

United Nations Development Programme

Project Document

Project Title	Environment and Energy Global Programme 2009-2011
Expected Outcomes:	<p>The capacity of developing countries is strengthened to manage the environment in a sustainable manner while ensuring adequate protection and empowerment of vulnerable groups.</p> <ol style="list-style-type: none"> 1. Capacities are strengthened to mainstream environment and energy concerns into UN Development Assistance Frameworks (UNDAFs), UNDP Country Programmes, country partner planning and programming processes, and relevant thematic areas (i.e. water, chemicals). 2. National and sub-national capacities are strengthened to assess, access, combine, and sequence financial instruments and/or market mechanisms with policy instruments to support environmental management. 3. National capacities are strengthened to mainstream climate change policies into national development plans. 4. Local capacities are strengthened to manage the environment and expand access to environmental and energy services, especially for vulnerable groups. 5. Advocacy, communications, and knowledge management on behalf of environmental sustainability are improved.
Executing Entity:	UNDP (DEX)
Implementing Agencies:	UNDP Environment and Energy Group (EEG)
