cultural Heritage may also have inadvertent adverse impacts) 4.2 Does the Project propose utilizing tangible and/or intangible forms of cultural heritage for commercial or other purposes? Standard 5: Displacement and Resettlement 5.1 Would the Project possibly result in economic displacement (e.g. loss of assets or access to resources due to land acquisition or access restrictions – even in the absence of physical relocation)? No 5.4 Would the Project possibly affect land tenure arrangements and/or community based property rights/customary rights to land, territories and/or resources? Standard 6: Indigenous peoples present in the Project area (including Project area of influence)? No indigenous peoples | 3.3 | Does the Project involve large-scale infrastructure development (e.g. dams, roads, buildings)? | No |
| subsidence, landslides, erosion, flooding or extreme climatic conditions? No Would the Project result in potential increased health risks (e.g. from water-borne or other vector-borne diseases or communicable infections such as HIV/AIDS)? Does the Project pose potential risks and vulnerabilities related to occupational health and safety due to physical, chemical, biological, and radiological hazards during Project construction, operation, or decommissioning? No Does the Project involve support for employment or livelihoods that may fail to comply with national and international labor standards (i.e. principles and standards of ILO fundamental conventions)? No Does the Project engage security personnel that may pose a potential risk to health and safety of communities and/or individuals (e.g. due to a lack of adequate training or accountability)? No additional description of individuals (e.g. due to a lack of adequate training or accountability)? Standard 4: Cultural Heritage 4.1 Will the proposed Project result in interventions that would potentially adversely impact sites, structures, or objects with historical, cultural, artistic, traditional or religious values or intangible forms of culture (e.g. knowledge, innovations, practices)? ³ Forced evictions include acts and/or omissions involving the coerced or involuntary displacement of individuals, groups, or communities from homes and/or lands and common property resources that were occupied or depended upon, thus eliminating the ability of an individual, group, or community to reside or work in a particular dwelling, residence, or location without the provision of, and access to, appropriate forms of legal or other protections.

| 6.4 | Has there been an absence of culturally appropriate consultations carried out with the objective of achieving FPIC on matters that may affect the rights and interests, lands, resources, territories and traditional livelihoods of the indigenous peoples concerned? | No |
|-------|--|----|
| 6.4 | Does the proposed Project involve the utilization and/or commercial development of natural resources on lands and territories claimed by indigenous peoples? | No |
| 6.5 | Is there a potential for forced eviction or the whole or partial physical or economic displacement of indigenous peoples, including through access restrictions to lands, territories, and resources? | No |
| 6.6 | Would the Project adversely affect the development priorities of indigenous peoples as defined by them? | No |
| 6.7 | Would the Project potentially affect the traditional livelihoods, physical and cultural survival of indigenous peoples? | No |
| 6.8 | Would the Project potentially affect the Cultural Heritage of indigenous peoples, including through the commercialization or use of their traditional knowledge and practices? | No |
| Stand | lard 7: Pollution Prevention and Resource Efficiency | |
| 7.1 | Would the Project potentially result in the release of pollutants to the environment due to routine or non-routine circumstances with the potential for adverse local, regional, and/or transboundary impacts? | No |
| 7.2 | Would the proposed Project potentially result in the generation of waste (both hazardous and non-hazardous)? | No |
| 7.3 | Will the proposed Project potentially involve the manufacture, trade, release, and/or use of hazardous chemicals and/or materials? Does the Project propose use of chemicals or materials subject to international bans or phase-outs? | No |
| | For example, DDT, PCBs and other chemicals listed in international conventions such as the Stockholm Conventions on Persistent Organic Pollutants or the Montreal Protocol | |
| 7.4 | Will the proposed Project involve the application of pesticides that may have a negative effect on the environment or human health? | No |
| | | |
