

# Closure Stage Quality Assurance Report

**Form Status: Approved**

**Overall Rating:** Satisfactory

**Decision:**

**Portfolio/Project Number:** 00116243

**Portfolio/Project Title:** Midnimo-II: Support for the Attainment of Durable Sol

**Portfolio/Project Date:** 2019-01-01 / 2022-03-31

**Strategic**

**Quality Rating: Satisfactory**

1. Did the project pro-actively identified changes to the external environment and incorporated them into the project strategy?

- ☐ 3: The project team identified relevant changes in the external environment that may present new opportunities or threats to the project's ability to achieve its objectives, assumptions were tested to determine if the project's strategy was valid. There is some evidence that the project board considered the implications, and documented the changes needed to the project in response. (all must be true)
- ☒ 2: *The project team identified relevant changes in the external environment that may present new opportunities or threats to the project's ability to achieve its objectives. There is some evidence that the project board discussed this, but relevant changes did not fully integrate in the project. (both must be true)*
- ☐ 1: The project team considered relevant changes in the external environment since implementation began, but there is no evidence that the project team considered these changes to the project as a result.

**Evidence:**

Consultations through several meetings were held between UNDP, IOM and UN Habitat with the rest of the Somali FGS authorities and those in Galmudug and Hirshabelle. Evidence can be gleaned from the MIDNIMO II prodoc.

1	181214_Somalia_PRFMidnimollproject_Pro Doc_6793_301 ( <a href="https://intranet.undp.org/apps/ProjectQA/QAFormDocuments/181214_Somalia_PRFMidnimollproject_ProDoc_6793_301.pdf">https://intranet.undp.org/apps/ProjectQA/QAFormDocuments/181214_Somalia_PRFMidnimollproject_ProDoc_6793_301.pdf</a> )	tendai.chabvuta@undp.org	12/17/2020 11:07:00 PM

2. Was the project aligned with the thematic focus of the Strategic Plan?

- ☐ 3: The project responded to at least one of the development settings as specified in the Strategic Plan (SP) and adopted at least one Signature Solution .The project's RRF included all the relevant SP output indicators. (all must be true)
- ☒ 2: *The project responded to at least one of the developments settings1 as specified in the Strategic Plan. The project's RRF included at least one SP output indicator, if relevant. (both must be true)*
- ☐ 1: While the project may have responded to a partner's identified need, this need falls outside of the UNDP Strategic Plan. Also select this option if none of the relevant SP indicators are included in the RRF.

**Evidence:**

The project sought to assist refugees and IDPs in the target communities by seeking to relieve the poverty and build their resilience in the same vein. The activities were aligned to Signature Solution 1: Keeping people out of poverty.

The project addresses SP 1 and SP 4 of the UN Strategic Framework (2017-2020) as follows:

- Strategic Priority 1: Deepening federalism and state-building, supporting conflict resolution and reconciliation, and preparing for universal elections
  - o Outcome 1.2: Actual and potential conflicts are resolved or are prevented from turning violent
- Strategic Priority 4: Strengthening resilience of Somali institutions, society and population
  - o Outcome 4.3: Provision of comprehensive and sustainable solutions for IDPs, vulnerable migrants, refugee returnees and host communities;

Additionally, the project also advances the Sustainable Development Goals: SDG5 (Gender Equality); SDG11 (Sustainable Cities and Communities); SDG16 (Peace, Justice and Strong Institutions).

The project also advances the Inter-Agency Standing Committee (IASC) Framework on Durable Solutions that ensures displaced populations are included in all peacebuilding and peace-making processes and are provided with opportunities to achieve durable solutions. More specifically, the inclusion of women in all peace efforts as articulated in the UN Security Council Resolution (UNSCR) 1325.

**Relevant**

**Quality Rating: Satisfactory**

3. Were the project's targeted groups systematically identified and engaged, with a priority focus on the discriminated and marginalized, to ensure the project remained relevant for them?

