Social and Environmental Screening Template (2021 SESP Template, Version 1)

The completed template, which constitutes the Social and Environmental Screening Report, must be included as an annex to the Project Document at the design stage. Note: this template will be converted into an online tool. The online version will guide users through the process and will embed relevant guidance.

Project Information

Project Information		
1.	Project Title	Our Lives: Our Future. Supporting Self Recovery and Resilience of Conflict Affected Communities in Armenia
2.	Project Number (i.e. Atlas project ID, PIMS+)	00136959, 00127661
3.	Location (Global/Region/Country)	RBEC/ Armenia
4.	Project stage (Design or Implementation)	Design
5.	Date	August 30, 2021

Part A. Integrating Programming Principles to Strengthen Social and Environmental Sustainability

QUESTION 1: How Does the Project Integrate the Programming Principles in Order to Strengthen Social and Environmental Sustainability?

Briefly describe in the space below how the project mainstreams the human rights-based approach

The rights-based approach is at the core of the project intervention strategy and informs the logic of all the components of the project. The action directly targets protection and inclusion of the most vulnerable groups, including people in refugee-like situation, in the post-conflict settings, and in doing so will make sure that the principles of accountability and the rule of law, participation and inclusion, and equality and non-discrimination, noting that prohibited grounds of discrimination include race, ethnicity, sex, age, language, disability, sexual orientation, gender identity, religion, political or other opinion, national or social or geographical origin, property, birth, health status or other status including as an indigenous person or as a member of a minority, are closely observed. To this end the project applies the mechanisms of participatory need validation, facilitated access to information and participation for the most marginalized groups through discussions, information/orientation meetings, one-on-one meetings, socially sensitive selection criteria to ensure the participation of the most vulnerable, equal distribution of benefits and prevention of any potential social tensions between groups. The project will make sure that the human rights-based approach is reflected in the documents regulating the delivery of support to the beneficiaries, meanwhile ensuring that all the parties are aware of their rights and obligations, and there is a redress mechanism.

Briefly describe in the space below how the project is likely to improve gender equality and women's empowerment

The project is informed about the needs of women and incorporates mechanisms to further learn about the specific expectations and problems of women in the target areas. To this end the project will hold need validation exercises with women, particularly for the component 2, directed to address the specific protection and security needs of women. Women's participation will be facilitated through incorporating gender-sensitive selection criteria allowing to engage the most vulnerable subgroups, including women as heads of household, women with disabilities, women in refugee-like situation, women with multichildren households, unemployed women, etc. The project will adjust to the extent possible, the participation requirement and conditions to enable women to overcome any social or cultural barriers to meaningfully participate in the project and equally access the benefits it offers.

Briefly describe in the space below how the project mainstreams sustainability and resilience

The project directly addresses the vulnerabilities of the local populations in post-conflict period, mitigating the negative impacts of the crisis and strengthening the local capacities to withstand the future shocks, particularly through strengthening the local human resource and increasing the resilience towards future economic volatilities by restoring local livelihoods through sustainable production and ownership of assets and inputs. The project design followed a precautionary approach and follows the mitigation hierarchy to first avoid potential adverse impacts to people and the environment, or where avoidance is not possible, to then minimize, mitigate, and as a last resort, offset and compensate for potential residual adverse impacts. Whenever such risks are identified, those will be clearly communicated to the stakeholders and proper mitigation and management mechanisms will be designed. Already identified environmental risks are categorized and included in the risk log and will be closely monitored throughout the project implementation.

Briefly describe in the space below how the project strengthens accountability to stakeholders

The project ensures accountability by enabling community participation through inclusive needs validation and engagement of the most vulnerable groups. The project will design a sound communication and visibility plan to ensure timely access to comprehensible information about project interventions, including related risks to all the stakeholders and beneficiaries, meanwhile the project will ensure that there is a mechanism and awareness of entry points for the stakeholders to submit grievances, complaints and concerns, as well as there is a process of addressing those complaints.

