Re: Delegation of Directorate of Water Resources Development, Management and WASH Coordination as a Responsible Party under the Zimbabwe UNDP GCF Project Titled: Building Climate Resilience of Vulnerable Agricultural Livelihoods in Southern Zimbabwe

The Ministry of Lands, Agriculture, Water and Rural Resettlement is leading the implementation of the above project as the Executing Entity.

ZINWA was identified in the project development phase and subsequently confirmed in the Local Project Appraisal Committee (LPAC) meeting with all stakeholders, as possessing particular added advantages, specific and related to implement agreed project components to the achievement of the project's overall objective. As such the Directorate of Water Resources Development, Management and WASH Coordination was endorsed as one of the Responsible Parties for the project.

As detailed in the project document, each selected Responsible Party is in charge of specific components of the project will, as such, have full accountability of ensuring the assigned project components' good and timely achievement.

The Ministry for its part will ensure a coordinating role, closely monitoring the progress of each Responsible Party and guaranteeing the timely submission of progress reports for consolidation.

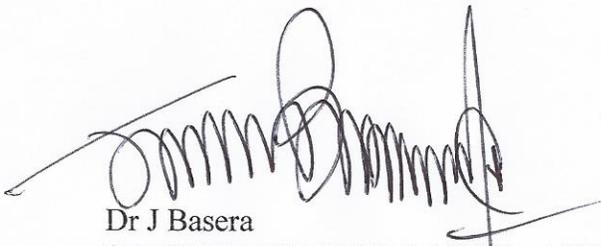

It is against this background, that the Ministry as the Implementing Partner, do hereby delegates Directorate of Water Resources Development, Management and WASH Coordination the mandate to deliver the specific and related project components as detailed in the project document and summarised in this letter.

Under Output 3: Improved access to weather, climate and hydrological information for climate-resilient agriculture.

The Directorate of Water Resources Development, Management and WASH Coordination in collaboration with the Meteorological Services Department will support this output by leading the implementation of the following activities;

Activity 3.1: Installation and operationalization of weather/climate and hydrological observation networks.

We look forward to your cooperation and continued collaboration in furthering our mandates on building resilience of the vulnerable smallholder farmers in Zimbabwe and in delivering the objectives of the broader economic transformation and other Sustainable Development Goals.

Dr J Basera

SECRETARY FOR LANDS, AGRICULTURE, WATER AND RURAL RESETTLEMENT