- ☐ 3: Systematic and structured feedback was collected over the project duration from a representative sample of beneficiaries, with a priority focus on the discriminated and marginalized, as part of the project's monitoring system. Representatives from the targeted groups were active members of the project's governance mechanism (i.e., the project board or equivalent) and there is credible evidence that their feedback informs project decision making. (all must be true)
- ☒ 2: *Targeted groups were engaged in implementation and monitoring, with a priority focus on the discriminated and marginalized. Beneficiary feedback, which may be anecdotal, was collected regularly to ensure the project addressed local priorities. This information was used to inform project decision making. (all must be true to select this option)*
- ☐ 1: Some beneficiary feedback may have been collected, but this information did not inform project decision making. This option should also be selected if no beneficiary feedback was collected
- ☐ Not Applicable

#### Evidence:

The project document notes that interviews and consultations were held over a period of time before the project was designed. The consultations were extensive and inclusive.

This project targets the IDPs/migrants and other groups that belong to the 'most vulnerable' category, who are involved in Community Action Planning, and implementation of various project activities.

This project also incorporates a gender dimension in the following key activities:

- community sensitization (with the presence of women groups, wherever possible, in addition to female community members, men, and boys),
- in the selection of target households (priority will be given to female-headed households),
- ensuring equal representation and participation of men and women (and inclusion of boys and girls where appropriate) in the planned community consultation and planning as well as cultural/arts/sports activities, disaggregate data collection and reporting by gender, including female members in the core facilitating team, dispute resolution committees and project staff, and taking into consideration gender-specific factors to its programming.

No documents available.			

4. Did the project generate knowledge, and lessons learned (i.e., what has worked and what has not) and has this knowledge informed management decisions to ensure the continued relevance of the project towards its stated objectives, the quality of its outputs and the management of risk?

- ☐ 3: Knowledge and lessons learned from internal or external sources (gained, for example, from Peer Assists, After Action Reviews or Lessons Learned Workshops) backed by credible evidence from evaluation, corporate policies/strategies, analysis and monitoring were discussed in project board meetings and reflected in the minutes. There is clear evidence that changes were made to the project to ensure its continued relevance. (both must be true)
- ☒ 2: *Knowledge and lessons learned backed by relatively limited evidence, drawn mainly from within the project, were considered by the project team. There is some evidence that changes were made to the project as a result to ensure its continued relevance. (both must be true)*
- ☐ 1: There is limited or no evidence that knowledge and lessons learned were collected by the project team. There is little or no evidence that this informed project decision making.

**Evidence:**

Project reports show government structures are now better able to respond to the needs of their constituents with the capacity building provided either through their participation in training and awareness raising activities or modelling new approaches such as the CAP that embodied transparency and inclusion in community decision making. This has led to efforts to come up with a new project focusing on building the resilience of IDPs and refugees in more areas in Somalia.

No documents available.			

5. Was the project sufficiently at scale, or is there potential to scale up in the future, to meaningfully contribute to development change?

- ☒ 3: *There was credible evidence that the project reached sufficient number of beneficiaries (either directly through significant coverage of target groups, or indirectly, through policy change) to meaningfully contribute to development change.*
- ☐ 2: While the project was not considered at scale, there are explicit plans in place to scale up the project in the future (e.g. by extending its coverage or using project results to advocate for policy change).
- ☐ 1: The project was not at scale, and there are no plans to scale up the project in the future.

**Evidence:**

Midnimo 2 provided an entry point for larger initiatives in Hirshabelle and Galmudug and setting the platform for collaboration the UN Joint Programme of Local Governance and Decentralized Service Delivery (JPLG) in both Federal Member States.

In Galmudug State, the Public Private Partnership developed in Abudwaq has provided a model for both government and development partners. The new Galmudug administration aims to replicate the model elsewhere to constitute a 'peace dividend' following reconciliation processes. The EU, via its Instrument Contributing to Stability and Peace (IcSP), has earmarked approximately EURO 1 Million to CAP-style programming and peace dividends in Galmudug between 2020-22.