Part B. Identifying and Managing Social and Environmental Risks

QUESTION 2: What are the Potential Social and Environmental Risks? Note: Complete SESP Attachment 1 before responding to Question 2.	the potentia Note: Respo	al social and e	e level of significance of nvironmental risks? as 4 and 5below before	QUESTION 6: Describe the assessment and management measures for each risk rated Moderate, Substantial or High
Risk Description (broken down by event, cause, impact)	Impact and Likelihoo d (1-5)	Significan ce (Low, Moderate Substantia I, High)	Comments (optional)	Description of assessment and management measures for risks rated as Moderate, Substantial or High
Risk 1: EVENT: Unsustainable disposal of project-provided inputs and assets by the beneficiaries. CAUSE: Low awareness of environmental standards and sustainable disposable mechanisms IMPACT: waste, pollution and environmental damage.	I = 3 L =1	Low		
Risk 2: EVENT: Constrained participation of women CAUSE: Reproducing existing cultural and social norms contributing to gender disparities	I = 3 L =1	Low		

IMPACT: undermined LNOB principle,							
deepened gender disparities							
	QUESTION	4: What is the	e overall project risk cate	goriza	tion?		
			Low Risk	Х			
			Moderate Risk				
			Substantial Risk				
			High Risk	_			
	QUEST	TON 5: Based	on the identified risks ar triggered?			gorization, what requirements of th	e SES are
	Question on	ly required for	Moderate, Substantial and	High F	Risk p	rojects	
	Is assessm	ent required?	(check if "yes")				Status? (completed, planned)
		if yes, indic	ate overall type and status			Targeted assessment(s)	
						ESIA (Environmental and Social	
						Impact Assessment)	
						SESA (Strategic Environmental and Social Assessment)	
	Are manage	ement plans r	required? (check if "yes)				
		•	If yes, indicate overall type			Targeted management plans (e.g. Gender Action Plan, Emergency Response Plan, Waste Management Plan, others)	
						ESMP (Environmental and Social Management Plan which may include range of targeted plans)	
						ESMF (Environmental and Social Management Framework)	
		dentified <u>risks</u> Project-level S	s, which Standards triggered?			Comments (not required)

Final Sign Off
Final Screening at the design-stage is not complete until the following signatures are included

Signature		Date	Description
QA Assessor		30.08.21	
	U. gri		Anna Gyurjyan, SED Team Lead
QA Approver		30.08.21	
	Junes.		Mihaela Stojkoska, UNDP RR a.i.
PAC Chair	Sumon	31.08.21	Mihaela Stojkoska, UNDP RR a.i.

SESP Attachment 1. Social and Environmental Risk Screening Checklist

Chec	cklist Potential Social and Environmental Risks	
Temp risk c	RUCTIONS: The risk screening checklist will assist in answering Questions 2-6 of the Screening late. Answers to the checklist questions help to (1) identify potential risks, (2) determine the overall ategorization of the project, and (3) determine required level of assessment and management ures. Refer to the SES toolkit for further guidance on addressing screening questions.	
Overa	arching Principle: Leave No One Behind	Answer (Yes/No)
Huma	ın Rights	
P.1	Have local communities or individuals raised human rights concerns regarding the project (e.g. during the stakeholder engagement process, grievance processes, public statements)?	No
P.2	Is there a risk that duty-bearers (e.g. government agencies) do not have the capacity to meet their obligations in the project?	No
P.3	Is there a risk that rights-holders (e.g. project-affected persons) do not have the capacity to claim their rights?	No
Would	d the project potentially involve or lead to:	
P.4	adverse impacts on enjoyment of the human rights (civil, political, economic, social or cultural) of the affected population and particularly of marginalized groups?	No
P.5	inequitable or discriminatory impacts on affected populations, particularly people living in poverty or marginalized or excluded individuals or groups, including persons with disabilities?	No
P.6	restrictions in availability, quality of and/or access to resources or basic services, in particular to marginalized individuals or groups, including persons with disabilities?	No
P.7	exacerbation of conflicts among and/or the risk of violence to project-affected communities and individuals?	No
Gend	er Equality and Women's Empowerment	
P.8	Have women's groups/leaders raised gender equality concerns regarding the project, (e.g. during the stakeholder engagement process, grievance processes, public statements)?	No
Would	d the project potentially involve or lead to:	
P.9	adverse impacts on gender equality and/or the situation of women and girls?	Yes
P.10	reproducing discriminations against women based on gender, especially regarding participation in design and implementation or access to opportunities and benefits?	Yes
P.11	limitations on women's ability to use, develop and protect natural resources, taking into account different roles and positions of women and men in accessing environmental goods and services?	No
	For example, activities that could lead to natural resources degradation or depletion in communities who depend on these resources for their livelihoods and well being	
P.12	3	No
	For example, through the influx of workers to a community, changes in community and household power dynamics, increased exposure to unsafe public places and/or transport, etc.	
	inability and Resilience: Screening questions regarding risks associated with sustainability and nce are encompassed by the Standard-specific questions below	

¹ Prohibited grounds of discrimination include race, ethnicity, sex, age, language, disability, sexual orientation, gender identity, religion, political or other opinion, national or social or geographical origin, property, birth or other status including as an indigenous person or as a member of a minority. References to "women and men" or similar is understood to include women and men, boys and girls, and other groups discriminated against based on their gender identities, such as transgender and transsexual people.

