

The Government of Federal Republic of Nigeria
United Nations Development Programme
Country: NIGERIA
PROJECT DOCUMENT¹

Project Title: Preparation of Third National Communication (TNC) to the UNFCCC and Capacity Strengthening on Climate Change

UNDAF Outcome(s): **Outcome 4.3.** By 2017, Nigeria's environmental vulnerability to negative effects of economic activities, urbanization and climate change is reduced, focusing on sustainable environmental and natural resource management.

UNDP Strategic Plan Environment and Sustainable Development Primary Outcome: Reduce the likelihood of conflict and lower the risk of natural disasters, including from climate change.

UNDP Strategic Plan Secondary Outcome: Growth and development are inclusive and sustainable, incorporating productive capacities that create employment and livelihoods for the poor and the excluded

Expected CPAP Outcome(s) **Outcome 4.** Peaceful, secure and sustainable development path where disaster, environmental, climate and conflict risks and threats are mitigated by policies, laws and plans that are participatory, gender responsive, funded, monitored and enforced systematically at all levels

Expected CPAP Output (s)

Output 4.3.1. A comprehensive national framework for the sustainable management of Nigeria's natural resources, including water, air, oil, biodiversity, natural habitats and extractive industries.

Output 4.3.2. Environmental institutions at Federal, State and LGA levels are capable to implement policies and enforce laws for environmental management.

Executing Entity/Implementing Partner: Federal Ministry of Environment

Implementing Entity/Responsible Partners: Department of Climate Change, Federal Ministry of Environment

¹ For UNDP supported GEF funded projects as this includes GEF-specific requirements

Brief Description

Nigeria ratified the UN Framework Convention on Climate Change (UNFCCC) in 1994. As part of its international commitments under this Convention, the Government of Nigeria ensures regular reporting of climate change related trends and developments in the form of national communications. In 2014, with the financial support of Global Environmental Facility (GEF) and assistance of United Nations Development Programme (UNDP) the Federal Ministry of Environment finalized the country's Second National Communication (SNC). The main objective of this project is to enable Nigeria to prepare and submit its Third National Communication in accordance with its commitments as a non-Annex 1 Party to the Convention. It will contribute to the building of information/ knowledge regarding national sources of GHGs, the impacts of climate change on sustainable social and economic development, highlighting the potential which exist for opportunities to abate the emissions, and setting priorities national adaptation measures. It will also result in increased capacity to produce subsequent NCs that meet all guidelines established by the Conference of Parties (CoP) and that can serve as a source of information for national policies and measures in climate change and in key economic and social sectors.

Programme Period:	2015 -2018
Atlas Award ID:	00088699
Project ID:	00095237
PIMS #	5373
Start date:	July 2015
End Date	June 2019
Management Arrangements	NIM
PAC Meeting Date	15 May 2015

Total resources required	USD 10,450,000
Total allocated resources:	USD 10,450,000
• Regular	
• Other:	
◦ GEF	USD 1,850,000
◦ UNDP cash	USD 100,000
◦ Government cash	USD 2,000,000
In-kind contributions/Government	USD 6,500,000