**Principled****Quality Rating: Highly Satisfactory**

6. Were the project's measures (through outputs, activities, indicators) to address gender inequalities and empower women relevant and produced the intended effect? If not, evidence-based adjustments and changes were made.

- ☒ 3: *The project team gathered data and evidence through project monitoring on the relevance of the measures to address gender inequalities and empower women. Analysis of data and evidence were used to inform adjustments and changes, as appropriate. (both must be true)*
- ☐ 2: The project team had some data and evidence on the relevance of the measures to address gender inequalities and empower women. There is evidence that at least some adjustments were made, as appropriate. (both must be true)
- ☐ 1: The project team had limited or no evidence on the relevance of measures to address gender inequalities and empowering women. No evidence of adjustments and/or changes made. This option should also be selected if the project has no measures to address gender inequalities and empower women relevant to the project results and activities.

#### Evidence:

Approximately 40% (US\$ 131,847) of Outcome budget was spent to support activities led by or included women.

Women empowerment has been an important part of Midnimo 2 activities. Seventy-five percent of Community Facilitators leading the social cohesion and community-wide campaigns in both Abudwaq and Jowhar are women which set an example for women-led community activities.

In most of the project areas, Midnimo II strongly promoted inclusion in the CAP process that set a 50% women participation rate, as well as formation of community committees, and cash-for-work activities.

During the CAP process, community committees are formed including Core Facilitation Teams (CFT), Community Action Groups (CAG) and Community Based M&E groups (CBM&E). Across all target areas, CFTs comprise 21 individuals (33% female), CAGs comprise 22 individuals (41% female) and CBM&E groups comprise 12 individuals (25% female). Finally, 40% of the total CAP participants are female.

7. Were social and environmental impacts and risks successfully managed and monitored?

- ☒ 3: *Social and environmental risks were tracked in the risk log. Appropriate assessments conducted where required (i.e., Environmental and Social Impact Assessment (ESIA) for High risk projects and some level of social and environmental assessment for Moderate risk projects as identified through SESP). Relevant management plan(s) developed for identified risks through consultative process and implemented, resourced, and monitored. Risks effectively managed or mitigated. If there is a substantive change to the project or change in context that affects risk levels, the SESP was updated to reflect these changes. (all must be true)*
- ☐ 2: Social and environmental risks were tracked in the risk log. Appropriate assessments conducted where required (i.e., Environmental and Social Impact Assessment (ESIA) for High risk projects and some level of social and environmental assessment for Moderate risk projects as identified through SESP). Relevant management plan(s) developed, implemented and monitored for identified risks. OR project was categorized as Low risk through the SESP.
- ☐ 1: Social and environmental risks were tracked in the risk log. For projects categorized as High or Moderate Risk, there was no evidence that social and environmental assessments completed and/or management plans or measures development, implemented or monitored. There are substantive changes to the project or changes in the context but SESP was not updated. (any may be true)

#### Evidence:

an SESP document was done and adhered to. There were no significant risks noticed during the duration of the project in 2020.

#### List of Uploaded Documents

1	SESPSIP2020_ENGLISH_Saameynta2020_6793_307 ( <a href="https://intranet.undp.org/apps/ProjectQA/QAFormDocuments/SESPSIP2020_ENGLISH_Saameynta2020_6793_307.pdf">https://intranet.undp.org/apps/ProjectQA/QAFormDocuments/SESPSIP2020_ENGLISH_Saameynta2020_6793_307.pdf</a> )	tendai.chabvuta@undp.org	12/20/2020 5:50:00 PM

8. Were grievance mechanisms available to project-affected people and were grievances (if any) addressed to ensure any perceived harm was effectively mitigated?