Acco	untability		
Would	d the project potentially involve or lead to:		
P.13	exclusion of any potentially affected stakeholders, in particular marginalized groups and excluded individuals (including persons with disabilities), from fully participating in decisions that may affect them?	No	
P.14	grievances or objections from potentially affected stakeholders?	No	
P.15	risks of retaliation or reprisals against stakeholders who express concerns or grievances, or who seek to participate in or to obtain information on the project?	No	
Proje	ct-Level Standards		
Stand	lard 1: Biodiversity Conservation and Sustainable Natural Resource Management		
Would	d the project potentially involve or lead to:		
1.1	adverse impacts to habitats (e.g. modified, natural, and critical habitats) and/or ecosystems and ecosystem services? For example, through habitat loss, conversion or degradation, fragmentation, hydrological changes	No	
1.2	activities within or adjacent to critical habitats and/or environmentally sensitive areas, including (but not limited to) legally protected areas (e.g. nature reserve, national park), areas proposed for protection, or recognized as such by authoritative sources and/or indigenous peoples or local communities?	No	
1.3	changes to the use of lands and resources that may have adverse impacts on habitats, ecosystems, and/or livelihoods? (Note: if restrictions and/or limitations of access to lands would apply, refer to Standard 5)	No	
1.4	risks to endangered species (e.g. reduction, encroachment on habitat)?	No	
1.5	exacerbation of illegal wildlife trade?	No	
1.6	introduction of invasive alien species?	No	
1.7	adverse impacts on soils?	No	
1.8	harvesting of natural forests, plantation development, or reforestation?	No	
1.9	significant agricultural production?	No	
1.10	animal husbandry or harvesting of fish populations or other aquatic species?	No	
1.11	significant extraction, diversion or containment of surface or ground water? For example, construction of dams, reservoirs, river basin developments, groundwater extraction	No	
1.12	handling or utilization of genetically modified organisms/living modified organisms? ²	No	
1.13	utilization of genetic resources? (e.g. collection and/or harvesting, commercial development) ³	No	
1.14	adverse transboundary or global environmental concerns?	No	
Stand	lard 2: Climate Change and Disaster Risks		
Would the project potentially involve or lead to:			
2.1	areas subject to hazards such as earthquakes, floods, landslides, severe winds, storm surges, tsunami or volcanic eruptions?	No	
2.2	outputs and outcomes sensitive or vulnerable to potential impacts of climate change or disasters?	No	

 ² See the <u>Convention on Biological Diversity</u> and its <u>Cartagena Protocol on Biosafety</u>.
 ³ See the <u>Convention on Biological Diversity</u> and its <u>Nagoya Protocol</u> on access and benefit sharing from use of genetic resources.

	For example, through increased precipitation, drought, temperature, salinity, extreme events, earthquakes	
2.3	increases in vulnerability to climate change impacts or disaster risks now or in the future (also known as maladaptive or negative coping practices)?	No
	For example, changes to land use planning may encourage further development of floodplains, potentially increasing the population's vulnerability to climate change, specifically flooding	
2.4	increases of greenhouse gas emissions, black carbon emissions or other drivers of climate change?	No
Stand	dard 3: Community Health, Safety and Security	
Woul	d the project potentially involve or lead to:	
3.1	construction and/or infrastructure development (e.g. roads, buildings, dams)? (Note: the GEF does not finance projects that would involve the construction or rehabilitation of large or complex dams)	No
3.2	air pollution, noise, vibration, traffic, injuries, physical hazards, poor surface water quality due to runoff, erosion, sanitation?	No
3.3	harm or losses due to failure of structural elements of the project (e.g. collapse of buildings or infrastructure)?	No
3.4	risks of water-borne or other vector-borne diseases (e.g. temporary breeding habitats), communicable and noncommunicable diseases, nutritional disorders, mental health?	No
3.5	transport, storage, and use and/or disposal of hazardous or dangerous materials (e.g. explosives, fuel and other chemicals during construction and operation)?	No
3.6	adverse impacts on ecosystems and ecosystem services relevant to communities' health (e.g. food, surface water purification, natural buffers from flooding)?	No
3.7	influx of project workers to project areas?	No
3.8	engagement of security personnel to protect facilities and property or to support project activities?	No
Stand	lard 4: Cultural Heritage	
Woul	d the project potentially involve or lead to:	
4.1	activities adjacent to or within a Cultural Heritage site?	No
4.2	significant excavations, demolitions, movement of earth, flooding or other environmental changes?	No
4.3	adverse impacts to sites, structures, or objects with historical, cultural, artistic, traditional or religious values or intangible forms of culture (e.g. knowledge, innovations, practices)? (Note: projects intended to protect and conserve Cultural Heritage may also have inadvertent adverse impacts)	No
4.4	alterations to landscapes and natural features with cultural significance?	No
4.5	utilization of tangible and/or intangible forms (e.g. practices, traditional knowledge) of Cultural Heritage for commercial or other purposes?	No
Stand	lard 5: Displacement and Resettlement	
Woul	d the project potentially involve or lead to:	
5.1	temporary or permanent and full or partial physical displacement (including people without legally recognizable claims to land)?	No
5.2	economic displacement (e.g. loss of assets or access to resources due to land acquisition or access restrictions – even in the absence of physical relocation)?	No

