Narrative

A new UN Joint Programme titled "Access to Justice without Barriers for Persons with Disabilities" was developed to focus on one of the major gaps of the DRIC programme: access to justice and accessible mechanisms to protect the rights of persons with disabilities, including in detention.

The Programme will enhance the capacity of duty bearers to implement the United Nations Convention on the Rights of Persons with Disabilities (UNCRPD) on access to justice and services. By ensuring that specific actions on access to justice are included in the National Disability Strategic Plan 2019-2023; persons with disabilities have access to legal aid; and piloting grievance mechanisms in three provinces. The programme also seeks to enhance the disability movement's capacity to advance the rights of persons with disabilities and assist them in seeking justice, including through strengthened engagement with local authorities. In order to achieve changes that will advance access to justice and grievance mechanisms for persons with disabilities in Cambodia, the programme will focus on the following objectives:

- The capacity of the RGC is strengthened to better implement the UNCRPD in the areas of access to justice and services for persons with disabilities.
- The disability movement's capacity to better advance persons with disabilities' rights and assist them in seeking justice is enhanced