- ☐ 3: Project-affected people actively informed of UNDP's Corporate Accountability Mechanism (SRM/SECU) and how to access it. If the project was categorized as High or Moderate Risk through the SESP, a project -level grievance mechanism was in place and project affected people informed. If grievances were received, they were effectively addressed in accordance with SRM Guidance. (all must be true)
- ☒ 2: *Project-affected people informed of UNDP's Corporate Accountability Mechanism and how to access it. If the project was categorized as High Risk through the SESP, a project -level grievance mechanism was in place and project affected people informed. If grievances were received, they were responded to but faced challenges in arriving at a resolution.*
- ☐ 1: Project-affected people was not informed of UNDP's Corporate Accountability Mechanism. If grievances were received, they were not responded to. (any may be true)

**Evidence:**

The project consulted with project beneficiaries and gathered information on challenges faced within the different project areas. Where possible the project management worked with the different Ministries to collect information on risks and how to resolve them.

**Management & Monitoring****Quality Rating: Satisfactory**

9. Was the project's M&E Plan adequately implemented?

- ☐ 3: The project had a comprehensive and costed M&E plan. Baselines, targets and milestones were fully populated. Progress data against indicators in the project's RRF was reported regularly using credible data sources and collected according to the frequency stated in the Plan, including sex disaggregated data as relevant. Any evaluations conducted, if relevant, fully meet decentralized evaluation standards, including gender UNEG standards. Lessons learned, included during evaluations and/or After-Action Reviews, were used to take corrective actions when necessary. (all must be true)
- ☒ 2: *The project costed M&E Plan, and most baselines and targets were populated. Progress data against indicators in the project's RRF was collected on a regular basis, although there was may be some slippage in following the frequency stated in the Plan and data sources was not always reliable. Any evaluations conducted, if relevant, met most decentralized evaluation standards. Lessons learned were captured but were used to take corrective actions. (all must be true)*
- ☐ 1: The project had M&E Plan, but costs were not clearly planned and budgeted for, or were unrealistic. Progress data was not regularly collected against the indicators in the project's RRF. Evaluations did not meet decentralized evaluation standards. Lessons learned were rarely captured and used. Select this option also if the project did not have an M&E plan.

**Evidence:**

While the project M&E Plan was drafted and approved at the beginning of the year, the Covid 19 pandemic disrupted most of the monitoring activities. However, the project team still managed to collect data and work with the Government partners. The progress data was collected and information collected on a regular basis.

10. Was the project's governance mechanism (i.e., the project board or equivalent) function as intended?

- ☐ 3: The project's governance mechanism operated well, and was a model for other projects. It met in the agreed frequency stated in the project document and the minutes of the meetings were all on file. There was regular (at least annual) progress reporting to the project board or equivalent on results, risks and opportunities. It is clear that the project board explicitly reviewed and used evidence, including progress data, knowledge, lessons and evaluations, as the basis for informing management decisions (e.g., change in strategy, approach, work plan.) (all must be true to select this option)
- ☒ 2: *The project's governance mechanism met in the agreed frequency and minutes of the meeting are on file. A project progress report was submitted to the project board or equivalent at least once per year, covering results, risks and opportunities. (both must be true to select this option)*
- ☐ 1: The project's governance mechanism did not meet in the frequency stated in the project document over the past year and/or the project board or equivalent was not functioning as a decision-making body for the project as intended.

**Evidence:**

A mid term project progress report was submitted to the donors covering the January - June 2020 period.

11. Were risks to the project adequately monitored and managed?

- ☐ 3: The project monitored risks every quarter and consulted with the key stakeholders, security advisors, to identify continuing and emerging risks to assess if the main assumptions remained valid. There is clear evidence that relevant management plans and mitigating measures were fully implemented to address each key project risk and were updated to reflect the latest risk assessment. (all must be true)
- ☒ 2: *The project monitored risks every year, as evidenced by an updated risk log. Some updates were made to management plans and mitigation measures.*
- ☐ 1: The risk log was not updated as required. There was may be some evidence that the project monitored risks that may affected the project's achievement of results, but there is no explicit evidence that management actions were taken to mitigate risks.

**Evidence:**

A risk matrix was constantly noted and recorded in Atlas.