5.3	risk of forced evictions? ⁴	
5.4	impacts on or changes to land tenure arrangements and/or community based property rights/customary rights to land, territories and/or resources?	No
Stan	dard 6: Indigenous Peoples	
Woul	d the project potentially involve or lead to:	
6.1	areas where indigenous peoples are present (including project area of influence)?	No
6.2	activities located on lands and territories claimed by indigenous peoples?	No
6.3	impacts (positive or negative) to the human rights, lands, natural resources, territories, and traditional livelihoods of indigenous peoples (regardless of whether indigenous peoples possess the legal titles to such areas, whether the project is located within or outside of the lands and territories inhabited by the affected peoples, or whether the indigenous peoples are recognized as indigenous peoples by the country in question)? If the answer to screening question 6.3 is "yes", then the potential risk impacts are considered significant and the project would be categorized as either Substantial Risk or High Risk	No
6.4	the absence of culturally appropriate consultations carried out with the objective of achieving FPIC on matters that may affect the rights and interests, lands, resources, territories and traditional livelihoods of the indigenous peoples concerned?	No
6.5	the utilization and/or commercial development of natural resources on lands and territories claimed by indigenous peoples?	No
6.6	forced eviction or the whole or partial physical or economic displacement of indigenous peoples, including through access restrictions to lands, territories, and resources? Consider, and where appropriate ensure, consistency with the answers under Standard 5 above	No
6.7	adverse impacts on the development priorities of indigenous peoples as defined by them?	No
6.8	risks to the physical and cultural survival of indigenous peoples?	No
6.9	impacts on the Cultural Heritage of indigenous peoples, including through the commercialization or use of their traditional knowledge and practices? Consider, and where appropriate ensure, consistency with the answers under Standard 4 above.	No
Stan	dard 7: Labour and Working Conditions	
Woul	d the project potentially involve or lead to: (note: applies to project and contractor workers)	
7.1	working conditions that do not meet national labour laws and international commitments?	No
7.2	working conditions that may deny freedom of association and collective bargaining?	No
7.3	use of child labour?	No
7.4	use of forced labour?	No
7.5	discriminatory working conditions and/or lack of equal opportunity?	No
7.6	occupational health and safety risks due to physical, chemical, biological and psychosocial hazards (including violence and harassment) throughout the project life-cycle?	No
Stand	dard 8: Pollution Prevention and Resource Efficiency	
Woul	d the project potentially involve or lead to:	

⁴ Forced eviction is defined here as the permanent or temporary removal against their will of individuals, families or communities from the homes and/or land which they occupy, without the provision of, and access to, appropriate forms of legal or other protection. Forced evictions constitute gross violations of a range of internationally recognized human rights.

8.1	the release of pollutants to the environment due to routine or non-routine circumstances with the potential for adverse local, regional, and/or transboundary impacts?	Yes
8.2	the generation of waste (both hazardous and non-hazardous)?	Yes
8.3	the manufacture, trade, release, and/or use of hazardous materials and/or chemicals?	No
8.4	the use of chemicals or materials subject to international bans or phase-outs? For example, DDT, PCBs and other chemicals listed in international conventions such as the Montreal Protocol, Minamata Convention, Basel Convention, Rotterdam Convention, Stockholm Convention	No
8.5	the application of pesticides that may have a negative effect on the environment or human health?	No
8.6	significant consumption of raw materials, energy, and/or water?	No