13. Were project inputs procured and delivered on time to efficiently contribute to results?

- ☐ 3: The project had a procurement plan and kept it updated. The project quarterly reviewed operational bottlenecks to procuring inputs in a timely manner and addressed them through appropriate management actions. (all must be true)
- ☒ 2: *The project had updated procurement plan. The project annually reviewed operational bottlenecks to procuring inputs in a timely manner and addressed them through appropriate management actions. (all must be true)*
- ☐ 1: The project did not have an updated procurement plan. The project team may or may not have reviewed operational bottlenecks to procuring inputs regularly, however management actions were not taken to address them.

**Evidence:**

The procurement plan was drafted and approved by management and adhered to as per the plan attached.

**List of Uploaded Documents**

14. Was there regular monitoring and recording of cost efficiencies, taking into account the expected quality of results?

- ☐ 3: There is evidence that the project regularly reviewed costs against relevant comparators (e.g., other projects or country offices) or industry benchmarks to ensure the project maximized results delivered with given resources. The project actively coordinated with other relevant ongoing projects and initiatives (UNDP or other) to ensure complementarity and sought efficiencies wherever possible (e.g. joint activities.) (both must be true)
- ☒ 2: *The project monitored its own costs and gave anecdotal examples of cost efficiencies (e.g., spending less to get the same result,) but there was no systematic analysis of costs and no link to the expected quality of results delivered. The project coordinated activities with other projects to achieve cost efficiency gains.*
- ☐ 1: There is little or no evidence that the project monitored its own costs and considered ways to save money beyond following standard procurement rules.

**Evidence:**

The project was guided by the AWP.

**Effective****Quality Rating: Satisfactory**

15. Was the project on track and delivered its expected outputs?

- ☒ Yes
- ☐ No

**Evidence:**

The project was on track and the results are attached.

**List of Uploaded Documents**

#	File Name	Modified By	Modified On
1	MIDNIMResultsmatrix2020_6793_315 ( <a href="http://intranet.undp.org/apps/ProjectQA/QAFormDocuments/MIDNIMResultsmatrix2020_6793_315.docx">http://intranet.undp.org/apps/ProjectQA/QAFormDocuments/MIDNIMResultsmatrix2020_6793_315.docx</a> )	tendai.chabvuta@undp.org	12/18/2020 8:55:00 PM

16. Were there regular reviews of the work plan to ensure that the project was on track to achieve the desired results, and to inform course corrections if needed?

- ☐ 3: Quarterly progress data informed regular reviews of the project work plan to ensure that the activities implemented were most likely to achieve the desired results. There is evidence that data and lessons learned (including from evaluations /or After-Action Reviews) were used to inform course corrections, as needed. Any necessary budget revisions were made. (both must be true)
- ☒ 2: *There was at least one review of the work plan per year with a view to assessing if project activities were on track to achieving the desired development results (i.e., outputs.) There may or may not be evidence that data or lessons learned were used to inform the review(s). Any necessary budget revisions have been made.*
- ☐ 1: While the project team may have reviewed the work plan at least once over the past year to ensure outputs were delivered on time, no link was made to the delivery of desired development results. Select this option also if no review of the work plan by management took place.

**Evidence:**

A review was done annually with yearly AWP's approved by the Board, UNDP and stakeholders.

**List of Uploaded Documents**

#	File Name	Modified By	Modified On

17. Were the targeted groups systematically identified and engaged, prioritizing the marginalized and excluded, to ensure results were achieved as expected?

- ☐ 3: The project targeted specific groups and/or geographic areas, identified by using credible data sources on their capacity needs, deprivation and/or exclusion from development opportunities relevant to the project's area of work. There is clear evidence that the targeted groups were reached as intended. The project engaged regularly with targeted groups over the past year to assess whether they benefited as expected and adjustments were made if necessary, to refine targeting. (all must be true)
- ☒ 2: *The project targeted specific groups and/or geographic areas, based on some evidence of their capacity needs, deprivation and/or exclusion from development opportunities relevant to the project's area of work. Some evidence is provided to confirm that project beneficiaries are members of the targeted groups. There was some engagement with beneficiaries in the past year to assess whether they were benefiting as expected. (all must be true)*
- ☐ 1: The project did not report on specific targeted groups. There is no evidence to confirm that project beneficiaries are populations have capacity needs or are deprived and/or excluded from development opportunities relevant to the project area of work. There is some engagement with beneficiaries to assess whether they benefited as expected, but it was limited or did not occurred in the past year.
- ☐ Not Applicable

#### Evidence:

The targeted groups were from selected communities in Hirshabelle and Galmudug, two Federal Member States that have seen serious upheavals due to internal displacements as well as receiving large numbers of refugee communities.

#### Sustainability & National Ownership

Quality Rating: **Satisfactory**

18. Were stakeholders and national partners fully engaged in the decision-making, implementation and monitoring of the project?

- ☐ 3: Only national systems (i.e., procurement, monitoring, evaluation, etc.) were used to fully implement and monitor the project. All relevant stakeholders and partners were fully and actively engaged in the process, playing a lead role in project decision-making, implementation and monitoring. (both must be true)
- ☒ 2: *National systems (i.e., procurement, monitoring, evaluation, etc.) were used to implement and monitor the project (such as country office support or project systems) were also used, if necessary. All relevant stakeholders and partners were actively engaged in the process, playing an active role in project decision-making, implementation and monitoring. (both must be true)*
- ☐ 1: There was relatively limited or no engagement with national stakeholders and partners in the decision-making, implementation and/or monitoring of the project.
- ☐ Not Applicable

**Evidence:**

The project used UNDP procurement procedures for all purchases and recruitment of all national and international advisors. Payments were made through the local banks and were monitored through the Capacity Injection Reporting Tool run by the RCO in Somalia.

**List of Uploaded Documents**

#	File Name	Modified By	Modified On
No documents available.			

19. Were there regular monitoring of changes in capacities and performance of institutions and systems relevant to the project, as needed, and were the implementation [arrangements](#)<sup>8</sup> adjusted according to changes in partner capacities?

- ☐ 3: Changes in capacities and performance of national institutions and systems were assessed/monitored using clear indicators, rigorous methods of data collection and credible data sources including relevant HACT assurance activities. Implementation arrangements were formally reviewed and adjusted, if needed, in agreement with partners according to changes in partner capacities. (all must be true)
- ☒ 2: *Aspects of changes in capacities and performance of relevant national institutions and systems were monitored by the project using indicators and reasonably credible data sources including relevant HACT assurance activities. Some adjustment was made to implementation arrangements if needed to reflect changes in partner capacities. (all must be true)*
- ☐ 1: Some aspects of changes in capacities and performance of relevant national institutions and systems may have been monitored by the project, however changes to implementation arrangements have not been considered. Also select this option if changes in capacities and performance of relevant national institutions and systems have not been monitored by the project.
- ☐ Not Applicable

**Evidence:**

The project partners were assessed as high risk and funds were managed through UNDP's funds management system that requires that high risk partners and projects be managed through Direct Implementation modalities.

#	File Name	Modified By	Modified On
No documents available.			

20. Were the transition and phase-out arrangements were reviewed and adjusted according to progress (including financial commitment and capacity).

- ☐ 3: The project's governance mechanism regularly reviewed the project's sustainability plan, including arrangements for transition and phase-out, to ensure the project remained on track in meeting the requirements set out by the plan. The plan was implemented as planned by the end of the project, taking into account any adjustments made during implementation. (both must be true)
- ☒ 2: *There was a review of the project's sustainability plan, including arrangements for transition and phase-out, to ensure the project remained on track in meeting the requirements set out by the plan.*
- ☐ 1: The project may have had a sustainability plan but there was no review of this strategy after it was developed. Also select this option if the project did not have a sustainability strategy.

**Evidence:**

AWP ensured this was done.
